The Stranger Times C. K. McDonnell, 2021-01-07 'Wonderfully dark, extremely funny' proclaimed ADAM KAY, author of the No.1 bestselling *This is Going to Hurt* 'A filmic romp with great characters, a jet-propelled plot, and a winning premise' said the GUARDIAN JASON MANFORD thinks it's 'Hilarious. You'll never look at Manchester the same way again.' The Chronicles of St Mary's series author JODI TAYLOR declared 'I loved this . . . great premise - great story - great characters . . . hugely enjoyable.' And THE TIMES called it 'ripping entertainment from start to finish.' There are dark forces at work in our world (and in Manchester in particular), so thank God The Stranger Times is on hand to report them . . . A weekly newspaper dedicated to the weird and the wonderful (but mostly the weird), it is the go-to publication for the unexplained and inexplicable. At least that's their pitch. The reality is rather less auspicious. Their editor is a drunken, foul-tempered and foul-mouthed husk of a man who thinks little of the publication he edits. His staff are a ragtag group of misfits. And as for the assistant editor . . . well, that job is a revolving door - and it has just revolved to reveal Hannah Willis, who's got problems of her own. When tragedy strikes in her first week on the job The Stranger Times is forced to do some serious investigating. What they discover leads to a shocking realisation: some of the stories they'd previously dismissed as nonsense are in fact terrifyingly real. Soon they come face-to-face with darker forces than they could ever have imagined. The Stranger Times is the first novel from C.K. McDonnell, the pen name of Caimh McDonnell. It combines his distinctive dark wit with his love of the weird and wonderful to deliver a joyous celebration of how truth really can be stranger than fiction. Readers love The Stranger Times: ***** 'A delight from start to finish - laugh out loud funny yet with plenty of thrills.' ***** 'Full of wit and humour, and knows how to keep the reader hooked.' ***** 'You'll soon fall in love . . . fans of Pratchett, Gaiman, Aaronovich will be blown away.'

John McDonnell Andrew Maloney, John McDonnell, 2013-03-01 When John McDonnell began his coaching career at the University of Arkansas at Fayetteville--choosing it over Norman, Oklahoma, because Fayetteville reminded him of his native Ireland--he could hardly have imagined that he would become the most successful coach in the history of American collegiate athletics. But, in thirty-six years at the university, he amassed a staggering resume of accomplishments, including forty national championships (eleven cross country, nineteen indoor track, and ten outdoor track), the most by any coach in any sport in NCAA history. His teams at Arkansas won the triple crown (a championship in cross country, indoor track, and outdoor track in a single school year) a record five times. This biography tells the story of the McDonnell's life and legacy, from his childhood growing up on a farm in 1940s County Mayo, Ireland, to his own running career, to the beginnings of his life as a coach, to all the great athletes he mentored along the way.

McDonnell XP-67 "Moonbat" Steve Richardson, Peggy Mason, 2022-11-24 Packed with never-before-seen photos, plans and meticulous new digital artwork, this is the first history of the USAAF's futuristic World War II prototype interceptor, the XP-67 Moonbat. The series of X-planes that sprang from the US Army's Request for Data R40C, focused on high-altitude, high-speed, long-range bomber interceptors. Among these aircraft was the McDonnell Aircraft Company's first ever clean sheet design, the XP67. Its futuristic lines promised performance that it was ultimately unable to deliver, but development was still underway when disaster struck. Just before Army performance demonstration flights were scheduled to begin, an engine fire destroyed the only XP-67 prototype, leaving a host of unanswered questions about what might have been, and leading to decades of continuing fascination with the XP-67 among aviation buffs and aircraft modelers. The authors of this book have uncovered new sources of information and a wealth of photographs and line drawings that document not just the XP-67 but also its immediate precursors within the McDonnell Aircraft design community, as well as alternative configurations for unbuilt variants aimed at different missions. Packed with unpublished photos of all stages of construction including key airframe changes made after initial flight tests, showing in detail how the final configuration was evolved, this volume finally provides clear focus on a

story that has long been shrouded in mystery.

This Charming Man C. K. McDonnell, 2022-02-17 Vampires do not exist. Everyone knows this. So it's particularly annoying when they start popping up around Manchester . . . Nobody is pleased about it. Not the Founders, the secret organisation for whom vampires were invented as an allegory, nor the Folk, the magical people hidden in plain sight who only want a quiet life. And definitely not the people of Manchester, because there is nothing more irksome than being murdered by an allegory run amok. Somebody needs to sort this out fast before all Hell really breaks loose - step forward the staff of The Stranger Times. It's not like they don't have enough to be dealing with. Assistant Editor Hannah has come back from getting messily divorced to discover that someone is trying to kidnap a member of their staff and while editor Vincent Banecroft would be delighted to see the back of any of his team, he doesn't like people touching his stuff - it's the principle of the thing. Throw in a precarious plumbing situation, gambling debts, an entirely new way of swearing, and a certain detective inspector with what could be kindly referred to as 'a lot of baggage' and it all adds up to another hectic week in the life of the newspaper committed to reporting the truth that nobody else will touch. This Charming Man is the second book in the critically acclaimed The Stranger Times series. 'A gag-filled romp . . . in the spirit of Terry Pratchett.' The Times 'Great characters, a jet-propelled plot, and a winning premise.' Guardian 'Fresh and genuinely funny.' SFX

Celebrity Andrea McDonnell, Susan J. Douglas, 2019-03-26 The historical and cultural context of fame in the twenty-first century Today, celebrity culture is an inescapable part of our media landscape and our everyday lives. This was not always the case. Over the past century, media technologies have increasingly expanded the production and proliferation of fame. Celebrity explores this revolution and its often under-estimated impact on American culture. Using numerous precedent-setting examples spanning more than one hundred years of media history, Douglas and McDonnell trace the dynamic relationship between celebrity and the technologies of mass communication that have shaped the nature of fame in the United States. Revealing how televised music fanned a worldwide phenomenon called "Beatlemania" and how Kim Kardashian broke the internet, Douglas and McDonnell also show how the media has shaped both the lives of the famous and the nature of the spotlight itself. Celebrity examines the production, circulation, and effects of celebrity culture to consider the impact of stars from Shirley Temple to Muhammad Ali to the homegrown star made possible by your Instagram feed. It maps ever-evolving media technologies as they adeptly interweave the lives of the rich and famous into ours: from newspapers and photography in the nineteenth century, to the twentieth century's radio, cinema, and television, up to the revolutionary impact of the internet and social media. Today, mass media relies upon an ever-changing cast of celebrities to grab our attention and money, and new stars are conquering new platforms to build their adoring audiences and enhance their images. In the era of YouTube, Snapchat, and reality television, fame may be fleeting, but its impact on society is profound and lasting.

Performing Disunion Lawrence T. McDonnell, 2018-06-30 This book traces how and why the secession of the South during the American Civil War was accomplished at ground level through the actions of ordinary men. Adopting a micro-historical approach, Lawrence T. McDonnell works to connect small events in new ways - he places one company of the secessionist Minutemen in historical context, exploring the political and cultural dynamics of their choices. Every chapter

presents little-known characters whose lives and decisions were crucial to the history of Southern disunion. McDonnell asks readers to consider the past with fresh eyes, analyzing the structure and dynamics of social networks and social movements. He presents the dissolution of the Union through new events, actors, issues, and ideas, illuminating the social contradictions that cast the South's most conservative city as the radical heart of Dixie.

Economics for the Many John McDonnell, 2020-01-28 Our economy is rigged in favour of a wealthy elite. We need a new approach: an economics for the many. Big challenges lie ahead for our society: the rise of automation and the threat of catastrophic climate change. But so, too, do the huge possibilities presented by new technology and better ways of organising our economy in the wake of neoliberalism's failure. With the election of Jeremy Corbyn as Labour leader, and the extraordinary turnaround in Labour's fortunes in the 2017 election, we have a real opportunity to build an economy in Britain that is radically fairer, radically more democratic, and radically more sustainable. But we need the right ideas and strategies if we're going to get there. *Economics for the Many*, edited and with an introduction by Shadow Chancellor of the Exchequer John McDonnell, features contributions from the participants in his New Economics conferences, including Barry Gardiner, Ann Pettifor, Prem Sikka, and Guy Standing. It covers topics from housing, public ownership, and fairer international trading systems to industrial policy for the twenty-first century and how to tackle tax avoidance and regional imbalances. Together, the essays in this volume lay out a vision for a new economics, one that works for the many, not the few.

Me . . . Jane Patrick McDonnell, 2012-03-27 Patrick McDonnell-beloved, bestselling author-artist and creator of the Mutts syndicated comic strip--shares the inspiring story of young Jane Goodall, the legendary and inspiring conservationist featured in the hit documentary film *Jane*. In his characteristic heartwarming style, Patrick McDonnell tells the story of the young Jane Goodall and her special childhood toy chimpanzee named Jubilee. As the young Jane observes the natural world around her with wonder, she dreams of a life living with and helping all animals, until one day she finds that her dream has come true. With anecdotes taken directly from Jane Goodall's autobiography, McDonnell makes this very true story accessible for the very young--and young at heart. One of the world's most inspiring women, Dr. Jane Goodall is a renowned humanitarian, conservationist, animal activist, environmentalist, and United Nations Messenger of Peace. In 1977 she founded the Jane Goodall Institute (JGI), a global nonprofit organization that empowers people to make a difference for all living things.

A Peculiar Combination Ashley Weaver, 2021-05-25 The first in the Electra McDonnell series from Edgar-nominated author Ashley Weaver, set in England during World War II, *A Peculiar Combination* is a delightful mystery filled with spies, murder, romance, and the author's signature wit. "Filled with wry humor, tight suspense, and a delightful cast of characters."—Alyssa Maxwell, author of the Gilded Newport mysteries *FIRST RULE: DON'T LOSE YOUR CONCENTRATION*. Electra McDonnell and her family earn their living outside the law. Breaking into the homes of the rich and picking the locks on their safes may not be condoned by British law enforcement, but with World War II in full swing, Uncle Mick's locksmith business just can't pay the bills anymore. *SECOND RULE: DON'T MAKE MISTAKES*. So when Uncle Mick receives a tip about a safe full of jewels in an empty house, he and Ellie can't resist. All is going as planned—until the pair is caught red-handed. But instead of arresting them, government official Major Ramsey has an offer: either Ellie agrees to help him break into a safe and retrieve blueprints crucial to the British war effort, or he turns her over to the police. *THIRD RULE: DON'T GET CAUGHT*. Ellie doesn't care for the major's imperious manner, but she has no choice. However, when they break into the house, they find the safe open and empty, and a German spy dead on the floor. Soon, Ellie and Major Ramsey are forced to put aside their differences to unmask the double agent, and stop Allied plans from falling into enemy hands.

Living to Tell the Tale Jane Taylor McDonnell, 1998-03-01 Writing is a second chance at life, writes Jane McDonnell. I think all writing constitutes an effort to establish our own meaningfulness, even in the midst of sadness and disappointment. In *Living to Tell the Tale*, McDonnell draws on this impulse, as well as on her own experiences as a writer and teacher of memoir, to give us what should become the definitive book on writing crisis memoirs and other kinds of personal narrative. She provides specific techniques and advice to help the writer discover his or her inner voice, recognize—and then silence—the inner censor, begin a narrative, and develop it with such aids as photographs and documents. Citing many landmark works such as Maxine Hong Kingston's *The Woman Warrior* and Frank McCourt's *Angela's Ashes*, as well as unpublished writings, McDonnell shows how writers can recreate past experiences through memories, and imaginatively reshape material into the story that needs to be told. Each chapter concludes with exercises to help the writer grapple with particular problems, such as trying to write about experiences that are only partly recalled. McDonnell also offers a list of recommended reading. • Memoirs, such as Mary Karr's *The Liars' Club* (Penguin) have hit bestseller lists nationwide during the past year, and are of great interest to aspiring writers.

The Best of Mutts Patrick McDonnell, 2007-09 Presents ten years of adventures of cat Mooch and dog Earl in dailies and Sundays selected by creator Patrick McDonnell from the comic strip's first ten years.
