McLaren Roger Meiners,2020-03-13 McLaren: The Engine Company is the previously untold story of McLaren Engines, an American company founded in 1969 by Bruce McLaren and his partners to build engines for McLaren's legendary Can-Am and Indy Cars. From this base in suburban Detroit were born the mighty big-block Chevrolet V8s that powered the iconic orange cars to two of their five consecutive Can-Am championships. McLaren's busy dyno rooms also spawned the howling turbo Offenhausers that put Mark Donahue and Johnny Rutherford in Victory Lane at Indianapolis three times between 1972 and 1976. For decades this non-descript shop was the hotbed of horsepower for factories and top independents alike. McLaren Engines developed the turbocharged Cosworth DFV Formula 1 engine that powered Indy cars for both Team McLaren and Penske Racing. It rendered BMW's turbo engine for U.S. IMSA racing that later became BMW's Formula 1 weapon. The long list of race engines developed here powered Buick Indy and IMSA cars, BMW GTP cars, Cadillac LeMans prototypes, Porsche Trans-Am 944s and David Hobbs' F5000 single seaters. There were McLaren-built big-block turbo V8s for offshore boat racing and even a Cosworth-Vega engine for American dirt tracks! Author Roger Meiners combines his life-long passion for motor racing and technology with his historian's sensibilities to make the engines, cars, and key personalities come alive within this book's pages. Ride along with Meiners as he uncovers little-known details of the company's transition from a race shop to an engineering company, developing lust-worthy performance cars such as the sensational 1987 Buick GNX, the 1989 Pontiac Grand Prix Turbo, the FR500 Ford Mustang concept, and other projects that the public never saw. Today the company, known as McLaren Engineering, is a subsidiary of Canada-based Linamar Corporation, and is sought after by global automakers for its unrivaled testing, development and manufacturing capability.

McLaren Sports Racing Cars Dave Friedman,2000 Bruce McLaren's performances as a F1, endurance, and Can-Am driver were almost always impressive. But it was the New Zealander's career as an innovative carbuilder which forever etched the McLaren name in the annals of motorsport. This photohistory examines McLaren's legendary endurance and Can-Am racers beginning with the formation of Bruce McLaren Racing Limited in 1963, continuing through his death at Goodwood in 1970, and finishing with the completion of the Can-Am series in 1974. Splendid photography gives readers views of the cars under construction and in action, and candid glimpses of Bruce McLaren and other personalities associated with the organization, including long-time teammate Denis Hulme. Dave Friedman is a prolific motorsport photographer and historian. His recent MBI titles include Lola: Can-Am & Endurance Race Cars and Pro Sports Car Racing in America 1958-1974. He lives in Newport Beach, California.

Can-Am 50th Anniversary George Levy,2016-09-30 Forget the rule book and relive one of the most exciting race series ever with Can-Am 50th Anniversary! The first rule of Can-Am: There are no rules. Or at least damn few rules. The bodywork had to enclose the wheels and there had to be something that loosely resembled a passenger seat--if your passenger was a badly misshapen human or perhaps a lab monkey. Otherwise, set your racing mind free. No limits to engine options or output, no restrictions on aerodynamic aids or body shape. It was as close to unrestricted road racing as racing had ever gotten or would ever get again. And it was fantastic. From its introduction in 1966 to the end of its classic period in 1974, North America's Can-Am series was the most exciting, technologically advanced, and star-studded racing series of the day. Its essentially rules-free formula attracted everyone from crazed backyard engineers to specialists like McLaren, Chaparral, Shadow, and Lola to manufacturers like Ford, Ferrari, Chevrolet, and Porsche. Top drivers including Mario Andretti, Jackie Stewart, Parnelli Jones, Bruce McLaren, Denis Hulme, Dan Gurney, Phil Hill, Mark Donohue, Peter Revson, Jim Hall, Jody Scheckter, Chris Amon, George Follmer and John Surtees competed on tracks across the US and Canada taking time off from Formula One schedules and other duties to drive in Can-Am because the racing and the cars were so exciting. Can-Am 50th Anniversary offers a heavily illustrated look back at what is arguably the greatest race series ever to grace the road racing circuits of North America. Photographer Pete Biro was Goodyear Tire&™s official photographer and followed the series throughout the entire run from 1966-'74. The vast majority of the book&™s images are unpublished or long out of circulation. Biro brings his unique perspective and his close relationship with the drivers, team owners, and constructors to bear on the captions while former AutoWeek editor George Levy provides an exciting text reflecting the thrill of Can-Am racing.

David Kimble's Cutaways David Kimble,2015-09-15 For enthusiasts reading magazines such as Motor Trend, Road & Track, and others, David Kimble is no stranger. His brilliant cutaway artwork has been gracing the pages of those publications for years. Whether he illustrated engines, transmissions, full-car chassis, sports cars, race cars, or classics, his cutaway artwork revealed, in excruciating detail, things that a camera lens could never capture. In David Kimble's Cutaways: The Techniques and the Stories Behind the Art, Kimble reveals the secrets, techniques, procedures, and the dedication to craft that is required to produce these amazing illustrations. He covers the step-by-step procedures while producing fresh artwork for this book featuring a McLaren Can-Am car as well as a vintage Harley-Davidson. Although the procedures covered here are unique to Kimble, and pretty much a pipe dream to mere mortals, this title provides an inside look into how he does it. Also included are the stories and tales of how it all started, traveling the world to illustrate cars, behind the scenes with manufacturers, the Corvette years, as well as a gallery of many illustrations. Never before has David Kimble provided a look into his cutaway skunkworks, or shared the procedures for bringing these beautiful technical illustrations to life. This book is a must-have for any automotive or art fan.

Stardust International Raceway Randall Cannon,Michael Gerry,2018-10-02 Professional motorsports came to Las Vegas in the mid-1950s at a bankrupt horse track swarmed by gamblers--and soon became enmeshed with the government and organized crime. By 1965, the Vegas racing game moved from makeshift facilities to Stardust International Raceway, constructed with real grandstands, sanitary facilities and air-conditioned timing towers. Stardust would host the biggest racing names of the era--Mario Andretti, Parnelli Jones, John Surtees, Mark Donohue, Bobby Unser, Dan Gurney and Don Garlits among them. Established by a notorious racketeer, the track stood at the confluence of shadowy elements--wiretaps, casino skimming, Howard Hughes, and the beginnings of Watergate. The author traces the Stardust's colorful history through the auto racing monthlies, national newspapers, extensive interviews and the files of the FBI.

Road America Steve Zautke,2013 Located one hour north of Milwaukee in Wisconsin's scenic Kettle Moraine, Elkhart Lake's Road America race course is one of the world's most famous permanent road racing tracks. Dating back to 1955, the scenic race course has seen the finest in motorsports, such as NASCAR, open wheel, and sports cars, and the best in amateur racing. The track also hosts year-round activities for corporate outings, go-karting, motorcycle/driving schools, and even paintball.

Automobile Quarterly ,1995

1969 Plymouth Road Runner Wes Eisenschenk, 2017-04-17 The late 1960s was an interesting time in the automotive world. Muscle cars, as we now know them, were well established, with all manufacturers joining the horsepower race. You could walk into the showroom for any brand from any manufacturer and find a variety of performance models. Competition being what it is, the manufacturers were looking for ways other than winning races to lure buyers into the showrooms and entice them to buy their products. Some tried to accomplish this with fancy marketing schemes and graphic paint packages and decals, and for the first time, some tried to win over buyers with price. Volume No. 5 of CarTech's In Detail series covers the 1969 Plymouth Road Runner. It was an interesting marriage of a car that attempted to appeal to potential buyers with a low cost, light weight, and potent bare-bones package. It also added a brilliant marketing strategy of partnering with a famous studio and a popular cartoon character. The end result was a wildly popular, big-block, affordable muscle car with great graphics and a cool beep-beep horn. The public loved it. All In Detail Series books include an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, and an in-depth study of all hardware and available options, as well as an examination of where the car is on the market today. Also included is an appendix of paint and option codes, VIN and build-tag decoders, as well as production numbers.

Caesars Palace Grand Prix Randall Cannon, 2021-10-15 The path of Grand Prix racing in America wound through raceways at Sebring, Riverside, Watkins Glen, Long Beach, and finally Caesars Palace in Las Vegas. At each stop, the influence of organized crime seemed no more than a handshake away. But at Caesars the vast crime syndicate appeared deeply involved in the operations of the luxury-branded resort. The Caesars Palace Grand Prix then culminated in an unholy alliance of the world capital of gambling, the mob, and the international czar of Formula One. During its four-year run of successive Formula One and CART IndyCar events, the race hosted the biggest names in motorsport--Mario Andretti, Bernie Ecclestone, Roger Penske, Chris Pook, Alan Jones, Nelson Piquet, Niki Lauda, Danny Sullivan, Bobby Rahal and Al Unser among them. The podium celebration of the inaugural Grand Prix put the convergence of alleged organized crime influences and auto racing on public display, while the years that followed provided their own curiosities. This book traces the intertwined threads through decades of accounts, extensive interviews, and the files of the FBI.

Bruce McLaren Bruce McLaren, 2018-01-09 Originally published in 1964, Bruce McLaren's autobiography *From the Cockpit* is a classic motor racing memoir. So scarce and expensive are original copies that Evro Publishing, in collaboration with McLaren, is reissuing a facsimile version for all fans to enjoy. In his own words, Bruce describes his inspiring climb up the ladder of motor racing success, culminating in the inception of Bruce McLaren Motor Racing Ltd in 1963. Engaging to read, his book provides fascinating insight into not only his accomplishments but also his unique character, charm and tenacity. In his own words, 'Life is measured in achievement, not in years alone.' Overcoming childhood illness: a rare disease stopped Bruce walking for two years and meant long spells in hospital. Early competition in New Zealand with a modified Austin Seven. The recipient of New Zealand's first 'Driver to Europe' scheme, his results in his first season away from home included fifth place in the 1958 German Grand Prix with a works Cooper. McLaren became the youngest Grand Prix winner in the 1959 United States GP for Cooper, as team-mate to Jack Brabham in the year the Australian won his first World Championship title. The ups and downs of his life in Formula 1 up to the end of 1963, from winning at Monaco in 1962 to crashing at the Nurburgring and ending up in hospital - where the idea for this book was born. The story concludes with the formation of his own team, initially to run modified Cooper chassis, and Bruce's emotional victory in the 1964 New Zealand Grand Prix.
