McLaren MP4/4 Owners' Workshop Manual Steve Rendle,2018-06-19 The McLaren MP4/4 is the iconic Honda V6 turbo-powered F1 car built by McLaren for the 1988 grand prix season, driven by Ayrton Senna and Alain Prost. Remarkably, the car won all but one race during 1988, and took McLaren's then-new recruit Senna to his first Drivers' World Championship after a season-long battle with team-mate Prost. McLaren achieved an astonishing 10 one-two finishes with the car, and suffered only two car-related retirements during the season. The MP4/4 is still statistically the most dominant F1 car ever built. Ironically, the fact that McLaren was already an enormously successful and well-resourced team prior to 1988 has led to the assumption that producing another winning car in the form of the MP4/4 was simply business as usual. The truth is rather different, with many challenges along the way, mistakes to resolve and, as ever in motor racing, an element of luck, all playing a part in the MP4/4's extraordinary success. A wealth of previously unpublished archive material, including original technical drawings and team documentation, provides fascinating new insight into the design and build of the MP4/4. Produced with the full cooperation of McLaren, and unique access to a race-winning MP4/4 chassis, this manual tells for the first time the accurate story of the design, engineering and operation of one of F1's most iconic cars, featuring extensive and often candid input from the designers, engineers and drivers involved. The McLaren story: Brief history of McLaren prior to the MP4/4 and subsequent history to the present day. Design and build of the MP4/4: The full story of how a completely new car, along with a one-off Honda engine, were designed and built for the 1988 season. The MP4/4 in action: A race-by-race account of the MP4/4's performance in the 1988 World Championship. The anatomy of the MP4/4: Chassis, aerodynamics, suspension, steering, brakes, Honda engine, transmission, wheels and tyres, cockpit and electrics. The drivers: Insight from Alain Prost and test-driver Emanuele Pirro, plus a profile of Ayrton Senna with thoughts from his former teammates. Appendices: Specifications, race results and statistics and full chassis histories.

Motor Mouth ,

A Certain Point of View Eddie Hall, 2012-02-01 Being a web designer, racing driver and generally grumpy individual, Eddie Hall has an opinion on most subject matters and would like to get on his soapbox and offer an explanation on subjects like why going to school is bad for your education (I spent over a decade of my life in education and what was the most important lesson I learned? That it is a complete waste of time), why people who drive a Nissan Micra should be locked up (they always seem to be the worst offenders on the road), why celebrities will be the death of the human race (most of them have no talent whatsoever and why in the name of Greek buggery do they insist on naming their poor children after fruits of the forest?) and many other unanswerable questions. During the course of ranting about anything and everything, Eddie tries to unravel the mystery behind why the world is such a confusing and frustrating place to live. The contents of this book contain opinions that most people share but few are prepared to admit. You will either find this book amusing or offensive. Either is fine by Eddie! Each chapter of A Certain Point of View is its own satirical rant about a particular subject. Eddie, whose writing style is comparable to that of Jeremy Clarkson, adopts an informal, conversational style that draws the reader in and encourages them to relate to the material, which revolves around today's society and current affairs. It will appeal to fans of humorous books.

Formula 1 - The Knowledge 2nd Edition David Hayhoe, 2021-11-26 David Hayhoe was born in Beckenham, Kent in 1954 and educated at Hawes Down Secondary School, West Wickham. His professional career as a Civil Servant began at the age of 17 in London, a career which was to last 33 years. He began in the Department of the Environment in 1971, in housing and road construction statistics, and moved to IT in 1986. He progressed to Aviation Security in 1990 and was an inspector of the airports and airlines throughout the UK from 1992 until he opted for voluntary early retirement in 2004. Alongside his professional career, he developed a Formula 1 database and has written and contributed to numerous

Formula 1 books, media guides, magazines and newspapers since the 1980s. His first book was the Grand Prix Data Book in 1989 (published by Haynes), followed by three further editions. It led to being invited to be the statistician for the prestigious Autocourse Grand Prix annual in 1991, a position he has held ever since. In 2016 he self-published the first edition of his latest venture, Formula 1 The Knowledge. This was well-received globally and has led to more ideas to make the second edition even more comprehensive.

Driven Kevin Eason,2018-11-01 Formula One is speed, glamour, danger - and eye-watering wealth. Driven: The Men Who Made Formula One tells how a small group of extraordinary men transformed Formula One from a niche sport played out on primitive tracks surrounded by hay bales and grass verges into a £1 billion circus performing in vast theatres of entertainment all over the world. Led by Bernie Ecclestone, the billionaire ringmaster, this clique started by scraping a living to go racing and ended up creating space-age cars, turning drivers from amateur gladiators into multimillion-pound superstars, like Ayrton Senna and Lewis Hamilton, while the names of Ferrari, McLaren and Williams are now as familiar around the world as Manchester United or Real Madrid. For 20 years, Kevin Eason watched how these men operated like a sporting Mafia, protecting each other while squabbling over the vast wealth pouring into the sport. As motor racing correspondent for The Times and then with The Sunday Times, Eason was privileged to have a ringside seat as this cabal of wealthy characters ruled and then were pushed out of the sport they created. This colourful and compelling account of the extraordinary flourishing of Formula One explores the quirks and extravagances of the men who converged - in one generation - to shape their sport; disparate characters with a common impulse: they were racers - and they were driven.

Basic Course in Race Car Technology Lars Frömmig,2023-03-28 The focus of the book is on the driving dynamics of racing vehicles. The interaction of the tyre, the aerodynamics, of the chassis and the limited slip differential specific to racing vehicles is dealt with. A chapter on the basics of vehicle dynamics makes it possible to get started with this topic even without prior automotive engineering training. A historical review and a consideration of the essential safety aspects create an understanding of higher-level requirements, which are specified, for example, by the technical regulations.
