McLaren MP4/4 Owners' Workshop Manual Steve Rendle, 2018-06-19 The McLaren MP4/4 is the iconic Honda V6 turbo-powered F1 car built by McLaren for the 1988 grand prix season, driven by Ayrton Senna and Alain Prost. Remarkably, the car won all but one race during 1988, and took McLaren's then-new recruit Senna to his first Drivers' World Championship after a season-long battle with team-mate Prost. McLaren achieved an astonishing 10 one-two finishes with the car, and suffered only two car-related retirements during the season. The MP4/4 is still statistically the most dominant F1 car ever built. Ironically, the fact that McLaren was already an enormously successful and well-resourced team prior to 1988 has led to the assumption that producing another winning car in the form of the MP4/4 was simply business as usual. The truth is rather different, with many challenges along the way, mistakes to resolve and, as ever in motor racing, an element of luck, all playing a part in the MP4/4's extraordinary success. A wealth of previously unpublished archive material, including original technical drawings and team documentation, provides fascinating new insight into the design and build of the MP4/4. Produced with the full cooperation of McLaren, and unique access to a race-winning MP4/4 chassis, this manual tells for the first time the accurate story of the design, engineering and operation of one of F1's most iconic cars, featuring extensive and often candid input from the designers, engineers and drivers involved. The McLaren story: Brief history of McLaren

prior to the MP4/4 and subsequent history to the present day. Design and build of the MP4/4: The full story of how a completely new car, along with a one-off Honda engine, were designed and built for the 1988 season. The MP4/4 in action: A race-by-race account of the MP4/4's performance in the 1988 World Championship. The anatomy of the MP4/4: Chassis, aerodynamics, suspension, steering, brakes, Honda engine, transmission, wheels and tyres, cockpit and electrics. The drivers: Insight from Alain Prost and test-driver Emanuele Pirro, plus a profile of Ayrton Senna with thoughts from his former teammates. Appendices: Specifications, race results and statistics and full chassis histories.

The Chariot Makers Steve Matchett, 2011-06-16 Former F1 mechanic turned TV broadcaster Steve Matchett is trapped overnight in New York, in a fogbound JFK Airport with some fellow motor racing enthusiasts. With no sign of the fog letting up and a long twelve hours to get through, talk inevitably turns to Formula 1. During the course of the night, and fuelled by regular trips to the departure lounge bar, the three protagonists, drawing upon Matchett's encyclopaedic knowledge of life in the F1 pit lane, decide to piece together the perfect Formula 1 Grand Prix car... Starting with the monocoque (or

chassis) and moving through the engine type, gearbox, exhaust, suspension and aerodynamics etc, no bolt is left unexamined in Matchett's comprehensive and detailed, technical expose of the inner workings of the fastest cars on the planet. In straightforward, clear and concise language, Matchett explains how the F1 teams have arrived at their current state-of-the-art designs; how, exactly, a Formula 1 car is put together.

More than Cricket and Football Joel Nathan Rosen, Maureen M. Smith,2016-12-02 Given the presumed dominance of American sport, many fans throughout the hemisphere find it difficult to envision the role of sport beyond the confines of their own continent. And yet, world sport consists of

so much more than the games Americans play and so much more than the stereotype of cricket for the elite and football for the working class. As worldwide sport continues to gain in popularity, we also see parallels to many aspects visible in North American sport, particularly celebrity and all its trappings and pitfalls. The success of athletes from other countries in basketball and ice hockey, and the proliferation of stars imported and now exported to and from North America, provides some better examples of sport's international power. It also creates a very new kind of sport celebrity, albeit one that often shows a rather limited reach beyond that star's own country or continent. Thus, rather than focusing on the Western Hemisphere, this collection of some of world sport's most heralded celebrities (including stars of Motocross, surfing, distance running, and more) serves as a sort of passport to many places that make up our global sporting environment.
