Beloved by figures as diverse as Queen Elizabeth and Thor, the Vikings and the Greek gods, mead is one of history's most storied beverages. But this mixture of fermented honey isn't just a relic of bygone eras -- it's experiencing a cultural renaissance, taking pride of place in trendy cocktail bars and craft breweries across the country. Equal parts quirky historical narrative, DIY manual, and cocktail guide, *Mead* is a spirited look at the drink that's been with us even longer than wine. *Mead* gives readers a fascinating introduction to the rich story of this beloved beverage -- from its humble beginnings to its newfound popularity, along with its vital importance in seven historic kingdoms: Greece, Rome, the Vikings, Poland, Ethiopia, England, and Russia. Make Mead Like a Viking Jereme Zimmerman, 2015-10-15 A complete guide to using the best ingredients and minimal equipment to create fun and flavorful brews Ancient societies brewed flavorful and healing meads, ales, and wines for millennia using only intuition, storytelling, and knowledge passed down through generations—no fancy, expensive equipment or degrees in chemistry needed. In *Make Mead Like a Viking*, homesteader, fermentation enthusiast, and self-described “Appalachian Yeti Viking” Jereme Zimmerman summons the bryggjemaður of the ancient Norse to demonstrate how homebrewing mead—arguably the world’s oldest fermented alcoholic beverage—can be not only uncomplicated but fun. Armed with wild-yeast-bearing totem sticks, readers will learn techniques for brewing sweet, semi-sweet, and dry meads, melomels (fruit

meads), metheglins (spiced meads), Ethiopian t'ej, flower and herbal meads, braggots, honey beers, country wines, and even Viking grog, opening the Mead Hall doors to further experimentation in fermentation and flavor. In addition, aspiring Vikings will explore: • The importance of local and unpasteurized honey for both flavor and health benefits; • Why modern homebrewing practices, materials, and chemicals work but aren't necessary; • How to grow and harvest herbs and collect wild botanicals for use in healing, nutritious, and magical meads, beers, and wines; • Hops' recent monopoly as a primary brewing ingredient and how to use botanicals other than hops for flavoring and preserving mead, ancient ales, and gruits; • The rituals, mysticism, and communion with nature that were integral components of ancient brewing and can be for modern homebrewers, as well; • Recommendations for starting a mead circle to share your wild meads with other brewers as part of the growing mead-movement subculture; and more! Whether you've been intimidated by modern homebrewing's cost or seeming complexity in the past—and its focus on the use of unnatural chemicals—or are boldly looking to expand your current brewing and fermentation practices, Zimmerman's welcoming style and spirit will usher you into exciting new territory. Grounded in history and mythology, but—like Odin's ever-seeking eye—focusing continually on the future of self-sufficient food culture, *Make Mead Like a Viking* is a practical and entertaining guide for the ages.

Home/Land Rebecca Mead, 2023-07-11 A moving reflection on the complicated

nature of home and homeland, and the heartache and adventure of leaving an adopted country in order to return to your native land—this is a “winsome memoir of departure and reversal . . . about the way a series of unknowns accrue into a life” (Jia Tolentino, author of *Trick Mirror*). When the New Yorker writer Rebecca Mead relocated to her birth city, London, with her family in the summer of 2018, she was both fleeing the political situation in America and seeking to expose her son to a wider world. With a keen sense of what she’d given up as she left New York, her home of thirty years, she tried to knit herself into the fabric of a changed London. The move raised poignant questions about place: What does it mean to leave the place you have adopted as home and country? And what is the value and cost of uprooting yourself? In a deft mix of memoir and reportage, drawing on literature and art, recent and ancient history, and the experience of encounters with individuals, environments, and landscapes in New York City and in England, Mead artfully explores themes of identity, nationality, and inheritance. She recounts her time in the coastal town of Weymouth, where she grew up; her dizzying first years in New York where she broke into journalism; the rich process of establishing a new home for her dual-national son in London. Along the way, she gradually reckons with the complex legacy of her parents. *Home/Land* is a stirring inquiry into how to be present where we are, while never forgetting where we have been.

The Compleat Meadmaker Ken Schramm, 2003-06-09 Since The Compleat

Meadmaker was first published, mead has continued to grow in popularity as crafted beverages have become an established part of the beverage market in America. In 2003 there were roughly 60 commercial meaderies in the US, but by 2020 this number stood at 450. Naturally, many hobbyists are also discovering the delights of making this “nectar of the gods” themselves. Thanks to the global distribution of bees and, therefore, honey, you will find mead-like drinks in virtually every corner of the world. No wonder historians recognize it as one of humankind’s oldest fermented beverages. Mead production never really ceased in Europe and Africa, but its star was eclipsed with the increasing production and distribution of wine, beer, and distilled spirits from the 1600s onward. With the rebirth of brewing and the establishment of world-class wine producing regions in the US, it is time for mead in the twenty-first century to be brought back into the limelight. Mead needs to establish a vocabulary of its own and find a place in the hearts of homebrewers and home winemakers. In *The Compleat Meadmaker*, veteran meadmaker Ken Schramm—one of the founders of the Mazer Cup Mead Competition, North America’s oldest mead-only competition—introduces the novice to the wonders of mead. With easy-to-follow procedures and simple recipes, he shows how you can quickly and painlessly make your own mead at home. In later chapters, Schramm introduces flavorful variations on the basic theme that lead to meads flavored with spice, fruits, grapes, and malt. The author covers the many aspects of meadmaking in a comprehensive but easy-to-read fashion, with

something for novices and experienced brewers and vintners alike from basic equipment for meadmaking, creating your first must, and on through the basics of fermentation, racking, and bottling. Once the first steps have been taken Schramm goes into more detail, involving balancing for taste using acid, priming for sparkling mead, corking practices, and strategies for clarifying. He also covers aspects of fermentation, such as selecting the right yeast strain, aerating and managing the pH of your must during the critical early phase of fermentation, and adjusting nutrient levels to suit mead fermentation. The author also troubleshoots common problems and processes, such as stuck fermentations, fermentations that will not start, slow or prolonged fermentations, measuring total acidity via acid titrations, and on balancing residual sugars through sweetening, malo-lactic fermentation, increasing acidity, and drying out the mead further. The fine-tuning process does not stop after fermentation is finished. Perhaps the finest characteristic of mead is that it seems to improve with age almost indefinitely. As well as advice on how long to store it, Schramm also offers up his experience with the many different approaches to conditioning and maturing mead, focusing on the use of oak chips, blocks, and barrels to age mead on wood. As one of the oldest fermented drinks and using the oldest sweetener known to humankind, mead and honey are inextricable. Schramm delves into a brief natural history of honey production and the bees that make it possible, with fascinating insights into the profession of beekeepers. He

explores sources of nectar and pollen and the benefits of honey varieties explored, with a section devoted entirely to varietal honey based on floral variety. Along the way Schramm delves into the concept of honey “vintage”, grades of honey, sugar, moisture, organic acids, mineral content, color terminology, and how you should not judge a honey’s flavor by its color. There is also a discussion of aroma compounds, absolutely essential if wishing to understand the organoleptic qualities of honey. While mead can be a charmingly simple drink to make, home meadmakers can easily indulge in a host of different flavors to make unique and delicious meads. The author provides you with an understanding of the role quality ingredients play in creating a really pleasing mead. There are several ingredients-focused chapters that look at making sack mead, melomel, cyser, pyment, hippocras, metheglin, and braggot. At the end, Schramm puts it all together in a section devoted entirely to recipes. As one of the most ancient of human beverages, mead arose in part because it was easy to make. Despite this, mead is a surprisingly complex, diverse, and romantic drink that can range from bone dry to profoundly sweet, and can be crafted to complement any type of food. With *The Compleat Meadmaker*, you can see just how simple, fun, and rewarding meadmaking is.

Margaret Mead Paul Shankman, 2021-07-16 This short volume is an ideal starting point for anyone wanting to learn about, arguably, the most famous anthropologist of the twentieth century. "Since her death, a steady drip of books about Mead, one of the most significant women in twentieth century social science and American society, has appeared, some interesting, many quite a bit less so. While Shankman's biography makes use of them, it nevertheless stands out among the better ones, not only for its well-informed and balanced view of Mead, but also for its concision."—Times Literary Supplement Tracing Mead's career as an ethnographer, as the early voice of public anthropology, and as a public figure, this elegantly written biography links the professional and personal sides of her career. The book looks at

Mead's early career through the end of World War II, when she produced her most important anthropological works, as well as her role as a public figure in the post-war period, through the 1960s until her death in 1978. The criticisms of Mead are also discussed and analyzed. From the introduction: After her death, she was awarded the Presidential Medal of Freedom by President Jimmy Carter.... On the other side of the world, Mead's passing was remembered in a very different context. On the island of Manus off the coast of New Guinea, the people of Pere village also mourned her death. Mead first studied the people of Pere in the late 1920s, returning in the 1950s with further visits thereafter. Over a span of five decades, she touched their lives, and they touched hers. Such was Mead's stature that they commemorated her death with a ceremony befitting a great leader.

G.H. Mead G. H. Mead, 2011-05-16 This book introduces social scientists to the ideas of George Herbert Mead (1863-1931) - one of the most original yet neglected thinkers of early twentieth century sociology. Mead is an exceptional case amongst sociological classics in that, until now, there has been no comprehensive reader of his work. As the first one-volume, comprehensive edited collection of Mead's published and unpublished writing, this book fills this gap. It is the first to critically assess all of Mead's writings and draw out the aspects that are central to his system of thought. The book is divided into three parts (social psychology, science and epistemology, and democratic politics), comprising a total of 30 chapters - a third of which are published here for the first time. G.H. Mead: A Reader provides a unique and timely contribution to the understanding of this key theorist. It is essential reading for both undergraduate and postgraduate students in the fields of sociology, social psychology, philosophy of social

science, social and cultural anthropology, and social and political theory.
