Combat Medic Vernon L. Parker,2013-12-11 Combat Medic shares Corporal Vernon L. Parker's first-person account of World War II. Parker, like many other young men drafted in WWII, was transported from a simple, hard-working life in rural America in 1942 to a complex, stressful environment that would forever change his life. Nothing could have prepared him for the experiences he encountered as a combat medic and ambulance driver with the Third Army, led by "Blood and Guts" General George S. Patton, Jr. Parker was part of the D-Day invasion. After landing at Normandy, he spent more than ten months on the front lines, supporting the armored divisions through five major campaigns in France, Luxembourg, and Germany. A gifted storyteller, Parker presents a self-deprecating narrative filled with keen insights and colorful descriptions of day-to-day life with fellow infantrymen, officers, civilians, and enemy soldiers. As his saga unfolds, it describes the transformation of a naïve and cocky country boy into a battle-weary survivor struggling to maintain his dignity, compassion, and humanity. In Combat Medic, Parker demonstrates a startling recall of events from decades ago, including detailed descriptions of people, places, and even conversations—indicating just how much of an impact those war years had on him.

Medic! Robert Joseph Franklin,2006-01-01 Lt. Gen. George S. Patton remarked that the "45th Infantry Division is one of the best, if not the best division that the American army has ever produced." Such praise came at a steep price, for the 45th saw some of the fiercest fighting in the European campaign—from Sicily to Anzio and from southern France into Germany—and racked up one of the highest casualty rates. Through it all, medic Robert "Doc Joe" Franklin—drafted in 1942 and thrust into combat with no specific training or knowledge for treating war wounds—soldiered on, fighting as hard to keep his men alive as the enemy fought to kill them. His medical story, one of the first of World War II, is told here with simplicity, unflinching honesty, and grit. Studded with memorable vignettes—of a friend who "smells" the Germans long before they appear, the dog that acts as an artillery spotter, the lieutenant who can't see beyond a few hundred feet—Franklin's memoir documents the almost unbearable drama of ground gained and lives lost as well as the terrible human toll of battle on himself, his comrades, and civilians quite literally caught in the crossfire. A rare look at the fight for lives laid on the line, Medic! brings to life as never before the reality of war.

Cry Medic Dave Pfeifer,2011-09-26 This is a docu-drama of the real life events of one medic who served in the 101st airborne division, in Vietnam in 1969 and 1970. Looking thru the eyes of a medic that traveled with an airborne unit, day after day through the jungles of NAM. Not just the bitter fighting with the enemy in firefights, but the battle day to day with malaria and snakes and diseases, and monsoons, floods ,heat, and friendly fire. It was all there in one mans tour of duty. Hearing the screams, seeing the carnage, starting IVS, calling for medivac helicopters. It was all in a days work, of the one man on team not trying to kill, but to save lives. Geronimo was our logo, and they said we had a date with destiny.

Medic! Robert L. Smith,2001 The is the recollection of combat in Europe during World War II of then naive, nineteen-year-old Army medic Robert L. Smith, responsible for saving the lives of severely wounded GIs under the worst possible conditions. The author recounts his journey of remembrance, which he took with his wife half a century later. Using a hand-drawn map from the war, Smith retraced his route with the 112th Regiment, 28th Infantry Division from Omaha Beach in Normandy to deep into Germany. Recounting his experiences on the front, Smith captures the trauma of a young man's survival in war. In the chronicle of his trip back to old battlegrounds, he illuminates his experiences with the wise perspective of age.

Not on My Watch Joshua M. Peters,Josh R. Fansler,2004-12 Our story takes you on a journey from our lives before the war to the mountainous terrains of Afghanistan and the barren deserts of Iraq. It is our desire to bring to life what it is like for the American Soldier fighting in the war on terror overseas. Not just from a Soldier's perspective, but from the Combat Medic's perspective. We want you to learn about the heartaches, the fear, the excitement and the terror of combat today. These stories are not intended to bring glory upon ourselves. They are written to show the courage and bravery of every American Soldier with whom we served. While this book is written from our first person view, the I and we are inclusive of all the Medics that have served Operation Enduring Freedom and Operation Iraqi Freedom. Every medic deployed in support of these operations have similar stories to tell. The title, Not On My Watch, The 21st Century Combat Medic expresses the fervor with which we serve. First, our motto: Not On My Watch. This speaks not only of the personal pride and sacrifice that we, as Combat Medics have in our assignment, but also of our willingness to sacrifice in order to save a fellow Soldier's life. We are saying, As long as I am there, I am going to sacrifice everything I have to give the wounded Soldier a second chance at life. The latter part of the title stresses how combat and combat medicine has evolved to our generation from the generation of the heroes who served from the very first shot of the Revolutionary War until now. We have met the men and women of past wars at welcome home ceremonies, the local VFW's, and through everyday interactions. Every story is different, yet every story is exactly the same: The same courage, bravery, honor, and dedication to fellow Soldiers on the battlefield. We remember the look of pride in the eyes of every Vietnam, Korean, and WWII veteran as they shook our hands at the airport upon our arrival back to the United States. It is that look that lets us know that although we never stormed a beach on that Day in June of 1944, or never took that hill in the jungle with certain death on the ascent to the top, we did serve a cause that blankets our great country with Freedom. We are Americans fighting and defending the rights of every American. We are Americans dedicated to bringing peace and democracy to every citizen of the globe. Our cause is just and this is our story.

The Medic Leo Litwak,2001-01-01 A World War II medic shares his story for the first time, detailing the intense combat and human drama he experienced as he patched up men on the frontlines during the final days of the war.

Ranger Medic Handbook U.S. Department of Defense,2016-01-19 Historically in warfare, the majority of all combat deaths have occurred prior to a casualty ever receiving advanced trauma management. The execution of the Ranger mission profile in the Global War on Terrorism and our legacy tasks undoubtedly will increase the number of lethal wounds. Ranger leaders can significantly reduce the number of Rangers who die of wounds sustained in combat by simply targeting optimal medical capability in close proximity to the point of wounding. Directing casualty response management and evacuation is a Ranger leader task; ensuring technical medical competence is a Ranger Medic task. A solid foundation has been built for Ranger leaders and medics to be successful in managing casualties in a combat environment. The true success of the Ranger Medical Team will be defined by its ability to complete the mission and greatly reduce preventable combat death. Rangers value honor and reputation more than their lives, and as such will attempt to lay down their own lives in defense of their comrades. The Ranger Medic will do no less.

My Journey as a Combat Medic Patrick Thibeault,2012-07-20 Patrick Thibeault has served in the US Army in various capacities since the 1990s, originally training as a Airborne soldier before specialising as a combat medic. My Journey as a Combat Medic covers his original training and deployment before providing a look at the roles he's since played in the US Army's forces, including his recent deployment to Afghanistan. It is a no-holds bar look at the modern medic in the US Army, allowing us a glimpse at the training as a soldier and as a specialist, as well as deployment and front line duties and the impact of service on civilian life, including an honest look at PTSD, from the author's own personal experience. Rather than a technical manual, My Journey as a Combat Medic is a detailed first hand account, concluding with a letter to new medics, providing a career's worth of advice and knowledge as they begin their journeys.

Medic Crawford F. Sams,Zabelle Zakarian,2016-06-16 In the aftermath of the bombing of Hiroshima and Nagasaki, Crawford F. Sams led the most unprecedented and unsurpassed reforms in public health history, as chief of the Public Health and Welfare Section of the Supreme Commander of Allied Powers in East Asia. Medic is Sams's firsthand account of public health reforms in Japan during the occupation and their significance for the formation of a stable and democratic state in Asia after World War II. Medic also tells of the strenuous efforts to control disease among refugees and civilians during the Korean War, which had enormously high civilian casualties. Sams recounts the humanitarian, military, and ideological reasons for controlling disease during military operations in Korea, where he served, first, as a health and welfare adviser to the U.S. Military Command that occupied Korea south of the 38th parallel and, later, as the chief of Health and Welfare of the United Nations Command. In presenting a larger picture of the effects of disease on the course of military operations and in the aftermath of catastrophic bombings and depravation, Crawford Sams has left a written document that reveals the convictions and ideals that guided his generation of military leaders.

A Medic's Mind Matthew Heneghan,2022-07-11 ‘ ‘A riveting read of the difficult and important things of what medics do.’ Matthew Heneghan doesn't see people at their best. Instead, they come to him in desperate need. The experience of needing a medic can be like waking up in a foreign country. You frantically want to know, ‘What is happening with me?’ The ability to reassure people, to give the foreign country a ‘name,’ helps people. Author Matthew Heneghan always knew he wanted to be a medic. In this raw new medical memoir, he interweaves the stories of his growing up with the brutal realities of living with life and death each day. With sensitive observation and graceful writing, this book explores the highs and lows of being a paramedic in a world where everything is not always what it seems. Matthew writes that being a paramedic caused his ‘soul to bleed.’ It is not about the practicalities of the job but about the evil of the world that he is forced to see day after day. He calls himself part of the ‘walking wounded.’ In ‘A Medic’s Mind -Love, Loss and All Things in between,’ Matthew Heneghan writes of the life-altering experiences and other struggles he faced in his journey to becoming a good medic – from being a youth in a home where his mom struggled with mental illness, to his medic training in the United States army. He tells of exhausting shifts as a paramedic and coming face-to-face with his own mortality and the socioeconomic dilemmas of his patients. It is a read not to be missed!

Emergency Shift Daniel Potter,2021-04-08 Never promise a fey anything. With magic leaking back into our world, working the nightshift as a paramedic comes with danger. But I handle it. I've got a shotgun for the zombies and my lycanthropic rage hasn't escaped my apartment. Life is normal-ish. All that changes when I'm called to help a dying fey knight and I make a promise.There's a little girl with big eyes and a heart-rending snuffle. I can't say no. Of course she's not human. She's their key to opening the long-closed gates and feasting on humanity. Now an entire world I know nothing about is trying to kill me. And if I don't protect her, the teeth around my heart will finish the job. If I learn fast and bargain the right parts of my soul, the girl and I might make it out alive. Otherwise the cruelest winter will freeze everyone solid.

Doc Daniel E. Evans,Daniel E. Evans, Jr.,2002-10 HE GAVE MEN A FIGHTING CHANCE... TO SURVIVE Dan Evans arrived in Vietnam on October 7, 1968, a 21- year-old Army medic who couldn't stand the sight of blood. Thrust into the cauldron of combat, he soon became a seasoned veteran of emergency medicine and the brutal realities of war. Before his time was up, he would master the skills of a surgeon, acquire the patience of a saint, and demonstrate the courage of a lion... Here, in his own words, is the gripping true story of Dan Evans, the highly decorated soldier whom the men of First Platoon, Bravo Company, called the fighting medic. Experience the rage, the sorrow and the remarkable spirit of Dan Evans - the PLATOON MEDIC who became a true American hero.

Medic! Ben Sherman,2007-12-18 A conscientious objector who served as a medic during the Vietnam War offers an unflinching, compelling account of his experiences on the battlefield, describing his work with the injured and dying in the heart of combat.

The Medic's Homecoming Lynne Marshall,2013-06-18 The Girl Next Door...All Grown Up! Lucas Grady never planned to return to Whispering Oaks. But when family duty called, the prodigal son arrived like the good soldier he'd been for years. And with him came the unfulfilled expectations of the past—expectations his neighbor, Jocelyn Howard, knew all too well. Jocelyn had been in love with the rebel next door since she was a little girl. But she couldn't shake those old insecurities that she'd never be good enough, for Lucas or for anyone else. Still, the newly discharged army medic had scars that could never be truly healed—or so he thought. Maybe together, they could mend their wounds...and make each other whole again....

The Medic Adam Palmer,2014-11-26 During WWII, a young man from Lynchburg, Virginia was drafted into the Army and sent to the 77th Infantry Division. When he arrived at camp for basic training, he promptly made it known that he was a pacifist and would be unwilling to take a life or even so much as touch a weapon. He did however say that he would be proud to serve his country as a medic, if they would let him. No matter how much pressure the

Army applied, the medic was unwilling to compromise his convictions. The other soldiers in his unit came to hate the conscientious objector, going so far as to throw their boots at him while he knelt by his bunk at night to pray. When the men of Company B assaulted Hacksaw Ridge on the island of Okinawa, something happened that would change their opinion of the medic forever.
