Medieval Science, Technology, and Medicine Thomas F. Glick, Steven Livesey, Faith Wallis, 2014-01-27 Medieval Science, Technology, and Medicine details the whole scope of scientific knowledge in the medieval period in more than 300 A to Z entries. This resource discusses the research, application of knowledge, cultural and technology exchanges, experimentation, and achievements in the many disciplines related to science and technology. Coverage includes inventions, discoveries, concepts, places and fields of study, regions, and significant contributors to various fields of science. There are also entries on South-Central and East Asian science. This reference work provides an examination of medieval scientific tradition as well as an appreciation for the relationship between medieval science and the traditions it supplanted and those that replaced it. For a full list of entries, contributors, and more, visit the Routledge Encyclopedias of the Middle Ages website.

The Medieval Peasant House in Midland England Nat Alcock, Dan Miles, 2014-04-30 The aim of this lavishly illustrated book is to provide an in-depth study of the many medieval peasant houses still standing in Midland villages, and of their historical context. In particular, the combination of tree-ring and radiocarbon dating, detailed architectural study and documentary research illuminates both their nature and their status. The results are brought together to provide a new and detailed view of the medieval peasant house, resolving the contradiction between the archaeological and architectural evidence, and illustrating how its social organisation developed in the period before we have extensive documentary evidence for the use of space within the house. Nat Alcock and Dan Miles' work on Medieval Peasant Houses in Midland England has been nominated for the 2014 Current Archaeology Research Project of the Year.

The Village & House in the Middle Ages Jean Chapelot, Robert Fossier, 1985-01-01

The English Farmhouse and Cottage Maurice Willmore Barley, 1987

The English Farmhouse and Cottage M. W. Barley, 2024-05-30 First published in 1961, *The English Farmhouse and Cottage* brings together the evidence collected by those who have studied vanished buildings by excavation, and also examined surviving houses with a gentler instrument, the measuring tape. A change is taking place in the attitude towards the old buildings of the countryside. Into the place of the sentimentalist in search of the picturesque and the architect looking for a style have stepped the local historian and the archaeologist. Mr. Barley has built up a picture of the English countryman and his housing needs. He is concerned particularly with the sixteenth and seventeenth centuries since they were the most formative period in the evolution of the modern house. This book is an essential tool in the hands of those who wish to pursue, whether as tourists or as students, an important and fascinating aspect of the history of Rural England.

Medieval England M. W. Beresford, John Kenneth Sinclair St. Joseph, J. K. S. Joseph, 1979-11-15 This book discusses in detail some aspects of life in medieval England still to be seen in the landscape. The perspective of the air photograph conveys a fresh understanding of the physical setting of medieval society, of the interaction between communities and the land upon which they settled and of the varying pattern of the social and economic fabric of the country.

Routledge Revivals: Medieval Science, Technology and Medicine (2006) Thomas F. Glick, Steven J. Livesey, Faith Wallis, 2017-07-05 First published in 2005, this encyclopedia demonstrates that the millennium from the fall of the Roman Empire to the Renaissance was a period of great intellectual and practical achievement and innovation. In Europe, the Islamic world, South and East Asia, and the Americas, individuals built on earlier achievements, introduced sometimes radical refinements and laid the foundations for modern development. *Medieval Science, Technology, and Medicine* details the whole scope of scientific knowledge in the medieval period in more than 300 A to Z entries. This comprehensive resource discusses the research, application of knowledge, cultural and technology exchanges, experimentation, and achievements in the many disciplines related to science and technology. It also looks at the relationship between medieval science and the traditions it supplanted. Written by a select group of international scholars, this reference work will be of great use to scholars, students, and general readers researching topics in many fields, including medieval studies, world history, history of science, history of technology, history of medicine, and cultural studies.

The Medieval Village G. G. Coulton, 2012-08-09 Exceptionally well-documented vivid study of serfdom, manorial customs, abbeys, village discipline, peasant revolts, justice, religious education, tithing, much more. Illustrated. ...a remarkable book...-Times (London) Literary Supplement.

Four Centuries of Charlwood Houses Joan M. Harding, 1976

Houses and Cottages of Britain R. W. Brunskill, 2000-01-01 The sequel to *Traditional Buildings of Britain* traces the origins and development of traditional buildings by going inside the houses and revealing from their plans how they evolved from basic accommodation to homes giving comfort and privacy. The book shows how local traditional materials--earth, timber, stone, brick--were used in the construction of the buildings.

Conversing by Signs Robert Blair St. George, 1998 The people of colonial New England lived in a metaphoric landscape, beset with superstition and fear of dangers, real and imagined, seen and unseen. According to folklorist Robert

St. George, meaning was layered, often indirect, and inextricably intertwined with memory, apprehension, and imagination. Understanding their language is essential to appreciating their history. 134 illustrations.

Life in the English Country Cottage Adrian Tinniswood, 1997-09
The English cottage is an icon for our times. Whether a harmonious blend of timber-frame and thatch or golden Cotswold stone, it symbolizes country life at its most seductive - a chance to return to the rural Eden that was lost to most of us with the Industrial Revolution. The picture of cottage life is an attractive and enduring one that has fascinated writers and artists for the last two hundred years. But this book shows that life in the English country cottage was far from being the idyll that many of us suppose. From the medieval village right through to the twentieth century, the author traces the history of the cottage, exploring how cottages came to be built, and how their appearance was affected by social forces and changing trends. But the focus is firmly on people; how cottage dwellers spent their time, how they were treated by their social superiors, what they ate and where they slept, and how they decorated and furnished their homes.

The Medieval Houses of Kent Sarah Pearson, Royal Commission on Historical Monuments (England), 1994
An inventory of all the surviving timber-framed houses built in the Middle Ages, complete with documentation of the history of each house and shedding new light on Medieval building in England. There are more of these houses found in Kent, a county southeast in England, than anywhere in the world.
