Brothers at War Alex Rutherford,2010 Now a major DisneyPlus Hotstar Special - THE EMPIRE is streaming now The second enthralling installment in Alex Rutherford's Empire of the Moghul series. 'A totally absorbing narrative filled with authentic historical characters and sweeping action set in an age of horrifying but magnificent savagery. The writing is as compelling as the events described and kept me eagerly leaping from one page to the next' Wilbur Smith 1530, Agra, Northern India. Humayun, the newly-crowned second Moghul Emperor, is a fortunate man. His father, Babur, has bequeathed him wealth, glory and an empire which stretches a thousand miles south from the Khyber pass; he must now build on his legacy, and make the Moghuls worthy of their forebear, Tamburlaine. But, unbeknownst to him, Humayun is already in grave danger. His half-brothers are plotting against him; they doubt that he has the strength, the will, the brutality needed to command the Moghul armies and lead them to still-greater glories. Perhaps they are right. Soon Humayun will be locked in a terrible battle: not only for his crown, not only for his life, but for the existence of the very empire itself. 'Rutherford's glorious, broad-sweeping adventure in the wild lands of the Moghul sees the start of a wonderful series...In Babur, he has found a real-life hero, with all the flaws, mistakes and misadventures that spark true heroism... Breathtaking stuff' Manda Scott 'Alex Rutherford has set the bar high for his sequels' Daily Mail 'Alex Rutherford brings the period and the history of the region alive. The characters are dynamic, and the deadly regional politics of alliances and treaties are reflected by the internal tensions at court' US Historical Novel Society

Animal Castle #3 Xavier Dorison,2022-02-16 On the Farm all animals were equal. In the Castle some are more equal than others. With the animals in full revolt, will Miss B. be able to keep her children safe while also trying to provide for them a future in which they can thrive instead of under the hoof of the privileged in power? Or will it all come crashing down as the powerful use their material advantages against those who do the work? For fans of the bestselling Stray Dogs and the Eisner Award winning Beasts of Burden comes an animal fable at once familiar and surprising! You may think you know the story but set aside your assumptions, this animal uprising is unlike any you have read!

Deconstructing South Park Brian Cogan,2011-12-16 *Deconstructing South Park: Critical Examinations of Animated Transgression* is an edited collection by Brian Cogan that looks at the long and controversial run of one of the most subversive programs on television. South Park, while denounced by many as simply scatological, is actually one of the most nuanced and thoughtful programs on television. The contributors to South Park reveal that, through the lens of four foul-mouthed nine year olds, Trey Parker and Matt Stone have created one of the most astute forms of social and political commentary in television history. *Deconstructing South Park*, itself the most ambitious deconstruction of popular culture to date, analyzes how South Park is not only entertainment, but a commentary on American culture that tackles controversial issues far beyond the depth of most television. Specifically, the medium of animated sitcom allows the show's creators to contribute to cultural conversations regarding disability studies, religion, sexuality, celebrity, and more. If South Park deconstructs American culture, then Cogan and his contributors deconstruct the deconstructionists and reveal South Park in all its hilarious and often contradictory complexity.

Event David L. Golemon,2010-04-01 In the summer of 1947, an unidentified object crashed in Roswell, New Mexico. There were no survivors. Now it's happened again. But this time, two creatures have emerged from the wreckage alive . . . One is a small being that is kind and benevolent, brimming with intense emotion and intelligence. The other, however, is an animal of remarkable strength and power. It has been brought clandestinely to our world with one sole purpose: the total extinction of all life on Earth. It is called the Destroyer of Worlds. Only the Event Group, the most secret agency in the history of the U.S. government, is prepared to wage battle against such a creature. The Event Group is a dedicated collection of the nation's most brilliant men and women of science, philosophy and the military. Their difficult task: solving the mysteries of the past and uncovering the hidden truths behind the myths and legends propagated throughout world history. In doing so they protect America from past mistakes---and ensure that history's errors will never be repeated. An act of war that started in New Mexico decades ago, and was covered up by another far darker organization, has been discovered by the Group at the same time as the new and seemingly identical incident threatens to wipe out the Earth's population. In the desert wastelands of the American Southwest, a battle is about to commence as the two creatures set out to fulfill their own destinies among the human race. Led by the valiant Major Jack Collins, the Event Group wages total war in the heat-soaked sands of the desert landscape. Using the benevolent creature as an ally and resource, they combine forces with the powerful might of the U.S. military and prepare themselves for an epic battle against the most dangerous threat against human existence that history has ever seen. Event tells of an epic struggle between two worlds. Author David Lynn Golemon has written a classic supernatural thriller, each page bringing human civilization closer to extinction, that proves a blistering roller-coaster ride of thrills and adventure.

Shuffling through the cafeteria line with ordinary criminals, he wonders if the smartest man in the world has done the smartest thing he could with his life. After all, he's lost every battle he's ever fought. But this prison won't hold him forever. Fatale—half woman, half high-tech warrior—used to be an unemployed cyborg. Now, she's a rookie member of the world's most famous super-team, the Champions. But being a superhero is not all flying cars and planets in peril—she learns that in the locker rooms and dive bars of superherodom, the men and women (even mutants) behind the masks are as human as anyone. *Soon I Will Be Invincible* is a wildly entertaining first novel, brimming with attitude and humor—an emotionally resonant look at good and evil, love and loss, power and glory.
