The Business of Children's Entertainment Norma Odom Pecora,2002-03-06 For over 20 years, the development of children's television programming has been subsidized by toy manufacturers. Drawing on historical background and case studies, this book presents a unique look at the development of children as targets of the media and commercial industries, and examines the economic and social forces that have defined the evolution of children's entertainment. This volume is of interest to professionals and students in media studies, mass communication, and related fields; readers interested in contemporary children's culture and the content of children's programming.

How He-Man Mastered the Universe Brian C. Baer,2017-03-10 Elaborate cinematic universes and sophisticated marketing tie-ins are commonplace in entertainment today. It’s easy to forget that the transmedia trend began in 1982 with a barbarian action figure. He-Man and the other characters in Mattel’s popular Masters of the Universe toy line quickly found their way into comic books, video games, multiple television series and a Hollywood film. The original animated series (1983–1985) was the first based on an action figure, and the cult classic Masters of the Universe (1987) was the first toy-inspired live-action feature film. But it wasn’t easy. He-Man faced adversaries more dangerous than Skeletor: entertainment lawyers, Hollywood executives, even the Reagan administration. The heroes and villains of Eternia did more than shape the childhoods of the toy-buying public—they formed the modern entertainment landscape.
