Crafting a Symphony in Wood Elizabeth Ellen Ostring,2016-11-18 Anton Sie, twice successful in achieving his aspirations in music and physics, demonstrates that focus and diligent hard work can achieve great goals. But his story also shows the inter-connectedness of humanity: Anton received his musical training in Indonesia from a virtually illiterate Muslim peasant guitarist and a Jewish refugee violinist, and his knowledge of physics and acoustics from Chinese Communist scientists. He has demonstrated a critical factor in the superior construction of Stradivarius violins, his work authenticated by Western musicians for whom he is very grateful.

**Liem Sioe Liong's Salim Group** Richard Borsuk,Nancy Chng,2014-05-23 After Suharto gained power in Indonesia in the mid-1960s, he stayed as the country's president for more than three decades, helped by the powerful military, hefty foreign aid and support from a coterie of cronies. A pivotal business backer for his New Order government was Liem Sioe Liong, a migrant from China, who arrived in Java in 1938. A combination of the Suharto connection, serendipity and personal charm propelled him to become the wealthiest tycoon in Southeast Asia. This is the story of how Liem built the Salim Group, a conglomerate that in its heyday controlled Indonesia's largest non-state bank, the country's dominant cement producer and flour mill, as well as the world's biggest maker of instant noodles. The book features exclusive input from Liem, who died in 2012, and his youngest son, Anthony Salim. It traces the founder's life and the group's symbiosis with Suharto, his generals and family. After the tumultuous 1997–98 Asian financial crisis sparked Suharto's fall and a backlash against the strongman's cronies, Anthony staved off the crushing of the debt-laden group. Told in a journalistic style, the story of the Salim Group provides insights into Suharto's New Order. For business executives, students and anyone with an interest in Southeast Asia's largest economy, the volume makes a valuable contribution towards understanding the country's modern history.

**Islam Translated** Ronit Ricci, 2011-05-01 The spread of Islam eastward into South and Southeast Asia was one of the most significant cultural shifts in world history. As it expanded into these regions, Islam was received by cultures vastly different from those in the Middle East, incorporating them into a diverse global community that stretched from India to the Philippines. In *Islam Translated*, Ronit Ricci uses the *Book of One Thousand Questions*—from its Arabic original to its adaptations into the Javanese, Malay, and Tamil languages between the sixteenth and twentieth centuries—as a means to consider connections that linked Muslims across divides of distance and culture. Examining the circulation of this Islamic text and its varied literary forms, Ricci explores how processes of literary translation and religious conversion were historically interconnected forms of globalization, mutually dependent, and creatively reformulated within societies making the transition to Islam.
