Undercurrent - a Merfolk Myth M. Arzu,2017-05-07 Someone is hunting the merfolk. While the Council has been busy between possible talks with the United Nations and following clues into the man who killed Scott's parents, rumors of dead mermen are reaching the news. Is the hunter human or one of their own? More importantly, how is he so easily finding victims who have learned how to hide over centuries? Seeking to drag their assailant into the light, they might not be prepared to pay the cost, both to the merfolk, and much less to their family.

Weeks into their romance, they learn that their love affair is in jeopardy so they try to make a more permanent arrangement. However, all does not go as planned and Selima unintentionally encourages suspicions about the possibility of merfolk in Las Cuevas waters. Furthermore, her hovering stepmother has become somewhat obsessed with proving that merfolk are real and as time goes by, Selima has to create ridiculous explanations to hide her daily activities. She seeks help, while Amarus awaits their union. He is supportive in their plan, though there is not much he can do. Selima loves Amarus through all the sometimes discouraging circumstances. She hopes that he continues to love her because she is risking the trust of her father for them to be together. Eventually, they are helped but not in the way they requested and now they are left with a predicament that no one could have foreseen.

All over the world, wherever there's water, there are stories, legends and eyewitness accounts of mermaids. People have written, sung and passed on rumours about mermaids since ancient times, and often reported their own mermaid encounters, too. Do you know the facts and stories surrounding the

magical and, often elusive, world of mermaids? This gorgeously illustrated new book includes everything you wanted to know about these mysterious and captivating creatures. Asia is the next stop with its thousands of islands, beaches, rivers and lakes while Oceania, surrounded by the Pacific Ocean with its scattered islands, seems to be the perfect environment for these mysterious creatures. The journey ends with North and South America, where there are sightings of water spirits and fish-tailed ocean goddesses throughout the whole continent, home to the freezing Arctic, the tropical Caribbean as well as the world's largest jungle. The Mermaid Atlas will introduce you to the merfolk of the world, whether it's the beautiful Selkies of the Scottish seas, the wily lara of Brazil who love to outwit travellers or the fearful Ningyo of Japan who can give you eternal life.

**The Merfolk** Sally Hendee, 2021-02-10 The Merfolk: Return to Clan Nephramare By: Sally Hendee Marin Gherrity was an accomplished and successful, young executive who found herself caught up in a journey that she had not seen coming. There was a restlessness that was setting in she could not explain, that was not like her. A strong need for change pressed upon her until she couldn't ignore it any longer. She was feeling uncharacteristically emotional. All of it seemed to start when she was making trips back and forth to Ireland. There was a merger that was to occur between her company and a woolen mill outside of Killarney. It was nothing new for her, or so she thought, until the strange sensations and unusual dreams began. Something was calling to her and something within her needed to know what it was.

As the pirates prepare, Dalyn meets and falls in love with a mermaid, Guardian Minstrel Lyrica Tidalfin. She warns him about the latest attack from the demon god, Ludovique Firebrand. Wrought in the dark elven city of Espion, the harmless-looking, but sinister menace is growing throughout the Fayre Sea, destroying everything in its path. Dalyn refuses to lose another chance at love, even if it's with a mermaid. Unsure how they can ever share a life

together, he tries to stop the pirates from raiding her people, earn the right to court her, and join the fight to save the Fayre Sea.

Finn has seen mysterious swimmers in the Firth late at night. Then, from the clifftop, first Sage, then Finn, hears an eerie song. Could the local legend of merfolk living amid the waves actually be true? When the new friends meet the magical sea-people, they are amazed and impressed, but the merfolk are hiding a secret. The two human children must put aside their own problems and help in the battle against the young merfolk's ancient underwater enemy before the last of their kind are lost forever.
