Giant Creatures in Our World Camille D.G. Mustachio, Jason Barr, 2017-09-29 Dismissed as camp by critics but revered by fans, the kaiju or strange creature film has become an iconic element of both Japanese and American pop culture. From homage to parody to advertising, references to Godzilla--and to a lesser extent Gamera, Rodan, Ultraman and others--abound in entertainment media. Godzilla in particular is so ubiquitous, his name is synonymous with immensity and destruction. In this collection of new essays, contributors examine kaiju representations in a range of contexts and attempt to define this at times ambiguous genre.

The Art of Movies Nicolae Sfetcu, 2014-05-06 Movie is considered to be an important art form; films entertain, educate, enlighten and inspire audiences. Film is a term that encompasses motion pictures as individual projects, as well as – in metonymy – the field in general. The origin of the name comes from the fact that photographic film (also called filmstock) has historically been the primary medium for recording and displaying motion pictures. Many other terms exist – motion pictures (or just pictures or picture), the silver screen, photoplays, the cinema, picture shows, flicks – and commonly movies.

Animation & Cartoons Nicolae Sfetcu, 2014-05-07 An animated cartoon is a short, hand-drawn (or made with computers to look similar to something hand-drawn) moving picture for the cinema, TV or computer screen, featuring some kind of story or plot. Animation is the optical illusion of motion created by the consecutive display of images of static elements. In film and video production, this refers to techniques by which each frame of a film or movie is produced individually. Computer animation is the art of creating moving images via the use of computers. It is a subfield of computer graphics and animation. Anime is a medium of animation originating in Japan, with distinctive character and background aesthetics that visually set it apart from other forms of animation. An animated cartoon is a short, hand-drawn (or made with computers to look similar to something hand-drawn) moving picture for the cinema, TV or computer screen, featuring some kind of story or plot (even if it is a very short one). Manga is the Japanese word for comics and print cartoons. Outside of Japan, it usually refers specifically to Japanese comics. Special effects (abbreviated SPFX or SFX) are used in the film, television, and entertainment industry to visualize scenes that cannot be achieved by normal means, such as space travel. Stop motion is a generic general term for an animation technique which makes static objects appear to move.

Heavy Metal, Gender and Sexuality Florian Heesch, Niall Scott, 2016-07-07
Heavy Metal, Gender and Sexuality brings together a collection of original, interdisciplinary, critical essays exploring the negotiated place of gender and sexuality in heavy metal music and its culture. Scholars debate the current state of play concerning masculinities, femininities, queerness, identity aesthetics and monstrosities in an area of music that is sometimes mistakenly treated as exclusively sustaining a masculinist hegemony. The book combines a broad variety of perspectives on the main topic, regarding gender in connection to: the history of the genre; the range of metal subgenres; heavy metal's multidimensional scope (music, lyrics, performance, style, illustrations); men and women; sexualities and various local and global perspectives. Heavy Metal, Gender and Sexuality is a text that opens up the world of heavy metal to reveal that it is a very diverse and ground-breaking stage where gender play is at the centre of its theatricality and sustains its mass appeal.

The Lost Metal Brandon Sanderson, 2022-11-15 Return to #1 New York Times bestseller Brandon Sanderson's Mistborn world of Scadrial as its second era, which began with *The Alloy of Law*, comes to its earth-shattering conclusion in *The Lost Metal*. For years, frontier lawman turned big-city senator Waxillium Ladrian has hunted the shadowy organization the Set—with his late uncle and his sister among their leaders—since they started kidnapping people with the power of Allomancy in their bloodlines. When Detective Marasi Colms and her partner Wayne find stockpiled weapons bound for the Outer City of Bilming, this opens a new lead. Conflict between Elendel and the Outer Cities only favors the Set, and their tendrils now reach to the Elendel Senate—whose corruption Wax and Steris have sought to expose—and Bilming is even more entangled. After Wax discovers a new type of explosive that can unleash unprecedented destruction and realizes that the Set must already have it, an immortal kandra serving Scadrial's god, Harmony, reveals that Bilming has fallen under the influence of another god: Trell, worshipped by the Set. And Trell isn't the only factor at play from the larger Cosmere—Marasi is recruited by offworlders with strange abilities who claim their goal is to protect Scadrial...at any cost. Wax must choose whether to set aside his rocky relationship with God and once again become the Sword that Harmony has groomed him to be. If no one steps forward to be the hero Scadrial needs, the planet and its millions of people will come to a sudden and calamitous ruin.
