*MG Car Clubs* Graeme Smith,2020-05-27 MGCCWW

STARTMechanics are the foundation of MG car clubs in Australia.And maybe elsewhere too. After the Second World War the rich people bought sports cars.That meant mainly MG TC's. After a couple of years they sold them and bought something else. The mechanics who looked after those cars then bought the TC's cheaply. They could keep them going and also modify them, which they did.It was people such as these who also competed in races, hill climbs and trails. MG Car Clubs in Sydney, Melbourne, Brisbane and Adelaide.Were founded on this tradition. Wagga Wagga came much later when mechanics like Ron had old MGB's.Gradually cars improved and became more complex. The old art of being a mechanic started to change. Some people became car sellers, and others restored old cars (like Dick).Others upgraded their skills by working in big garages and others were left behind. My start.Back in 1997 I was teaching Parkes. My family lived in Dubbo where I went during the school holidays. There MG owners used to park in a group in the main street, Macquarie Street. They'd chat and look at one another's cars and occasionally go for a drive. They were mainly MG TC's and TF's. I never saw a TD for many years. There might be fewer in Australia than the other T series as most went to USA.Used to admire the MG's and got to know some of the people. One was another teacher who had a TF.I had about enough

money to think about buying a car. Some of that was compensation for my deafness. That had happened a couple of years earlier. There was one owner wanted to sell his TC. It looked great in pale blue with cycle guards and it went well too. So I thought I'd buy it for my first car. Then I made a mistake. I went home and told dad. He thought I'd kill myself in one of those. Next thing I knew I was the owner of a 1954 FJ Holden. It was cream with brown upholstery. I also had to get my licence. So I went for that the next day but had a minor bingle and failed the test. Went back the following day and passed. Haven't times changed? After four months of driving the FJ. I knew if I kept that car much longer I really would kill myself. They just couldn't handle. The motor was OK but it leant over at alarming angles when cornering. It had too much power for the chassis. That's why people used to put sandbags in the boot. The rough roads didn't help either. So I bought my first MG a 1954 TF. I showed it to my dad after I took delivery. This was the first of six MG's I have owned. I enjoyed driving the TF but became attracted to the idea of additional power. So a year later I traded it on an Austin-Healey 100. Although there were only three gears it had overdrive. A flick of the switch and the Healey and I were overtaking. However there was a penalty for that power. It wasn't long before I had four worn tyres. In addition the car had a fatal flaw just as the FJ Holden did. It could handle all right BUT it was far too low. The underneath of the car would scrape roads and gutters everywhere. Except on the highway. So it was

time for another MG. This time I swapped the Healey for an MG TF, which was in immaculate condition. It was a 1500cc model too. Although you'd need a stopwatch to tell the difference from the 1250cc version. I had this car for a number of years, using it as my daily driver. Eventually there was a blown motor. That was the end of my MG motoring for many years. My next MG is another story though. Because that purchase also was the beginning of a car club.

**Northeast American Sports Car Races 1950-1959**

Terry O'Neil, 2010-10-15 This book focuses on the different aspects that contributed to the development of Northeast American sports car racing during the 1950s. The evolution from amateur drivers racing on public roads in 1950, to both professional and amateur drivers racing at private, purpose-built tracks in 1959, demanded huge leaps of faith, trust and understanding. The transition was neither easy nor uneventful for drivers, clubs or track owners, and the tragedy, politics and intrigue that came to characterize the period are covered here in fascinating detail.

**Me and My MG** Gordon Thorburn, 2011-12-01 A

collection of heartwarming personal stories from MG owners around the world. Read about the Berkshire restorer who saw a heap of old iron in the bushes and realized it used to be a 1926 bullnose Super Sports; and the seven-year-old boy in Norfolk, Virginia, who read a book called The Red Car and knew that one day he would have to have a TC; and the Dutch boy who saw an MGB on his way to school and knew something similar. There's the nine-year-old French boy whose nan gave him a model kit to assemble; and the USAF fighter pilot who saw his first MG in Britain during the war and was in love for ever. A Canadian took 32 years to restore his TA, while a Swiss professor installed space-ship electronics in his TD. An aeronautical engineer was left some money and bought a 1929 18/80 Tourer that he thought had been restored. An Australian 17-year-old happened across a second-hand MGB, was done for speeding, and lived happily ever after. A Swedish boy walked out one Sunday morning into the middle of an MG rally. All the stories are different, but the storytellers have something in common: They would all rather love—and sometimes despair of—a wonderful vehicle with faults in its character, than have no feelings about one that has no character at all. Praise for Me and My MG “A loving look at one of Britain’s most iconic motors—brilliant photographs interspersed with personal reminiscences and memories—a book to be treasured.” —Books Monthly (UK)

**The Put-in-Bay Road Races, 1952-1963** Carl Goodwin, 2014-09-06 A great little sports car race took place on an island in Lake Erie, offshore of Sandusky, Ohio. The drivers came on ferry boats to compete for silver cups in an age when there were no sponsors and no prize money. The drivers were car salesmen, stock brokers, engineers, printers, etc. Often, the cars they raced were those they drove as daily transportation: MGs, Porsches, Triumphs, Alfas and others. In this well-illustrated history (full color throughout the ebook edition), drivers, officials, mechanics and spectators share their stories. The text paints a vivid picture of the sports car racing scene in post-war America.

*They Started in MGs* Carl Goodwin, 2011-08-10 An affordable, lightweight sports car suitable for racing, the MG TC launched the sports car scene in postwar America. A wave of drivers first competed on the track in these and the later TD, TF and MGA models during the 1950s, many of them eventually moving up to Porsches, Alfa Romeos, Jaguars and Ferraris. Eighty such drivers, from the famous (e.g., Phil Hill, John Fitch, David E. Davis, Jr.) to lesser known men and women with equally vivid stories, are profiled in this book, which presents many of their recollections from firsthand interviews alongside a wealth of period photographs.

**Original MG T Series** Anders Ditlev

Clausager, 2011-10-15 The T Series MGs TA, TB, TC, TD and TF evoke the living spirit of traditional sports car motoring. All five models are

illustrated in superb detail, supported by an authoritative text aimed at helping owners get their cars right. The TA and TB Tickford Drophead Coupmodels and the rare Arnolt-MG are included.

**Runways & Racers** Terry O'Neil, 2011-05-19 Runways and Racers concentrates on the short transitional period, 1952-1954, for sports car racing in America following the ban on public road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also

adopted by non-SAC bases together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities, and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races. His findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period, complemented by over 150 period pictures, many previously unpublished.

MG - Guide Karl Ludvigsen, John Christy, 2014-10-13 ORIGINAL DESCRIPTION (1958): "... In this book John Christy and Karl Ludvigsen have set down not only the joy of MG ownership but a comprehensive history showing how it all began. However, they haven't stopped there. A major portion of the book is devoted to maintaining and improving the more popular variants—from the TC through TD, TF, TF-1500, to the current MGA. These portions (with certain minor exceptions) were done directly from data supplied by Mr. Sydney Enever, who heads Abingdon's competition department. For those owners of the marque who are interested in continuous maintenance and improvement—and what truly shriven MG owner isn't ?—this is must reading ..."

**Factory-Original MG T-series** Anders Ditlev Clausager, 2020-01-21 Here is a new edition of Clausager's classic book Original MG T Series, first published in 1989 and never out of print since. For this edition fresh in-depth photography of all models from TA of 1936 to TF of 1954 has

been commissioned, the text has been thoroughly overhauled to incorporate new knowledge, and chapters have been added on pre-T Series MG Midgets and on coachbuilt and special-bodied cars. The MG T Series, and in particular the TC model of 1945-49, represent the treasured archetype of the British sports car – instantly recognisable and as popular today as they have consistently been throughout the decades.

MG Century David Knowles, 2024-03-12 Celebrate and explore 100 years of MG cars with this impressive volume featuring expert commentary, historical images, period ads, and contemporary photography. For many car enthusiasts, MG is synonymous with “sports car.” It is often credited with igniting a passion for European cars in postwar America at a time when roads were otherwise filled with the lumbering output of Detroit. In MG’s native England, the company’s cars filled roles from family transport to competition driving. MG, as we think of it today, began in the 1920s, but its roots go back even further with a young William Morris. Initially working in the booming bicycle trade, he eventually branched into motorcycle and car repair with the fledgling Morris Garage (hence, MG) in 1907. By the mid 1920s, the successful Morris Garages was in a position to begin manufacture of its own cars under the MG name. MG grew significantly in the years before World War II, building and racing its classic Midgets and Magnettes. World War II provided challenging times for the company as it did for the UK and much of the world. In the postwar period, a focus on sales

outside England, and particularly in the United States, both defined MG's product line and ensured its success. Legendary cars followed, including MG TC, TD, and TF followed by thoroughly modern MGA, MGB, MGB GT, and Midget. Magnettes and the 1100 offered options for those wanting sedans and more practical cars. MG ownership moved through a number of UK companies in the postwar period as well as ownership by BMW and today's SAIC, a Chinese-based company through which it operates as MG Motor. Highlights along the way included the MGB GT V8, MG Metro Group B rally car, and MGF. Based on its latest state-of-the-art EV platform, MG will soon launch an all-new roadster coming full circle over its century in business. Authored by marque expert David Knowles, *The MG Century: 100 Years of Safety Fast!* is a fitting celebration of one of the automotive world's oldest and most beloved brands—and a must-have for every car enthusiast.
