**An Index of the Source Records of Maryland** Eleanor Phillips Passano,1967 The major part of this work is an alphabetically arranged and cross-indexed list of some 20,000 Maryland families with references to the sources and locations of the records in which they appear. In addition, there is a research record guide arranged by county and type of record, and it identifies all genealogical manuscripts, books, and articles known to exist up to 1940, when this book was first published. Included are church and county courthouse records, deeds, marriages, rent rolls, wills, land records, tombstone inscriptions, censuses, directories, and other data sources.

Guided Care Dr. Jean Giddens, PhD, RN,Ms. Katherine Frey, MPH,Ms. Lisa Reider, MHS,Ms. Tracy Novak, MHS,2009-02-26 Winner of the 2009 Medical Economics Award! Boulton and his colleagues . . . have crafted a team model that builds upon the unique strengths of nurses and primary care physicians coupled with effective communication and implementation of evidence-based care. This represents a great advance over business as usual. --David B. Reuben, MD Director, Multicampus Program in Geriatric Medicine and Gerontology Chief, Division of Geriatrics David Geffen School of Medicine at UCLA Guided Care is an exciting, new team model used to provide medical care to clients with chronic conditions. This model involves adding a Guided Care nurse to the primary care practice team. It is also the most efficient, cost-effective way to respond to the needs of patients. This book provides physicians, nurses, administrators, and leaders of health care organizations with step-by-step guidance on adopting Guided Care Nursing into their practice. Featured Highlights: Evaluating the primary care practice's readiness to adopt Guided Care Preparing for adoption Integrating Guided Care into existing practices Hiring nurses for the primary care team Assuring financial viability Comparing Guided Care with other models The future of primary care, and the quality of care for adults with chronic conditions, depends on finding approaches to improve efficiency and effectiveness. This book demonstrates that Guided Care yields the best outcomes for patients and for primary care at large.

**African-American Heroes 1776-1919** Gilbert Wayne Hedgpeth, MHS, CAS, CS,2019-10-14 African-American Heroes 1776-1919 The Story of Sergeant Nedom Roberts By: Gilbert Wayne Hedgpeth, MHS, CAS, CS About the Book African-American Heroes 1776-1919: The Story Sergeant Nedom Roberts demonstrates the spirit and heroism of an African-American soldier's patriotic deeds and determination to serve his country despite barriers of racism, segregation, oppression, and discrimination. He persevered onward in great sacrifice, yet records of his service have gone unrecognized, been diminished and forgotten. This book seeks to educate the reader to tell the individual and collective stories of these gallant heroes and bring to light their historical legacies. The American democracy must include equality and opportunity for all its citizens without regard to their race, ethnicity, social-economic status and religion. The author hopes that readers of this book will enhance their knowledge and gain a renewed sense of pride and self-esteem about African-American heroes and their collective contributions to our beloved country.

**The Royal Family of Concord** Paula Ivaska Robbins,2003-06-06 The Royal Family of Concord chronicles the lives of the most important family in nineteenth century Concord. Squire Samuel Hoar was a lawyer and congressman; he and his son were founders of the anti-slavery Republican Party in Massachusetts. Rockwood Hoar was a judge, US Attorney General under Grant, and a congressman. His daughter, Elizabeth, was engaged to Charles, the brilliant younger brother of Ralph Waldo Emerson, who tragically died just before they were to wed. She became the sister, assistant, and muse to Waldo and a close friend of many in the Transcendental circle, especially Margaret Fuller.

Mass Customization Flavio S. Fogliatto,Giovani J.C. da Silveira,2010-11-09 Mass customization (MC) has been hailed as a successful operations strategy across manufacturing and service industries for the past three decades. However, the wider implications of using MC approaches in the broader industrial and economic environment are not yet clearly understood. Mass Customization: Engineering and Managing Global Operations presents emerging research on the role of MC and personalization in today's international operations context. The chapters cover MC in the context of global industrial economics and operations. Moreover, the book discusses MC topics that are relevant to the manufacturing and service sectors, such as: • product platforms; • learning curve modeling; • additive manufacturing; and • service customization. Case studies in

manufacturing (e.g., apparel and transportation) and services (e.g., banking and virtual worlds) are also included. *Mass Customization: Engineering and Managing Global Operations* is a valuable text for mass customization researchers and practitioners. Researchers will find a selection of chapters prepared by internationally renowned authors, comprising most of their recent research in MC. Engineering professionals will be drawn by the vivid discussion of operational aspects and methods of MC, as well as by the selection of cases illustrating their practical application.

**The Peabody Sisters** Megan Marshall, 2005 Elizabeth, Mary, and Sophia Peabody were in many ways our American Brontes. The story of these remarkable sisters -- and their central role in shaping the thinking of their day -- has never before been fully told. Twenty years in the making, Megan Marshall's monumental biography brings the era of creative ferment known as American Romanticism to new life. Elizabeth, the oldest sister, was a mind-on-fire thinker. A powerful influence on the great writers of the era -- Emerson, Hawthorne, and Thoreau among them -- she also published some of their earliest works. It was Elizabeth who prodded these newly minted Transcendentalists away from Emerson's individualism and toward a greater connection to others. Mary was a determined and passionate reformer who finally found her soul mate in the great educator Horace Mann. The frail Sophia was a painter who won the admiration of the preeminent society artists of the day. She married Nathaniel Hawthorne -- but not before Hawthorne threw the delicate dynamics among the sisters into disarray. Marshall focuses on the moment when the Peabody sisters made their indelible mark on history. Her unprecedented research into these lives uncovered thousands of letters never read before as well as other previously unmined original sources. The Peabody Sisters casts new light on a legendary American era. Its publication is destined to become an event in American biography. This book is highly recommended for students and reading groups interested in American history, American literature, and women's studies. It is a wonderful look into 19th-century life.

**Methods for Community Public Health Research** Steven M. Albert, PhD, MSc, MSPH, 2014-03-11 This book presents a new approach to conducting, evaluating, and presenting community and public health research... This is [a] valuable book for learning alternative ways of conducting and disseminating research.--Doody's Medical Reviews The Burke & Albert text is a must-have for all community researchers in public health. It contains innovative, community-engaged research methods that are described in an easily understandable manner. Challenging the notion of the quantitative-qualitative dichotomy, the contributors include integrated research methods including spatial analysis, concept mapping, network approaches, system dynamics, visual voice, and news media analysis. This is the first text to advance beyond traditional research methods for promoting community health by presenting a new paradigm that integrates qualitative and quantitative research methods. Written for graduate students of public health and practicing researchers, the book highlights new technologies and methodologies that are particularly suited to addressing complex health issues, translating research into action, and engaging the community and relevant stakeholders. Eschewing the rigid distinction between qualitative and quantitative methods, this new paradigm facilitates a more fluid use of integrated methods and interdisciplinary expertise. With a focus on inferring meaning, the book stresses the conjoint effects of place, time, voice, organization, and scale on health outcomes. Use of these new research methods will provide greater insight into how and why contextual and community factors impact health and aid in developing more effective intervention programs. The text focuses on new methods for inferring meaning from both the quantitative information that characterizes communities and the words community members use to describe their lives. It pays particular attention to data collection and analysis and clearly demonstrates the intricacies of using spatial, systems, and modeling analysis for community health. The first section on inferring meaning from numbers includes spatial analysis, agent-based models, community network analysis, and realist reviews. The second section, about inferring meaning from words, addresses system dynamics, concept mapping, visual voices, and media analysis. Chapters describe, step by step, how to apply new methodologies to pressing health issues and provide Web links to interactive mapping and videos of agent-based models. Additionally, the authors provide examples from their research to support methodological points. Key features: Introduces a new paradigm for community public health research that integrates qualitative and quantitative methods Provides in-depth guidance about applying these new methodologies to pressing community health issues Details applications of new methods such as agent-based simulations, visual voice methods, geospatial analysis, and concept mapping Bridges the disciplines of community health and epidemiology Written for and by multidisciplinary public health scholars

*Abraham Lincoln and the Virtues of War* Jean E. Friedman, 2015-07-20 This study introduces a new perspective on Lincoln and the Civil War through an examination of his declaration of our national values and the subsequent interpretation of those values by families during the war. This volume is a completely new approach to Civil War history. Historians rightly regard Abraham Lincoln as a moral exemplar, a president who gave new life to the national values that defined America. While some previous studies attest to Lincoln's identification with family virtues, this is the first to link Lincoln's personal biography with actual histories of families at war. It analyzes the relationship that existed between Lincoln and these families and assesses the moral struggles that validated the families' decision for or against the conflict. Written to be accessible to students and the general reader alike, the book examines Lincoln's presidency as measured against the stories of families, North and South, that struggled with his definition of Union virtues. It looks at Lincoln's compelling case for democratic values—among them, justice, patriotism, honor, and commitment—first stated in his 1861 speech before Independence Hall. The work also uses case studies to demonstrate how virtue, as practiced in families, illuminated, contested, adapted, and even transformed his concept, giving new meaning to the virtues of war.

**Native Women's History in Eastern North America Before 1900** Rebecca Kugel, Lucy Eldersveld Murphy, 2007-01-01 How can we learn more about Native women's lives in North America in earlier centuries? This question is answered by this landmark anthology, an essential guide to the significance, experiences, and histories of Native women. Sixteen classic essays plus new commentary many by the original authors describe a broad range of research methods and sources offering insight into the lives of Native American women. The authors explain the use of letters and diaries, memoirs and autobiographies, newspaper accounts and ethnographies, census data and legal documents. This collection offers guidelines for extracting valuable information from such diverse sources and assessing the significance of such variables as religious affiliation, changes in women's power after colonization, connections between economics and gender, and representations (and misrepresentations) of Native women. Indispensable to anyone interested in exploring the role of gender in Native American history or in emphasizing Native women's experiences within the context of women's history, this anthology helps restore the historical reality of Native women and is essential to an understanding of North American history.

*Agriculture in the Midwest, 1815-1900* R. Douglas Hurt, 2023-07 After the War of 1812 and the removal of the region's Indigenous peoples, the American Midwest became a paradoxical land for settlers. Even as many settlers found that the region provided the bountiful life of their dreams, others found disappointment, even failure—and still others suffered social and racial prejudice. In this broad and authoritative survey of midwestern

agriculture from the War of 1812 to the turn of the twentieth century, R. Douglas Hurt contends that this region proved to be the country's garden spot and the nation's heart of agricultural production. During these eighty-five years the region transformed from a sparsely settled area to the home of large industrial and commercial cities, including Chicago, Milwaukee, Cleveland, and Detroit. Still, it remained primarily an agricultural region that promised a better life for many of the people who acquired land, raised crops and livestock, provided for their families, adopted new technologies, and sought political reform to benefit their economic interests. Focusing on the history of midwestern agriculture during wartime, utopian isolation, and colonization as well as political unrest, Hurt contextualizes myriad facets of the region's past to show how agricultural life developed for midwestern farmers—and to reflect on what that meant for the region and nation.
