Micro Michael Crichton, Richard Preston, 2011-11-22 In the vein of Jurassic Park, this high-concept thriller follows a group of graduate students lured to Hawaii to work for a mysterious biotech company—only to find themselves cast out into the rain forest, with nothing but their scientific expertise and wits to protect them. In the lush forests of Oahu, groundbreaking technology has ushered in a revolutionary era of biological prospecting, feeding a search for priceless drugs and applications on a scale beyond anything previously imagined. In Cambridge, Massachusetts, seven graduate students at the forefront of their fields are recruited by a pioneering microbiology start-up, Nanigen MicroTechnologies, which dispatches the group to a mysterious lab in Hawaii. But once in the rainforest, the scientists are thrust into a hostile wilderness that reveals surprising dangers at every turn. Armed only with their knowledge of the natural world, they find themselves prey to a technology of radical and unbridled power. An instant classic, *Micro* pits nature against technology in vintage Michael Crichton fashion. Completed by visionary science writer Richard Preston, this boundary-pushing thriller melds scientific fact with pulse-pounding fiction to create yet another masterpiece of sophisticated, cutting-edge entertainment.

Beyond Micro-credit Thomas Fisher, M. S. Sriram, 2002 Beyond Micro-Credit sets out how Indian Micro-Finance Initiatives are combining micro-finance with a wide range of development goals, these include not only poverty alleviation through providing savings, credit and insurance services but also promoting livelihoods, empowering women, building people's organizations and changing institutions.

The Micro-macro Link Jeffrey C. Alexander, 1987-01-01 The work of fifteen nationally and internationally known theorists in sociology, this volume demonstrates an exciting new trend in sociological thinking. Each essay proposes a link between the two distinguishable traditions of sociological theory--the microscopic, which stresses the self and the interaction among persons, and the macroscopic, which concentrates on the institutional, cultural, and societal levels. Each mode of analysis has had its champions, and the proponents of each have often taken positions of polemic opposition to one another.

LEGO Micro Cities Jeff Friesen, 2018-10-30 Create your own custom city with building instructions for over 50 builds from 8 amazing LEGO Micro Cities! Build a beautiful LEGO® city that's small enough to hold in your hands! Filled with striking photos, step-by-step instructions, and countless ideas for customization, LEGO Micro Cities shows you how building small can open up new possibilities for the creative builder. You'll learn everything you need to know to create your own micro city, from building the foundation to adding convincing architectural details that will bring your city to life.

Multimodal Learning toward Micro-Video Understanding Liqiang Nie, Meng Liu, Xuemeng Song, 2022-05-31 Micro-videos, a new form of user-generated contents, have been spreading widely across various social platforms, such as Vine, Kuaishou, and Tik Tok. Different from traditional long videos, micro-videos are usually recorded by smart mobile devices at any place within a few seconds. Due to its brevity and low bandwidth cost, micro-videos are gaining increasing user enthusiasm. The blossoming of micro-videos opens the door to the possibility of many promising applications, ranging from network content caching to online advertising. Thus, it is highly desirable to develop an effective scheme for the high-order micro-video understanding. Micro-video understanding is, however, non-trivial due to the following challenges: (1) how to represent micro-videos that only convey one or few high-level themes or concepts; (2) how to utilize the hierarchical structure of the venue categories to guide the micro-video analysis; (3) how to alleviate the influence of low-quality caused by complex surrounding environments and the camera shake; (4) how to model the multimodal sequential data, {i.e.}, textual, acoustic, visual, and social modalities, to enhance the micro-video understanding; and (5) how to construct large-scale benchmark datasets for the analysis? These challenges have been largely unexplored to date. In this book, we focus on addressing the challenges presented above by proposing some state-of-the-art multimodal learning theories. To demonstrate the effectiveness of these models, we apply them to three practical tasks of micro-video understanding: popularity prediction, venue category estimation, and micro-video routing. Particularly, we first build three large-scale real-world micro-video datasets for these practical tasks. We then present a multimodal transductive learning framework for micro-video popularity prediction. Furthermore, we introduce several multimodal cooperative learning approaches and a multimodal transfer learning scheme for micro-video venue category estimation. Meanwhile, we develop a multimodal sequential learning approach for micro-video recommendation. Finally, we conclude the book and figure out the future research directions in multimodal learning toward micro-video understanding.

Micro Markets Workbook Robert A. Schwartz, Michael G. Carew, Tatiana Maksimenko, 2010-03-25 A companion Workbook to the text *Micro Markets Understanding* how microeconomics affects the marketplace is essential for any investment professional, however most books simply address microeconomics in its pure theory-based form. *Micro Markets* helped bridge the gap between theory and practice by defining microeconomics in terms of real-world, market applications. Now, the *Micro Markets Workbook* offers you a chance to review the information found in the actual book and solidify your understanding of this discipline. In this study guide, microeconomic concepts are fully reviewed, along with how all of its relevant theory is applicable to today's markets. Helps you learn to perform dynamic microeconomic analysis in practice Tests your knowledge of the information addressed in *Micro Markets*, before you put it to work in real world situations Provides solutions to each chapter of the main book's practice problems If you want to gain a firm understanding of the information outlined in *Micro Markets*, the lessons within this Workbook can help you achieve this goal.

Micro-trauma Margaret Crastnopol, 2015-01-09 *Micro-trauma: A psychoanalytic understanding of cumulative psychic injury* explores the micro-traumatic or small, subtle psychic hurts that build up to undermine a person's sense of self-worth, skewing his or her character and compromising his or her relatedness to others. These injuries amount to what has been previously called cumulative or relational trauma. Until now, psychoanalysis has explained such negative influences in broad strokes, using general concepts like psychosexual urges, narcissistic needs, and separation-individuation aims, among others. Taking a fresh approach, Margaret Crastnopol identifies certain specific patterns of injurious relating that cause damage in predictable ways; she shows how these destructive processes can be identified, stopped in their tracks, and replaced by a healthier way of functioning. Seven different types of micro-trauma, all largely hidden in plain sight, are described in detail, and many others are discussed more briefly. Three of these micro-traumas—psychic airbrushing and excessive niceness, uneasy intimacy, and connoisseurship gone awry—have a predominantly positive emotional tone, while the other four—unkind cutting back, unbridled indignation, chronic entrenchment, and little murders—have a distinctly negative one. Margaret Crastnopol shows how these toxic processes may take place within a dyadic relationship, a family group, or a social clique, causing collateral psychic damage all around as a consequence. Using illustrations drawn from

psychoanalytic treatment, literary fiction, and everyday life, *Micro-trauma* : A psychoanalytic understanding of cumulative psychic injury outlines how each micro-traumatic pattern develops and manifests itself, and how it wreaks its damage. The book shows how an awareness of these patterns can give us the therapeutic leverage needed to reshape them for the good. This publication will be an invaluable resource for psychoanalysts, psychologists, psychiatrists, mental health counselors, social workers, marriage and family therapists, and for trainees and graduate students in these fields and related disciplines. Margaret Crastnopol (Peggy), Ph.D. is a faculty member of the Seattle Psychoanalytic Society and Institute, and a Supervisor of Psychotherapy at the William Alanson White Institute of Psychiatry, Psychoanalysis & Psychology. She is also a Training and Supervising Analyst at the Institute of Contemporary Psychoanalysis, Los Angeles. She writes and teaches nationally and internationally about the analyst's and patient's subjectivity; the vicissitudes of love, lust, and attachment drives; and varieties of micro-trauma. She is in private practice for the treatment of individuals and couples in Seattle, WA.

Strategy and Superior Performance of Micro and Small Businesses in Volatile Economies Carvalho, João Conrado de Amorim, Sabino, Emmanuel M.C.B., 2019-02-08 Companies operating in countries with volatile economies face an environment subject to turbulence. It is important to understand how these companies can overcome adversity, establish competitive advantage, and achieve superior performance. The selection of competitive drivers can help to improve the ability to capture, process, and manage information that can generate knowledge and innovation in products and processes, as well as increase strategic capacity and organizational performance. *Strategy and Superior Performance of Micro and Small Businesses in Volatile Economies* focuses on the ways that organizations capture information and disseminate it in their work teams, transforming this knowledge into innovative products and services that establish competitive advantage. It will improve the understanding of the role of strategy, innovation, entrepreneurship, and the effort to reduce poverty levels in societies with volatile economies and which are subject to serious social disparities. Highlighting topics such as economic development, market performance, and network economy, this publication is designed for managers, entrepreneurs, business professionals, academicians, researchers, and students.

Micro Michael Crichton, Richard Preston, 2012-03-26 Eine Handvoll Studenten, ausgesetzt im Regenwald, auf der Flucht vor technisch veränderten Organismen: ein hintergründiges und hochaktuelles Actionszenario Honolulu, Hawaii. Drei Männer liegen tot auf dem Fußboden eines verschlossenen Büros – keine Anzeichen eines Kampfes, keine Einbruchsspuren, keine Tatwaffe. Nur die extrem feinen, rasiermesserscharfen Schnitte, die die Leichen überziehen, liefern einen ebenso grausigen wie rätselhaften Hinweis auf die Todesursache. In Cambridge, Massachusetts, wird eine Handvoll Studenten, die sich durch besondere Fähigkeiten hervortun, von einem Unternehmen für den Einsatz an der Front der Mikrobiologie rekrutiert. Die streng geheime, höchst profitable Arbeit von Nanigen Micro Technologies führt die Forschungstalente nach Hawaii. Doch hier, weit entfernt von der Sicherheit ihrer Labors, plötzlich sich selbst überlassen im Dschungel, sehen sich die Studenten nicht nur einer erbarmungslosen Natur, sondern auch einer radikalen neuen Technik gegenüber, die die Gruppe schnell beherrschen lernen muss, will sie nicht für immer in den undurchdringlichen Wäldern Oahus verschwinden ...

Micro, Meso, Macro Hans Liljenström, Uno Svedin, 2005 In the domain of science concerned with systems structure and behavior, the issue of the relationship between the micro and the macro level is of key importance. This book concentrates on the interplay between these levels and has a special focus on the level OC in between OCO OCo the meso level. An investigation of those links is made through a number of cases from different domains of science, including physics, chemistry, ecology, social science, economics and technology. What is evident is that there are facets regarding meso-level issues that are similar between cases, but also that the domains differ in various ways. This is particularly exemplified by the differences in perspectives from which the natural and social sciences deal with scaling issues. The various examples provided in this book mirror its overriding theme: systems complexity.

Computation Bernardo A. Huberman, 1992 The laws and methodology of physics are starting to provide powerful insights into the nature and dynamics of computation. This book contains a number of articles that illustrate how fields ranging from quantum mechanics to statistical physics and nonlinear dynamics can help elucidate the nature of computation.

Building Micro-Frontends Luca Mezzalana, 2021-11-17 What's the answer to today's increasingly complex web applications? Micro-frontends. Inspired by the microservices model, this approach lets you break interfaces into separate features managed by different teams of developers. With this practical guide, Luca Mezzalana shows software architects, tech leads, and software developers how to build and deliver artifacts atomically rather than use a big bang deployment. You'll learn how micro-frontends enable your team to choose any library or framework. This gives your organization technical flexibility and allows you to hire and retain a broad spectrum of talent. Micro-frontends also support distributed or colocated teams more efficiently. Pick up this book and learn how to get started with this technological breakthrough right away. Explore available frontend development architectures Learn how microservice principles apply to frontend development Understand the four pillars for creating a successful micro-frontend architecture Examine the benefits and pitfalls of existing micro-frontend architectures Learn principles and best practices for creating successful automation strategies Discover patterns for integrating micro-frontend architectures using microservices or a monolith API layer

New Micro: Exceptionally Short Fiction James Thomas, Robert Scotellaro, 2018-08-28 A new collection of very short stories selected by Flash Fiction editor James Thomas and Robert Scotellaro. All of the stories in this book are exceptionally short, revealing themselves in no more than 300 words. With a foreword by Robert Shapard and an afterword by Christopher Merrill, this book brings you fresh approaches to an exacting form that demands precision, a species of brevity that is surprisingly expansive. Writers say the pieces are hard to compose, but readers say they are easy to appreciate, a pleasure to envision, a wonder to watch life spun out and painted in small places. Real and surreal, lyrical and prosaic, here are 135 stories by 89 authors, certain to make you think.

Micro Total Analysis Systems 2002 Yoshinobu Baba, Shuichi Shoji, Albert van den Berg, 2002-10-17 The Sixth International Conference on Miniaturized Chemical and Biochemical Analysis Systems, known as /JTAS2002, will be

fully dedicated to the latest scientific and technological developments in the field of miniaturized devices and systems for realizing not only chemical and biochemical analysis but also synthesis. The first /JTAS meeting was held in Enschede in 1994 with approximately 160 participants, bringing together the scientists with background in analytical and biochemistry with those with Micro Electro Mechanical Systems (MEMS) in one workshop. We are grateful to Piet Bergveld and Albert van den Berg of MESA Research Institute of the University of Twente for their great efforts to arrange this exciting first meeting. The policy of the meeting was succeeded by late Prof. Dr. Michael Widmer in the second meeting, /JTAS'96 held in Basel with 275 participants. The first two meetings were held as informal workshops. From the third workshop, /JTAS'98 (420 participants) held in Banff, the workshop had become a worldwide conference. Participants continued to increase in /JTAS2000 (about 500 participants) held in Enschede and /JTAS2001 (about 700 participants) held in Monterey. The number of submitted papers also dramatically increased in this period from 130 in 1998, 230 in 2000 to nearly 400 in 2001. From 2001, /JTAS became an annual symposium. The steering committee meeting held in Monterey, confirmed the policy of former /JTAS that quality rather than quantity would be the key-point and that the parallel-session format throughout the 3.

Laser Beam Micro-milling of Micro-channels in Aerospace Alloys Saied Muhammed Hassan Darwish, Naveed Ahmed, Abdulrahman M. Al-Ahmari, 2017-01-31 This volume is greatly helpful to micro-machining and laser engineers as it offers obliging guidelines about the micro-channel fabrications through Nd:YAG laser beam micro-milling. The book also demonstrates how the laser beam micro-milling behaves when operating under wet conditions (under water), and explores what are the pros and cons of this hybrid technique. From the predictive mathematical models, the readers can easily estimate the resulting micro-channel size against the desired laser parametric combinations. The book considers micro-channels in three highly important research materials commonly used in aerospace industry: titanium alloy Ti-6Al-4V, nickel alloy Inconel 718 and aluminum alloy AA 2024. Therefore, the book is highly practicable in the fields of micro-channel heat exchangers, micro-channel aerospace turbine blades, micro-channel heat pipes, micro-coolers and micro-channel pulsating heat plates. These are frequently used in various industries such as aerospace, automotive, biomedical and micro-electronics.

Micro-Credit Networking for Women Entrepreneurs in Estonia, Latvia and Lithuania Nordic Council of Ministers, 2005 Micro-credit networking means so much more than giving a loan to a group of women who want to start a company: development of business ideas in co-operation with others, training in business economics, book-keeping etc, advisory services and information from professional advisers.

Micro Total Analysis Systems 2001 J. Michael Ramsey, Albert van den Berg, 2012-12-06 The Fifth International Conference on Micro Total Analysis Systems, also known as JLTAS 2001, will highlight the latest exciting events in the world of miniaturized devices and systems for performing chemical and biochemical experimentation. This conference has become mandatory for those of us working in this field as it is indeed helping to define our discipline. We are grateful to the people of the MESA Research Institute of the University of Twente, particularly Piet Bergveld and Albert van den Berg, for starting this meeting in 1994. Their original intention was for the JLTAS meeting to be a small informal workshop. This workshop flavor was sustained through the second meeting held in Basel in 1996, but already in 1998 at the third meeting in Banff it was clear that the workshop had become a conference with 420 attendees. It was due to this clearly growing interest in microchemical systems that it was decided we should consider gradually moving toward an annual format and prepare for the possibility that the meeting would increase in popularity. Albert van den Berg was still yearning for a workshop at the JLTAS 2000 meeting and planned a single session format. Again there was a large increase in submitted abstracts (more than 230 total) and a further increase in attendance. The JLTAS steering committee again agreed that we would have to prepare to address the demand the meeting was receiving.
