The Whole of Humanity Has Gone Yuri Except for Me Hiroki Haruse,2021-07-20 Marika Uruuno is just a normal girl in a normal world. She'll fall in

love normally, get married normally, and have a normal family— or that was the plan anyway. But when she suddenly wakes up in a version of reality filled only with women, she finds herself questioning what exactly “normal” means and why it’s so important to her. And as Mariko discovers something even more precious, she’s faced with a choice—will she find a way back to her previous life...or will she stay in this strange new world?

Style Shifting in Japanese Kimberly Jones, Tsuyoshi Ono, 2008 This innovative and interdisciplinary book on style shifting in Japanese brings together a wide range of perspectives and methodologies—including discourse analysis, sociolinguistics, cognitive linguistics, and functional linguistics—to look at a variety of

types of style shifting in both spoken and written Japanese discourse. Though diverse in approach, the contributions all reflect the belief that language use is inextricably linked to both context and language structure in mutually constitutive relationships. Topics covered include shifting between polite and plain styles, the emergence of a semi-polite style, speakers' strategic use of gendered styles or regional dialects, shifting between different deictic expressions, and prosodic shifting. This careful and detailed examination advances our understanding of the complex phenomenon of style shifting not only in Japanese, but also more generally, and will be of interest to researchers and students in fields such as linguistics, linguistic anthropology, communication studies, and second language acquisition and teaching.

Discourse and Politeness examines Japanese institutional discourse and attempts to clarify the relationship between politeness, facework and speaker identity. The book seeks to establish an empirically grounded analysis of facework as the basis for evaluating politeness, and describes

facework in delicate situations such as disagreement, teasing and talking about troubles, which have rarely been discussed in politeness studies. Insightful and cutting-edge, this research monograph will be of interest to researchers in discourse analysis, sociolinguistics and Japanese language.

Constructing the Heritage Language Learner

Neriko Doerr, Kiri Lee, 2013-05-28 Heritage language education is a relatively new field developed as heritage has become an important trope of belonging, legitimacy and commodification. Many recent studies treat the heritage language learner as an objective category. However, it is a social construct, whose meaning is contested by researchers, school administrators and the students themselves. Based on ethnographic fieldwork in 2007-2011 at a weekend Japanese language school in the United States, this monograph investigates the construction of the heritage language learner at the intersections of the knowledge-power complex, ideologies of language and national belonging, and politics of schooling. It examines the ways individuals become, resist and negotiate their new subjectivity as heritage language learners through becoming objects of study, being caught in nationalist aspirations and school politics regarding what to teach to whom, and negotiating with peers with various linguistic proficiency and family backgrounds. The volume proposes a new approach to view the notion of heritage language learner as a site of negotiation regarding the legitimate knowledge of language and ways of

belonging, while offering practical suggestions for schools.
