The Poison in the Gift Gloria Goodwin

Raheja, 1988-09-15 The Poison in the Gift is a detailed ethnography of gift-giving in a North Indian village that powerfully demonstrates a new theoretical interpretation of caste. Introducing the concept of ritual centrality, Raheja shows that the position of the dominant landholding caste in the village is grounded in a central-peripheral configuration of castes rather than a hierarchical ordering. She advances a view of caste as semiotically constituted of contextually shifting sets of meanings, rather than one overarching ideological feature. This new understanding undermines the controversial interpretation advanced by Louis Dumont in his 1966 book, Homo Hierarchicus, in which he proposed a disjunction between the ideology of hierarchy based on the purity of the Brahman priest and the temporal power of the dominant caste or the king.

The Content of Our Caricature Rebecca

Wanzo, 2020-04-21 Winner, 2021 Katherine Singer Kovács Book Award, given by the Society for Cinema and Media Studies Winner, 2021 Will Eisner Comic Industry Awards for Best Academic/Scholarly Work Honorable Mention, 2021 Harry Shaw and Katrina Hazzard-Donald Award for Outstanding Work in African-American Popular Culture Studies, given by the Popular Culture Association Winner, 2020 Charles Hatfield Book Prize, given by the Comic Studies Society Traces the history of racial caricature and the ways that Black cartoonists have turned this visual grammar on its head Revealing the long aesthetic tradition of African American cartoonists who have made use of racist caricature as a black diasporic art practice, Rebecca Wanzo demonstrates how these artists have resisted histories of visual imperialism and their legacies. Moving beyond binaries of positive and negative representation, many black cartoonists

have used caricatures to criticize constructions of ideal citizenship in the United States, as well as the alienation of African Americans from such imaginaries. The Content of Our Caricature urges readers to recognize how the wide circulation of comic and cartoon art contributes to a common language of both national belonging and exclusion in the United States. Historically, white artists have rendered white caricatures as virtuous representations of American identity, while their caricatures of African Americans are excluded from these kinds of idealized discourses. Employing a rich illustration program of color and black-and-white reproductions, Wanzo explores the works of artists such as Sam Milai, Larry Fuller, Richard "Grass" Green, Brumsic Brandon Jr., Jennifer Cruté, Aaron McGruder, Kyle Baker, Ollie Harrington, and George Herriman, all of whom negotiate and navigate this troublesome history of caricature. The Content of Our Caricature arrives at a gateway to understanding how a visual grammar of citizenship, and hence American identity itself, has been constructed.

Language Arts, Math, and Science in the Elementary Music Classroom Kim Milai, 2017 *Language Arts, Math, and Science in the Elementary Music Classroom* provides a practical guide to help music teachers incorporate elementary classroom subjects into their curriculum using STEAM (Science, Technology, Engineering, Arts and Math)-inspired strategies, with added emphasis on social studies. It includes a complete elementary music curriculum for kindergarten, first, and second grades, and has cross-referencing charts for regular elementary classroom teachers to find music activities for their classroom. Importantly, it shows teachers how to include the artistic processes of creating, performing, responding, and connecting in their lessons. These processes make up the new music standards featured in NAFME's new

Core Arts Music Standards. In order to maximize comprehension, the book includes assessment tests, sheet music, work sheet templates, and brainstorming activities centered on using technology to enhance composition projects. Lesson plans are organized by the calendar year, each inspired by the seasons, American culture, and world culture. These lessons may be used as is or used to generate new curricula altogether.

The Politics of the Climate Change-Health Nexus

Maximilian Jungmann, 2021-05-09 This book compares how governments in 192 countries perceive climate change related health risks and which measures they undertake to protect their populations. Building on case studies from the United Kingdom, Ireland, South Korea, Japan and Sri Lanka, *The Politics of the Climate Change-Health Nexus* demonstrates the strong influence of epistemic communities and international organisations on decision making in the field of climate change and health. Jungmann shows that due to the complexity and uncertainty of climate change related health risks, governments depend on the expertise of universities, think tanks, international organisations and researchers within the public sector to understand, strategize and implement effective health adaptation measures. Due to their general openness towards new ideas and academic freedom, the book shows that more democratic states tend to demonstrate a higher recognition of the need to protect their populations. However, the level of success largely depends on the strength of their epistemic communities and the involvement of international organisations. This volume will be of great interest to students and scholars of climate change and public health. It will also be a valuable resource for policymakers from around the world to learn from best practices and thus improve the health adaptation work in their own countries.

Pioneering Cartoonists of Color Tim

Jackson, 2016-04-21 Syndicated cartoonist and illustrator Tim Jackson offers an unprecedented look at the rich yet largely untold story of African American cartoon artists. This book provides a historical record of the men and women who created seventy-plus comic strips, many editorial cartoons, and illustrations for articles. The volume covers the mid-1880s, the early years of the self-proclaimed black press, to 1968, when African American cartoon artists were accepted in the so-called mainstream. When the cartoon world was preparing to celebrate the one hundredth anniversary of the American comic strip, Jackson anticipated that books and articles published upon the anniversary would either exclude African American artists or feature only the three whose work appeared in mainstream newspapers after Dr. Martin Luther King Jr.'s assassination in 1968. Jackson was determined to make it impossible for critics and scholars to plead an ignorance of black cartoonists or to claim that there is no information on them. He began in 1997 cataloging biographies of African American cartoonists, illustrators, and graphic

designers, and showing samples of their work. His research involved searching historic newspapers and magazines as well as books and "Who's Who" directories. This project strives not only to record the contributions of African American artists, but also to place them in full historical context. Revealed chronologically, these cartoons offer an invaluable perspective on American history of the black community during pivotal moments, including the Great Migration, race riots, the Great Depression, and both World Wars. Many of the greatest creators have already died, so Jackson recognizes the stakes in remembering them before this hidden yet vivid history is irretrievably lost.

The Diachronic Typology of Non-Canonical Subjects Ilja A. Serzant, Leonid Kulikov, 2013-11-15
This volume is an important contribution to the diachrony of non-canonical subjects in a typological perspective. The questions addressed concern the internal mechanisms and triggers for various changes that non-canonical subjects undergo, ranging from semantic motivations to purely structural explanations. The discussion encompasses the whole life-cycle of non-canonical subjects: from their emergence out of non-subject

arguments to their expansion, demise or canonicization, focusing primarily on syntactic changes and changes in case-marking. The volume offers a number of different case studies comprising such languages as Italian, Spanish, Old Norse and Russian as well as languages less studied in this context, such as Latin, Classical Armenian, Baltic languages and some East Caucasian languages. Typological generalizations in the form of recurrent developmental paths are offered on the basis of data presented in this volume and in the literature.

Morphology and Syntax of Old Hindi Jaroslav
Strnad,2013-07-15 Morphology and Syntax of Old
Hindi offers a commented edition of one hundred
poems of medieval mystic and thinker Kabīr, a
detailed treatment of morphological structure of
the language and its main syntactic features,
numerous textual examples, and a glossary.

The Syntax of Silence Jason Merchant,2001 A
primary goal of contemporary theoretical
linguistics is to develop a theory of the
correspondence between sound (or gesture) and
meaning. This sound-meaning correspondence breaks
down completely in the case of ellipsis, and yet
various forms of ellipsis are pervasive in natural
language: words and phrases which should be in the
linguistic signal go missing. How this should be
possible is the focus of Jason Merchant's
investigation. He focuses on the form of ellipsis
known as sluicing, a common feature of
interrogative clauses, such as in 'Sally's out

hunting - guess what!'; and 'Someone called, but I can't tell you who'. It is the most frequently found cross-linguistic form of ellipsis. Dr Merchant studies the phenomenon across twenty-four languages, and attempts to explain it in linguistic and behavioural terms.

Philosophy of Life Kanta Arora, 2019-06-21 About the Book This volume illustrates, compares and discusses as to how Guru Nānak with his transcendental exposition, sharp skill, argumentative capability and common poetic language further enriched, explained, simplified, modernized and expressed various theological and philosophical concepts elucidated in Upaniṣads for the understanding and adaptation of a common man. Upaniṣads are “breath of eternal” and hymns of Guru Nānak are “a divine song of life”. Guru Nānak’s exuberance of love and search for God and godly people was not confined to any religion or religious institution. He revolted against the ritualistic mind of a brāhmaṇa. He was essentially a man of God whose love and quest for search for the Ultimate Truth knew no limits. In the pursuit of this search he enjoyed a reach to the state of void meaning a state where there is no distinction between the object and the subject - the knower and the known. He was a protagonist of Bhakti tradition and stressed more on bhakti or devotion to God. He taught the Sahaja-Patha or Sūrata Śabada Yoga that easily takes one straight to the Lord by spontaneous concentration of mind. Both hymns of Guru Nānak and Upaniṣads explain that the real aim of human life is to attain liberation from the repeated coming and going in incarnations, which can be attained by adequate karma, knowledge and disciplined meditation. About the Author Born in a small town of Chamkaur Sahib, Kanta Arora, MA, LLB, PhD, spent her childhood within the premises of Ghari, where Sri Guru Gobind Singh had sacrificed his two sons. This had

left a profound influence of Guru Nānak's teaching on her. Having done graduation and post-graduation from the Punjab University, she joined Govt of India and held various positions in Finance and Accounts Dept of different ministries. After superannuation, she became a regular student of theology and made a comparative study of religions and consciousness studies and got her PhD for the thesis "Philosophy of Life: A Study in the Light of Bani (Hymns) of Guru Nanak and Upanishads" from the Department of Sanskrit of Dayalbagh Educational Institute (Deemed University). She has participated in many national seminars, and international conferences organized by the Center for Conscious Studies, University of Arizona, USA.

A Political History of Literature Pankaj Jha, 2018-11-20 Multilinguality gained a new impetus in North India with the influx of West Asian Muslim communities around the thirteenth century. Over a period of time, it entered everyday life as well as creative and scholarly pursuits. The fifteenth century, in particular, saw unprecedented vitality for literary practice, and the poet-scholar Vidyapati from Mithila was one of the many luminaries of the time. This volume encompasses an intimate linguistic, literary, and historical study of three of Vidyapati's major works: a Sanskrit treatise on writing (Likhanaṅgalī); a celebratory biography in Apabhraṃśa (Kīrttilatā); and a collection of mythohistorical tales in Sanskrit (Puruṣaparīkṣā). Through this examination, the author reveals a world that is marked by a range of ideas, expertise, literary tropes, ethical regimes, and historical consciousness, drawn eclectically from sources that belong to 'diverse' politico-cultural traditions. Using Vidyapati's narratives, *A Political History of Literature* illustrates that many ideals extolled in fifteenth century literary cultures were associated with an imperial state—a

state that was a century away from coming into being—and testifies that ideas incubate and get actualized in realpolitik only in the long duration.
