Sense and Goodness Without God Richard Carrier, 2005-02-23 If God does not exist, then what does? Is there good and evil, and should we care? How do we know what's true anyway? And can we make any sense of this universe, or our own lives? Sense and Goodness answers all these questions in lavish detail, without complex jargon. A complete worldview is presented and defended, covering every subject from knowledge to art, from metaphysics to morality, from theology to politics. Topics include free will, the nature of the universe, the meaning of life, and much more, arguing from scientific evidence that there is only a physical, natural world without gods or spirits, but that we can still live a life of love, meaning, and joy.

The Book of Ratings L. Fitzgerald Sjoberg, 2002 Are you harshly judgmental? Yes! Do you walk around snidely rating everything in your path? Of course you do! You can't help it-it's just too easy and too much fun to rate everything from your coworkers and dates to restaurants and supermodels. The Book of Ratings, which grades and compares everyday items in its own unique way, is the ultimate catalog of the most mundane and most hilarious rankings around. For instance: Have you ever considered marsupials?Koalas: Koala bears eat only one thing, day in and day out. Koalas look cuddly, but they're actually irritable, solitary beasts who do not want belly rubs. What kind of mocking god created creatures with poofy ears and big black noses that don't want belly rubs? BOpossums: North America gets one lousy marsupial, and let's just say it's not going to win any beauty contests. Or even not-ugly contests. C-Wombats: Wombat is a great name. It's got a wom and a bat, and an omba. They're kind of nondescript animals, cute in a generic pudgy mammal way, but their name spelled backward is tabmow, and that makes all the difference. A

Women and Ghosts Alison Lurie,2012-10-17 The author of The War Between the Tates and the Pulitzer prize-winning Foreign Affairs now brings her irresistible wit to the ghost story. In nine spooky tales, Alison Lurie writes of women haunted by ghosts both literal and metaphorical: A woman about to marry Mr. Right is visited by the spirit of his first wife; a dead fiancé haunts a foreign service officer every time she has an intimate moment with another man; the ghost of a girl in a Halloween costume disconcerts the perfect housewife. A secretary on a diet begins to see obese people everywhere she looks; a self-conscious poet is shadowed by her intrusive doppelganger; and a capricious, malevolent spirit seems to have inhabited an acquisitive matron's prized piece of furniture. Delightfully strange and beautifully told, these nine tales show Alison Lurie at her luminous best.
