Taking Fire Kevin O'Rourke, Joe Peters, 2013-09-28 This gripping chronicle of an aerial rescue during the Vietnam War offers a vivid example of the heroism of US Air Force pararescue

jumpers. In June of 1972, Capt. Lynn Aikman was returning from a bombing mission over North Vietnam when his F-4 Phantom was shot down. He and his backseater Tom Hanton ejected from their aircraft, but Hanton landed near a village and was quickly captured. Badly injured during the ejection, Aikman landed some distance from the village, making it possible for an American aerial rescue team to reach him before the enemy. Drifting in and out of consciousness, Aikman saw his guardian angel in the sky: USAF Pararescue Jumper Chuck McGrath. But as Sgt. McGrath prepared to hook the Aikman to a hoist line, hostile fire on the rescue helicopter damaged the hoist mechanism. As A-1 Skyraiders kept an enemy militia away from Aikman and McGrath, the helicopter crew scrambled to come up with a plan. More than a chronicle of the events of June 27, 1972, *Taking Fire* provides an up-close look at the little-known world of the US Air Force's elite aerial rescue force.

Perfectly Wounded Mike Day, 2020-06-09 The incredible true story of former Navy SEAL Mike Day, who survived being shot twenty-seven times while deployed in Iraq. On the night of April 6, 2007, in Iraq's Anbar Province, Senior Chief Mike Day, his team of Navy SEALs, and a group of Iraqi scouts were on the hunt for a

high-level al Qaeda cell. Day was the first to enter a 12x12 room where four terrorist leaders were waiting in ambush. When the gunfight was over, he took out all four terrorists in the room, but not before being shot twenty-seven times and hit with grenade shrapnel. Miraculously, Day cleared the rest of the house and rescued six women and children before walking out on his own to an awaiting helicopter, which flew him to safety. While in the hospital, the Navy SEAL lost fifty-five pounds in two weeks. It took almost two years for Day to physically recover from his injuries, although he still deals with pain. Like so many veterans, doctors diagnosed Day with Post Traumatic Stress Disorder and Traumatic Brain Injury -- the invisible wounds of war. *Perfectly Wounded* is the remarkable story of an American hero whose incredible survival defies explanation, and whose blessed life of service continues in the face of unimaginable odds.

Mini Weapons of Mass Destruction: Build a Secret Agent Arsenal John Austin,2011-10-01 If you're a budding spy, what better way to conceal your clandestine activities than to miniaturize your secret agent arsenal? MiniWeapons of Mass Destruction 2 provides fully illustrated step-by-step instructions for building 30 different spy weapons and surveillance tools, including: * Paper Dart Watch * Pen Blowgun * Rubber Band Derringer * Mint Tin Catapult * Pushpin Dart * Cotton Swab .38 Special * Toothpaste Periscope * Paper Throwing Star * Bionic Ear * And more! Once you've assembled your weaponry, the author provides a number of ideas on how to hide your stash—inside a deck of cards, a false-bottom soda bottle, or a cereal box briefcase—and targets for practicing your spycraft, including a flip-down firing range, a fake security camera, and sharks with laser beams.

The Boys of Milo Michael Williams,2021-08-05 Kids that grew up in the small southern Iowa town of Milo truly had a walk in the park during their childhood. There was so much to enjoy during those tender years as Little Leaguers, Boy Scouts, high school

athletes, or members of the school band. Hunting and fishing with friends occupied nearly every weekend and filled those treasured moments with unforgettable memories. That all changed when America became involved in the Vietnam War, and the boys of Milo were called to join the military. Soon to be lost would be the innocence of their youth. From 1960 to 1975, nearly two-thirds of the young men from this tightly knit community departed their tranquil town and became soldiers. Many served overseas to include Southeast Asia. Some did not return home. Many came back with visible battle scars and Purple Hearts pinned on their chest. Many returned with hidden wounds, buried deep within their soul that haunted them for years. The Boys of Milo is a true account of the events that impacted these young men on their journey to far-flung parts of the United States and the world during an exceedingly difficult time in American history. Some of their stories are humorous, others are so gripping they defy believability. All, however, are true accounts as now told by old men. Their stories allow those who knew them to remember and for all to understand them. Consider what God has done: Who can straighten what he has made crooked? When times are good, be happy: but when times are bad, consider God has made the one

as well as the other. Therefore, a man cannot discover anything about his future. — Ecclesiastes 7:13–15

Weapons and Warfare [2 volumes] Spencer C.

Tucker,2020-03-26 This work covers major weapons throughout human history, beginning with clubs and maces; through crossbows, swords, and gunpowder; up to the hypersonic railgun, lasers, and robotic weapons under development today. Weapons and Warfare is designed to provide students with a comprehensive and highly informative overview of weapons and their impact on the course of human history. In addition to providing basic factual information, this encyclopedia will delve into the greater historical context and significance of each weapon. The chronological organization by time period will enable readers to fully understand the evolution of weapons throughout history. The work begins with a foreword by a top scholar and a detailed introductory essay by the editor that provides an illuminating historical overview of weapons. It then offers entries on more than 650 individual weapons systems. Each entry has sources for further reading. The weapons are presented alphabetically within six time periods, ranging from the prehistoric and ancient periods to the contemporary period. Each period has its own introduction that

treats the major trends occurring in that era. In addition, 50 sidebars offer fascinating facts on various weapons. Numerous illustrations throughout the text are also included.

Low Level Hell Hugh L. Mills, Jr., 2009-01-16 The aeroscouts of the 1st Infantry Division had three words emblazoned on their unit patch: Low Level Hell. It was then and continues today as the perfect concise definition of what these intrepid aviators experienced as they ranged the skies of Vietnam from the Cambodian border to the Iron Triangle. The Outcasts, as they were known, flew low and slow, aerial eyes of the division in search of the enemy. Too often for longevity’s sake they found the Viet Cong and the fight was on. These young pilots (19-22 years old) “invented” the book as they went along. Praise for *Low Level Hell* “An absolutely splendid and engrossing book. The most compelling part is the accounts of his many air-to-ground engagements. There were moments when I literally held my breath.”—Dr. Charles H. Cureton, Chief Historian, U.S. Army Training and Doctrine (TRADOC) Command “Low Level Hell is the best ‘bird’s eye view’

of the helicopter war in Vietnam in print today. No volume better describes the feelings from the cockpit. Mills has captured the realities of a select group of aviators who shot craps with death on every mission.”—R.S. Maxham, Director, U.S. Army Aviation Museum

Tweet and the Dragonfly the Story of the Cessna A-37 and T-37 Kev Darling, 2005 When a long serving trainer becomes one of the most potent warplanes of its size. The Cessna T-37 is only just leaving USAF service while its more warlike sibling enjoys continued usage in Latin America, as a Warbird having first made its name in Vietnam.

Words of the Vietnam War Gregory R. Clark, 1990 Cu Chi, (body bag), Shit-hook (Chinook helicopter), dink (Vietnamese slang for a G.I.), slope (G.I. slang for a Vietnamese), hose (kill), boom-boom (what's done in a tapioca mill, or whorehouse), Mike-Juliet (marijuana), pogeys, bait, DO-28, C-2A, L Zed (Aussie for landing zone), rat-turds (oak leaf clusters), thousand yard stare, Samozaryadnyi karabin (Soviet rifle), guerre a outrance (French war to the end--the viewpoint of the North): these and the 10,000 others in this dictionary are the words of the Vietnam era. They were spoken by ground pounders in the boonies and by peaceniks

on U.S. campuses, by hawks, doves, Victor Charlies and hoi chanh, Chinese advisors and the Muong people of the Central Highlands. The period covered is primarily 1963-1975, but there are terms included from as early as 1945 and as late as 1987.

Weapon of Choice United States Department of Defense, Combat Studies Institute, 2023-12-14 **Weapon of Choice** presents a history of the U.S. Army special operations forces in Afghanistan from 11 September 2001 to 15 May 2002, during America's global war on terrorism. The purpose of the book is not to resolve Army special operations doctrinal issues, to clarify or update military definitions, or to be the definitive history of the continuing unconventional war in Afghanistan. The purpose is to demonstrate how the war to drive the Taliban from power, help Afghan people, and assist the Afghan Interim Authority (AIA) rebuild the country afterward was successfully accomplished by majors, captains, warrant officers, and sergeants on tactical teams and aircrews at the lowest levels. Anti-personnel Weapons Sipri,2021-01-27 This book, first published in 1978, analyses the development, uses and effects of conventional anti-personnel weapons such as rifles and machine guns, grenades, bombs, shells and mines. It provides the historical, military, technical and clinical background to the international legal discussions as part of the ongoing efforts to prohibit or restrict the uses of some of the more inhumane and indiscriminate of these weapons, the most successful being the 1997 Ottawa Treaty that banned the use of anti-personnel mines.

Ho Chi Minh Trail 1964–73 Peter E. Davies, 2020-09-17 The Trails War formed a major part of the so-called 'secret war' in South East Asia, yet for complex political reasons, including the involvement of the CIA, it received far less coverage than campaigns like Rolling Thunder and Linebacker. Nevertheless, the campaign had a profound effect on the outcome of the war and on its perception in the USA. In the north, the Barrel Roll campaign was often operated by daring pilots flying obsolete aircraft, as in the early years, US forces were still flying antiquated piston-engined T-28 and A-26A aircraft. The campaign gave rise to countless heroic deeds by pilots like the Raven forward air controllers, operating from primitive airstrips in close contact with fierce enemy forces. USAF rescue services carried out extremely hazardous missions to recover aircrew who would otherwise have been swiftly executed by Pathet Lao forces, and reconnaissance pilots routinely risked their lives in solo, low-level mission over hostile territory. Further south, the Steel Tiger campaign was less covert. Arc Light B-52 strikes were flown frequently, and the fearsome AC-130 was introduced to cut the trails. At the same time, many thousands of North Vietnamese troops and civilians repeatedly made the long, arduous journey along the trail in trucks

or, more often, pushing French bicycles laden with ammunition and rice. Under constant threat of air attack and enduring heavy losses, they devised extremely ingenious means of survival. The campaign to cut the trails endured for the entire Vietnam War but nothing more than partial success could ever be achieved by the USA. This illustrated title explores the fascinating history of this campaign, analysing the forces involved and explaining why the USA could never truly conquer the Ho Chi Minh trail.
