Then, on October 15, Karl

simply disappears. Where has he gone? (Police are searching for him) But Karl is far away from chilly Stockholm, in Farawayland, where he has found his father, who is none other than the king of that land. And now Karl faces a truly dangerous mission. Prophecies have foretold his coming for thousands of years. He, his new best friend Pompoo, and Miramis, his wonderful flying horse with a golden mane, must travel together into the darkness of Outer Land to do battle with Sir Kato, the cruel abductor of the children of Farawayland. Only a child of the royal blood can stop him...

Regulation of Sertoli Cell and Germ Cell Differentiation R. Brehm,Klaus Steger,2005-12-12 Unwanted childlessness affects approximately one in six couples worldwide. - though the exact proportion of the predominant cause of the problem remains controversial, according to the World Health Organization (WHO), in nearly 40% of cases the cause can be attributed to the female, in 20% to the male, in 25% to both, and in 15% the cause remains unknown. Based on these ?gures, the - cidence of male factor infertility in the general population is approximately 7%. The majority of these men, approximately 30%, experience irreversible idiopathic infertility and cannot father children without some form of medical intervention. Male factor infertility, in addition, may be caused by testicular germ cell cancer, which is known to represent the most common cancer among young men, aged 15 to 35 years, in Western industrialized countries. The number of affected men has increased dramatically over the past 50 years. There is now growing evidence that human testicular germ cell cancer originates from fetal germ cells exhibiting an aberrant programme of gene expression, and tumour progression may be favoured by an aberrant Sertoli cell-germ cell communication.
