Sustainable Tools for Precarious Times Natalie Alvarez, Claudette Lauzon, Keren Zaiantz, 2019-10-25 This collection promises to be a cornerstone in the field of performance studies and human rights activism. By mixing scholarly chapters with artists' manifestos or "interruptions" it promotes the idea of the collective work between academia and social movements. Not only is it very timely, theoretically savvy, and well written, it also brings together scholars, activists, artists, and activists in a very fluid, collective approach, something many of us strive to do." - Paola S. Hernández, University of Wisconsin, USA This book charts the changing frontiers of activism in the Americas. Travelling Canada, the US, the US-Mexico border, Chile, Argentina, Brazil, Cuba, Colombia, and Indigenous territories on Turtle Island, it invites readers to identify networks, clusters, and continuities of art-activist tactics designed to exceed the event horizon of the performance protest. Essays feature Indigenous artists engaging in land-based activism and decolonial cyberactivism, grass-roots movements imagining possible futures through cross-sector alliance building, art-activists forwarding tactics of reinvention, and student groups in the throes of theatrical assembly. Artist pages, interspersed throughout the collection, serve as animated, first-person perspectives of those working on the front lines of interventionist art. Taken together, the contributions offer a vibrant picture of emergent tactics and strategies over the past decade that allow art-activists to sustain the energy and press of political resistance in the face of a whole host of rights emergencies across the Americas. The material in this book derives from decades of work by the author and his students. Dominguez offers the reader practical techniques for increasing psychic aptitude and ability. Methods featured include chanting and working with crystals, chakras, oils, herbs, and potions, as well as a variation on the Middle-Pillar Ritual. Buy all of Ivo Dominguez's books. Study them. Do the work. Ponder. Then return and study them some more. --T. Thorn Coyle, author of Kissing the Limitless: Deep Magic and the Great Work of Transforming Yourself and the World. Keys to Perception is another masterful work by Ivo Dominguez, artfully blending deep metaphysical insight into the nature of psychic perception with clear and direct instructions and examples. Take a Closer Look Daniel Arasse, 2013-09-08 What painting can teach us—if we can really learn to see them What happens when we look at a painting? What do we think about? What do we imagine? How can we explain, even to ourselves, what we see or think we see? And how can art historians interpret with any seriousness what they observe? In six engaging, short narrative fictions, each richly illustrated in color, Daniel Arasse, one of the most brilliant art historians of our time, cleverly and gracefully guides readers through a variety of adventures in seeing, from Velázquez to Titian, Bruegel to Tintoretto. By demonstrating that we don't really see what these paintings are trying to show us, Arasse makes it clear that we need to take a closer look. In chapters that each have a different form, including a letter, an interview, and an animated conversation with a colleague, the book explores how these pictures teach us about ways of seeing across the centuries. In the process, Arasse freshly lays bare the dazzling power of painting. Fast-paced and full of humor as well as insight, this is a book for anyone who cares about really looking at, seeing, and understanding paintings.

Art for a New Understanding Mindy N. Besaw, Candice Hopkins, Manuela Well-Off-Man, 2018-10-01 Art for a New Understanding, an exhibition from Crystal Bridges Museum of American Art that opened in October 2018, seeks to radically expand and reposition the narrative of American art since 1950 by charting a history of the development of contemporary Indigenous art from the United States and Canada, beginning when artists moved from more regionally-based conversations and practices to national and international contemporary art contexts. This fully illustrated volume includes essays by art historians and historians and reflections by the artists included in the collection. Also included are key contemporary writings—from the 1950s onward—by artists, scholars, and critics, investigating the themes of transculturalism and pan-Indian identity, traditional practices conducted in radically new ways, displacement, forced migration, shadow histories, the role of personal mythologies as a means to reimagine the future, and much more. As both a survey of the development of Indigenous art from the 1950s to the present and a consideration of Native artists within contemporary art more broadly, Art for a New Understanding expands the definition of American art and sets the tone for future considerations of the subject. It is an essential publication for any institution or individual with an interest in contemporary Native American art, and an invaluable resource in ongoing scholarly considerations of the American contemporary art landscape at large.
