Mitsubishi Type 1 Rikko 'Betty' Units of World War 2 Osamu Tagaya,2013-01-20 The most produced Japanese bomber of the war the G4M saw action on every front from the first day of the Pacific conflict through to VJ-Day. The 'Betty's' very long range made it a key weapon during the opening year of the war. However, to achieve this, the aircraft was built with very little protective armour for its crew or fuel tanks, and Allied pilots soon exposed its extreme vulnerability. In the first in a series of volumes examining the key Japanese aircraft of WW2, Dr Osamu Tagaya details the G4M's extensive combat history, and lists all the units which operated the bomber.

The History of Mitsubishi Corporation in London Pernille Rudlin,2014-03-18 The History of Mitsubishi Corporation in London examines the culture clashes, the friendships and the changing businesses that Mitsubishi Corporation's London branch oversaw in the eighty-five years following its foundation. It examines the paradox of how Mitsubishi Corporation could operate internationally for nearly a century, and still remain resolutely Japanese. With the slowdown in Japanese economic growth however, this book asks

whether the corporation needs to change its mission, as well as controversially questioning whether information technology is in fact a barrier to, rather than a driving force for, successful globalization. As a long-term employee of Mitsubishi both in Tokyo and London, Pernille Rudlin has a unique perspective on the world of Japanese corporate culture in Britain. No other corporate history has examined a Japanese subsidiary in such detail, including interviews with more than thirty employees past and present.

Mitsubishi and the N.Y.K., 1870–1914 William D. Wray, 2020-03-31 William D. Wray presents an in-depth analysis of the origins and institutional growth prior to World War I of Mitsubishi, today Japan's largest industrial group, and the Nippon Yusen Kaisha (NYK), now the world's leading shipping enterprise. The study, however, is much more than a history of two companies. It provides extensive analysis of decision-making in the Meiji government, the finances of the Imperial House, trading strategies, international commercial diplomacy, and the shipping industry's response to war.
