The Black Lizard Big Book of Black Mask Stories Otto Penzler,2012-05-09 An unstoppable anthology of crime stories culled from Black Mask magazine the legendary publication that turned a pulp phenomenon into literary mainstream. Black Mask was the apotheosis of noir. It was the magazine where the first hardboiled detective story, which was written by Carroll John Daly appeared. It was the slum in which such American literary titans like Dashiell Hammett and Raymond Chandler got their start, and it was the home of stories with titles like "Murder Is Bad Luck," "Ten Carets of Lead," and "Drop Dead Twice." Collected here is best of the best, the hardest of the hardboiled, and the darkest of the dark of America's finest crime fiction. This masterpiece collection represents a high watermark of America's underbelly. Crime writing gets no better than this. Featuring • Deadly Diamonds • Dancing Rats • A Prize Fighter Fighting for His Life • A Parrot that Wouldn't Talk Including • Dashiell Hammett's The Maltese Falcon as it was originally published • Lester Dent's Luck in print for the first time

Anime's Identity Stevie Suan,2021-11-09 A formal approach to anime rethinks globalization and transnationality under neoliberalism Anime has become synonymous with Japanese culture, but its global reach raises a perplexing question—what happens when anime is produced outside of Japan? Who actually makes anime, and how can this help us rethink notions of cultural production? In *Anime's Identity*, Stevie Suan examines how anime's recognizable media-form—no matter where it is produced—reflects the problematics of globalization. The result is an incisive look at not only anime but also the tensions of transnationality. Far from valorizing the individualistic

"originality" so often touted in national creative industries, anime reveals an alternate type of creativity based in repetition and variation. In exploring this alternative creativity and its accompanying aesthetics, Suan examines anime from fresh angles, including considerations of how anime operates like a brand of media, the intricacies of anime production occurring across national borders, inquiries into the selfhood involved in anime's character acting, and analyses of various anime works that present differing modes of transnationality. *Anime's Identity* deftly merges theories from media studies and performance studies, introducing innovative formal concepts that connect anime to questions of dislocation on a global scale, creating a transformative new lens for analyzing popular media.
