*European Competition Law Annual 2013* Philip Lowe,Mel Marquis,Giorgio Monti,2016-04-21 This volume contains papers presented at the 18th Annual EU Competition Law and Policy Workshop. The papers examine means of balancing effective (public) competition law enforcement and the requirements of legitimate and accountable exercise of public authority. The authors address the design and performance of various enforcement tools at European and national levels, including sanctions and remedies but also distinctive instruments under Regulation 1/2003 (eg commitment procedures) and under the Treaty on the Functioning of the European Union (Article 106(3) when used as a basis for infringement procedures). From the perspective of legitimacy, reflections focus on the implications of fundamental rights standards and general principles of law for the EU's complex and quasi-federal enforcement architecture. Issues that may sometimes escape judicial scrutiny are also discussed, such as how agencies prioritise their activities, and how investigation responsibilities are distributed within the European Competition Network. Effectiveness and legitimacy are then considered in the context of public enforcement cooperation beyond the EU, where international organisations, regional cooperation and a range of formal and informal modes of governance prevail.

**The Syntax and Semantics of a Determiner System** Diana Guillemin,2011 Within the framework of Chomsky's Minimalism and Formal Semantics, this work documents the development of the Mauritian Creole (MC) determiner system from the mid 18th century to the present. Guillemin proposes that the loss of the French quantificational determiners, which agglutinated to nouns, resulted in the occurrence of bare nouns in argument positions. This triggered a shift in noun denotation, from predicative in French to argumental in MC, and accounts for the very different determiner systems of the creole and its lexifier. MC nouns are lexically stored as Kind denoting terms, that share some of the distributional properties of English bare plurals. New MC determiners are analyzed as 'type shifting operators' that shift Kinds into predicates, and serve to establish the referential properties of noun phrases. The analysis provides evidence for the universality of semantic features like Definiteness and Specificity, and the mapping of their form and function.

**Fe-Lines** Norman R Shapiro,2015-09-30 The French have long had a love affair with the cat, expressed through centuries of poetry portraying the animal's wit and wonder. Norman R. Shapiro lionizes the felines' limitless allure in this one-of-a-kind collection. Spanning centuries and styles, he draws on she-cats and toms, and an honor roll of French poets, well known and lesser known, who have served as their devoted champions. He reveals the remarkable range of French cat poems, with most works presented here for the first time in English translation. Scrupulously devoted to evoking the meaning and music of the originals, Shapiro also respects the works' formal structures. Pairing his translations with Olga Pastuchiv's elegant illustrations, Fe-Lines guides the reader through the marvels and inscrutabilities of the Mystique féline .

The Cat Inside William S. Burroughs,2002-01-29 Best known for the wild, phantasmagoric satire of works like Naked Lunch, William S. Burroughs reveals another, gentler side in The Cat Inside. Originally published as a limited-edition volume, this moving and witty discourse on cats combines deadpan routines and dream passages with a heartwarming account of Burroughs's unexpected friendships with the many cats he has known. It is also a meditation on the long, mysterious relationship

between cats and their human hosts, which Burroughs traces back to the Egyptian cult of the animal other. With its street sense and whiplash prose, The Cat Inside is a genuine revelation for Burroughs fans and cat lovers alike.

**Dr. Webster's complete dictionary of the English language** Noah Webster,1864  
Dictionary of Louisiana French Albert Valdman, Kevin James Rottet, 2010 The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .
