- 📖 **Star Trek: The Next Generation: Planet X**Michael Jan Friedman,1998-05-01 When the men and women of the Planet Xanthos begin mutating into bizarre beings with extraordinary powers, the Enterprise is dispatched to cope with the ensuing crisis and receives unexpected visitors--the X-Men.
- 📖 **Planet X and the Coming of the Guardians** Commander X,X (Commander),2003-07 Will the Guardians save our civilisation as Planet X approaches? As an unknown foreign body -- massive in size gets ready to approach Earth (or even strike it!), there has been an unprecedented rise in UFO activity worldwide. Recently, the pilot of a commercial plane had a near collision with a huge UFO over Turkey. But, it turned out the UFO had plans all its own: it didn't hit the plane, but instead 'attacked' and blew up several very large meteorites as they entered the Earth's atmosphere. It's entirely possible this debris would have caused considerable damage if the UFO had missed its designated target and the space junk struck a nearby town. This new work by Commander X asks numerous questions: will UFO-nauts known as the Guardians -- or the Niphilim in ancient texts -- avert a global disaster and save us from Planet X at the last moment? What is the actual evidence that Planet X really exists? Is there a connection between the approach of Planet X and the mysterious death of several scientists and astronomers known to be investigating the forthcoming holocaust? Are there certain 'signs' in the heavens we can look for to tell when Planet X is due to pass us by -- or collide with Earth? This work is for everyone who wants to know the truth about this global disaster that could be far worse than any terrorist attack.

As the Annunaki begin to invade and decimate the Earth's resources, Adams parents confess that they are not his biological parents, but instead are appointed Guardians who have been instructed to watch over and protect him from the Annunaki people, who want nothing more than to destroy him. Minutes later, his parents are deadthe victims of a vicious attack on his home. With the help of a mysterious and eccentric old man named Mentor, Adam is soon propelled into a mythical adventure where his mission is to uncover the origins of the universe and a race of beings called Eternals. - 📖 **Hosting the Monster**,2008-01-01 Hosting the Monster responds to the call of the monstrous with, not rejection, but invitation. Positing the monster as that which defies classification, the essays in this collection are an ongoing engagement with that which lies outside of established boundaries. With chapters ranging from the monstrous mother or the deformed child to subjectivity in transition, this volume is not only of interest to film and gender scholars and literary and cultural theorists but also students of popular culture or horror. Its wide appeal stems from its invitation both to entertain the monster and to widen the call to and the listening for the monsters that have not yet, and perhaps must not yet, come calling back. This sense of hospitality and non-hostility is one guiding principle of this collection, suggesting that the ability to survey and research the otherwise may reveal more about the subjectivity of the self through the wisdom of the other, however monstrous the manifestation.
