**Exodus** Alex Lamb, 2017-05-18 The Photurians - a hivemind of sentient AIs and machines - were awakened by humanity as part of a complex political trap. But they broke free, evolved, and now the human race is almost finished. Once we spanned dozens of star systems; now only four remain, and Earth is being evacuated. But the Photes can infect us, and among the thousands rescued from our home world may be enemy agents. Tiny colonies struggle to house the displaced. Our warships are failing. The end of humanity has come. But on a distant planet shielded from both humanity and the Photurians, one hope may still live. The only person who might be able to intervene. The roboteer. He is trapped in a hell of his own making, and does not know he is needed. And so a desperate rescue mission is begun. But can he be reached in time? Or will he be the last remnant of humanity in the universe?

**100 Wordsearch Puzzles** James Oldfield, 2024-03-05 Wordsearch is a game that is designed to improve your English vocabulary and spelling, while also having a little bit of fun. The puzzle is made up of a grid that is full of what seems to be random letters, and a list of words below. The words in the list are hidden in the grid and your job is to find them. They can be spelt from left to right, right to left, diagonally or vertically. The puzzle is finished when you have found all the hidden words. Don't worry if you get stuck, the solutions are in the second half of the book. Do a puzzle a day and watch your vocabulary grow and spelling improve as you hunt down the hidden words. There will be some words you won't know, write them down by hand and use the Oxford English Online Dictionary (it's free to use) to find out the meanings of those new words. It's all about making English fun!
