The Undying Monster Jessie Douglas Kerruish, 2021-03-02 *The Undying Monster* (1922) is a horror novel by Jessie Douglas Kerruish. Recognized as a groundbreaking work of lycanthropy, or werewolf fiction, *The Undying Monster* was adapted into a successful 1942 horror film starring James Ellison, Heather Angel, and John Howard. Haunted for generations, the Hammand family has grown accustomed to tragedy. Early deaths, suicides, and gruesome injuries plague their family tree, and they have long been regarded as pariahs in their rural English community. When Oliver Hammand survives a vicious attack while walking in the woods one night, his sister Swanhild resolves to put an end to the ancient curse. Seeking the guidance of Luna Bartendale, a powerful psychic, Swanhild convinces her brother to join her on a journey of discovery and danger to not only free their family from its dreadful cycle, but to save their own young lives. Together with Luna, they scour ancient archives, investigate ruined graveyards, and search for whatever clues they can find.

As they delve deep into the heart of their family's mystery, Oliver falls deeply in love with Luna. Led to the edge of existence itself, the trio find themselves face to face with a horror too terrible to imagine. The Undying Monster is a masterpiece of werewolf fiction by a largely forgotten writer of popular romance, mystery, and horror novels. With a beautifully designed cover and professionally typeset manuscript, this edition of Jessie Douglas Kerruish's *The Undying Monster* is a classic of English horror fiction reimagined for modern readers.

Dual-process Theories in Social Psychology Shelly Chaiken, Yaacov Trope, 1999-02-19 This informative volume presents the first comprehensive review of research and theory on dual-process models of social information processing. These models distinguish between qualitatively different modes of information processing in making decisions and solving problems (e.g., associative versus rule-based, controlled versus uncontrolled, and affective versus cognitive modes). Leading contributors review the basic assumptions of these approaches and review the ways they have been applied and tested in such areas as attitudes, stereotyping, person perception, memory, and judgment. Also examined are the relationships between different sets of processing modes, the factors that determine their utilization, and how they work in combination to affect responses to social information.

Lake Monster Mysteries Benjamin Radford, Joe Nickell, 2006-05-05 Winner of the 2007 Gray's Lake FCBC Book Award For centuries, eyewitnesses around the world—from America to Africa, Argentina to Scotland—have reported sightings of dark, mysterious creatures in area lakes that surface briefly, only to quickly disappear. While the most famous lake monsters of Loch Ness and Lake Champlain have gained international notoriety, hundreds of lakes around the world are said to shelter these shadowy creatures. *Lake Monster Mysteries* is the first book to examine these widespread mysteries from a scientific perspective. By using exhaustive research and results from firsthand investigations to help separate truth from myth, the authors foster our understanding of what really lurks in the cold, murky depths. Benjamin Radford and Joe Nickell are considered to be among the top lake monster authorities in the world. Here they share unique insights into many of the world's best-known lake monsters. They interview witnesses and local experts and discuss the different types of lake monster sightings, delve into possible explanations for those sightings, and examine hoaxes, evidence claims, and legends surrounding the monsters. The authors have also conducted groundbreaking fieldwork and experiments at the lakes and have examined recent photographic and sonar evidence. Incorporating newly-revealed information and up-to-date developments in the cases they present, professional monster hunters Radford and Nickell plunge into both the cultural histories of these creatures and the scientific inquiries that may hold the key to these mysteries.

B/X Fantasy Roleplay J Alexander Lloyd,

Tarnished Heroes, Charming Villains and Modern Monsters Lynnette Porter, 2014-01-10 The heroes, villains, and monsters portrayed in such popular science fiction television series as *Heroes*, *Lost*, *Battlestar Galactica*, *Caprica*, *Doctor Who*, and *Torchwood*, as well as Joss Whedon's many series, illustrate a shift from traditional, clearly defined characterizations toward much murkier definitions. Traditional heroes give way to "gray" heroes who must become more like the villains or monsters they face if they are going to successfully save society. This book examines the ambiguous heroes and villains, focusing on these characters' different perspectives on morality and their roles within society. Appendices include production details for each series, descriptions and summaries of pivotal episodes, and a list of selected texts for classroom use. Instructors considering this book for use in a course may request an examination copy here.

Paul Blaisdell, Monster Maker Randy Palmer,2015-07-11 Paul Blaisdell was the man behind the monsters in such movies as The She Creature, Invasion of the Saucer Men, Not of This Earth, It! Terror from Beyond Space and many others. Working in primarily low-budget films, Blaisdell was forced to rely on greasepaint, guts and, most importantly, an unbounded imagination for his creations. From his inauspicious beginning through The Ghost of Dragstrip Hollow (1959), the construction of Blaisdell's monsters and the making of the movies in which they appeared are fully detailed here. Blaisdell's work in the early monster magazines of the 1960s is also covered.

Monsters, Makeup & Effects - Volume 3 Heather Wixson,2022-03

The Medium Is the Monster Mark A. McCutcheon,2018-04-21 Technology, a word that emerged historically first to denote the study of any art or technique, has come, in modernity, to describe advanced machines, industrial systems, and media. McCutcheon argues that it is Mary Shelley's 1818 novel Frankenstein that effectively reinvented the meaning of the word for modern English. It was then Marshall McLuhan's media theory and its adaptations in Canadian popular culture that popularized, even globalized, a Frankensteinian sense of technology. The Medium Is the Monster shows how we cannot talk about technology—that human-made monstrosity—today without conjuring Frankenstein, thanks in large part to its Canadian adaptations by pop culture icons such as David Cronenberg, William Gibson, Margaret Atwood, and Deadmau5. In the unexpected connections illustrated by The Medium Is the Monster, McCutcheon brings a fresh approach to studying adaptations, popular culture, and technology.

Monsters, Makeup & Effects - Volume 1 Heather Wixson,2021-07-10 Pennywise. Xenomorphs. Freddy Krueger. Beetlejuice. Jason Voorhees. Most movie fans immediately recognize these creatures and characters, but hardly know much about the artists behind these iconic designs. In *Monsters, Makeup & Effects: Volume 1*, journalist Heather Wixson shines the spotlight on twenty special makeup effects artists, creators and technicians whose work has left us captivated and marveling at their innovation, ingenuity and creativity. Featuring behind-the-scenes photos and extensive interviews, MM&E explores the lives, careers and inspirations behind some the greatest artisans to have ever worked in film and television. MM&E is a celebration of the creative spirit and artistic endeavors of those who have worked tirelessly for decades to create the memorable monsters, creatures and onscreen personas that have terrified us, made us laugh and filled us with a sense of wonder. *Monsters, Makeup & Effects: Volume 1* features comprehensive discussions with: Howard Berger - Ve Neill - Screaming Mad George Thomas Burman- Alec Gillis - Tom Woodruff Jr. Joel Harlow - Matt Rose - David LeRoy Anderson Bari Dreiband- Burman - Doug Drexler - Wayne Toth Lance Anderson - Tony Gardner - Patrick Tatopolous Jim McPherson - Bart Mixon - Gabe Bartalos Paul Jones - Everett Burrell
