Moonstick Eve Bunting,2000-02-16 My father cuts a moon-counting stick that he keeps in our tipi. At the rising of the first moon he makes a notch in it. A new beginning for the young buffalo, he says. And for us. In this beautifully written story by acclaimed author Eve Bunting, a young boy comes of age under the thirteen moons of the Sioux year. With each notch in his father's moon-counting stick, the boy marvels at the world around him, observing the sometimes subtle, sometimes remarkable changes in the seasons and in his own tribe's way of living. With rich and carefully researched paintings by artist John Sandford, Moonstick: The Seasons of the Sioux is a glorious picture book about one boy's journey toward manhood.

Moonstick Eve Bunting,2000-01 A young Dakota Indian boy describes the changes that come both in nature and in the life of his people with each new moon of the Sioux year.

Cassell's Dictionary of Slang Jonathon Green,2005 With its unparalleled coverage of English slang of all types (from 18th-century cant to contemporary gay slang), and its uncluttered editorial apparatus, Cassell's Dictionary of Slang was warmly received when its first edition appeared in 1998. 'Brilliant.' said Mark Lawson on BBC2's The Late Review; 'This is a terrific piece of work - learned, entertaining, funny, stimulating' said Jonathan Meades in The Evening Standard. But now the world's best single-volume dictionary of English slang is about to get even better. Jonathon Green has spent the last seven years on a vast project: to research in depth the English slang vocabulary and to hunt down and record written instances of the use of as many slang words as possible. This has entailed trawling through more than 4000 books - plus song lyrics, TV and movie scripts, and many newspapers and magazines - for relevant material. The research has thrown up some fascinating results

Moon Signs Donna Cunningham,2010-12-08 If you think your astrological fate is sealed by your Sun sign, think again! Your emotions, instincts, intuition, and most private passions are dominated by your Moon sign. In this eye-opening volume, world-famous astrologer and therapist Donna Cunningham unravels the often bewildering effects of lunar influence: a person's potential for intimacy, sense of security, family ties, susceptibility to indulgence in food or drink, career ambition, as well as how men and women respond differently to the same lunar promptings in love and life. Cunningham provides all the information you need to determine your own and others' Moon signs—and analyze their power. Moon Signs also charts the daily, monthly, and yearly courses of the moon, which create those predictable mood swings—our “emotional weather.” The time-honored tradition of astrology has come into its own as a resource for human development and spiritual insight. For astrological novices and veterans alike, Cunningham's invaluable guide will pave the way to a more profound understanding of the uncharted and sometimes dark side of the soul.

The Dog that Lives on the Moon Armando Gonzalez,2022-03-07 Life after death? Where is the Rainbow Bridge? Sugar, a mixed breed Chihuahua/cairn terrier, answers these questions in The Dog That Lives on the Moon. This book is a story of not only her life here on earth but also her spiritual life on the moon. Her earthly life consists of living with two humans and the adventures they shared and also the dogs that were part of her life and her nemesis, Ash Lee and Gypsy, two cats who lived with her at the Del Mar Apartments. She lived in Tucson, Arizona, but traveled to places like Tombstone and Bisbee, Arizona, San Diego, San Francisco, and Mount Saint Helens. After her death, her adventures continue, but with a little more spice. She goes to live on the moon where she meets Cochie; Cutie, an abused dog; Thunder, a fighting dog; Kingston, a Hurricane Katrina casualty; and Skeeter, the oldest dog living on the moon, each with their own stories. One adventure that Skeeter tells her is the landing on the moon by men and what happened. She even meets two important human spirits, Francis and Buddy, who share philosophy with her. A great read for dog and animal lovers, it grips the heart of the reader, and they will never look at their pets the same way.

The Moon on a Stick John A. Shepherd,2017-08-24 Tom Parker the eldest son of a farming family, was followed by younger brother Steve and then by sister Rose. Their father had passed away many years earlier, leaving unfinished business. The family were by now coming to terms with the recent death of their mother. Their university days were now well behind them, as the family is torn apart at the seams by that socialite woman Annabelle, with her airs and graces. Well to do, privately educated, she was never a match for a farmers son. Was it fate, or misfortune, that brought these two together? Gone was the family unity, along with Tom's normal common sense, blown away like pollen on the wind. Ma Grinde the gypsy woman in the village, was with her sorcery and lies the main protagonist in Tom's life. Followed very closely by Max Benning the local Squire. Uncle Charlie on the other hand, well, he was different. Describing his council owned tower block flat as his penthouse suite, stood him in good stead amongst his so called friends and acquaintances. A likable rogue, who was up to just about everything. For him the police did a very good job, but as he would often say, it would be a nice idea if they did it without including him in their enquiries. He was known in the family as the anarchist. Unwelcome because of his drinking habits and mysterious ways. The Parker's were unfortunately responsible for more than one person departing early from this world, or was it the next?

Explorations in Semantic Parallelism James J. Fox,2014-07-28 This collection of eighteen papers explores issues in the study of semantic parallelism — a world-wide tradition in the composition of oral poetry. It is concerned with both comparative issues and the intensive study of a single living poetic tradition of composition in strict canonical parallelism. The papers in the volume were written at intervals from 1971 to 2014 — a period of over forty years. They are a summation of a career-long research effort that continues to take shape. The concluding essay reflects on possible directions for future research.

Journey of the Goddess David Johnson,2007-08-01 At the end of the last Ice Age, on the plains of eastern Colorado, the great beasts that have sustained the people there for generations have disappeared. Already the mammoth and the mastodon have vanished, and now the giant bison are disappearing. Helia, a Spirit Woman of the Grass People, experiences a strange vision as part of her dedication, and now must try to understand what purpose the Great Goddess has in choosing her for a daughter, even as her people struggle for survival against fading resources. With no clear path for them, the fate of her people lies with Helia, daughter of the Goddess.

The Bear Claire Cameron,2014-02-11 A powerful suspense novel narrated by a young girl who must fend for herself and her little brother after a brutal bear attack. While camping with her family on a remote island, five-year-old Anna awakes in the night to the sound of her mother screaming. A rogue black bear, three hundred pounds of fury, is attacking the family's campsite -- and pouncing on her parents as prey. At her dying mother's faint urging, Anna manages to get her brother into the family's canoe and paddle away. But when the canoe runs aground on the edge of the woods, the sister and brother must battle hunger, the elements, and a wilderness alive with danger. Lost and completely alone, they find that their only hope resides in Anna's heartbreaking love for her family, and her struggle to be brave when nothing in her world seems safe anymore. This is a story with a small narrator and a big heart. Cameron gracefully plumbs Anna's young perspective on family, responsibility, and hope, charting both a tragically premature loss of innocence and a startling evolution as Anna reasons through the impossible situations that confront her. Lean and confident, and told in the innocent and honest voice of a five-year-old, The Bear is a transporting tale of loss -- but also a poignant and surprisingly funny adventure about love and the raw instincts that enable us to survive.

The Annotated Build-It-Yourself Science Laboratory Windell Oskay,Raymond Barrett,2015-04-30 Raymond E. Barrett's Build-It-Yourself Science Laboratory is a classic book that took on an audacious task: to show young readers in the 1960s how to build a complete working science lab for chemistry, biology, and physics--and how to perform experiments with those tools. The experiments in this book are fearless and bold by today's standards--any number of the experiments might never be mentioned in a modern book for young readers! Yet, many from previous generations fondly remember how we as a society used to embrace scientific learning. This new version of Barrett's book has been updated for today's world with annotations and updates from Windell Oskay of Evil Mad Scientist Laboratories, including extensive notes about modern safety practices, suggestions on where to find the parts you need, and tips for building upon Barrett's ideas with modern technology. With this book, you'll be ready to take on your own scientific explorations at school, work, or home.
