Mark Jones, Jr.

Moonwalk Michael Jackson, 2009-10-13 In this #1 New York Times bestseller, Michael Jackson tells the story of his life, in his words. In this intimate and often moving personal account of Michael Jackson's public and private life, he recalls a childhood that was both harsh and joyful but always formidable. Michael and his brothers played amateur music shows and seamy Chicago strip joints until Motown's corporate image makers turned the Jackson 5 into worldwide superstars. He talks about the happy prankster days of his youth, traveling with his brothers, and of his sometimes difficult relationships with his family over the years. He speaks candidly about the inspiration behind his music, his mesmerizing dance moves, and the compulsive drive to create that has made him one of the biggest stars in the music business and a legend in his own time. Jackson also shares his personal feelings about some of his most public friends...friends like Diana Ross, Berry Gordy, Quincy Jones, Paul McCartney, Fred Astaire, Marlon Brando, and Katharine Hepburn. He talks openly about the crushing isolation of his fame, of his first love, of his plastic surgery, and of his wholly exceptional career and the often bizarre and unfair rumors that have surrounded it. Illustrated with rare photographs from Jackson family albums and Michael's personal photographic archives, as well as a drawing done by Michael exclusively for this book, *Moonwalk* is a memorable journey to the very heart and soul of a modern musical genius.

The Pessimistic Moonwalker Quentin Lucas, 2018-05-04 \$2999.99 (USD) is the highest price Amazon will allow me to post. I wanted to post a \$1 million price tag because of the phrase: You look like a million bucks. You look like a million bucks is what I feel when I look at this piece of art, when I consider what lay beneath its cover. But the good people of Amazon.com are insistent, thus saving you \$997,000.01 (USD). So, I'd say that, so far, this has been a wildly positive experience for you.

Moonwalker - A Novel Rick Hautala, 2007-09-01 In the potato fields of Dyer, Maine, lumbering, expressionless figures toil in the hot sun. They are relentless in the pursuit of their task, working without pause. As though mindless, they never slow, never stop...and never breathe. The potatoes must be picked. The small-town people of Dyer, happy with the way things are, never question the existence of the tireless workforce. They never discuss the horrid screams that rip through the night or the odd disappearances around town. Nor have they considered why the lights in the funeral parlor blaze like a beacon throughout each night. They simply look the other way? content as cattle. But for Dale Harmon, looking the other way is not an option. As a visitor to Dyer, the freakish events that plague the town are impossible to ignore...and he begins asking questions. Harmon and four others soon come face to face with a gruesome, unstoppable evil sent to consume them all. For the dead are living...and the harvest has begun.

Moonwalker Alan Rowan, 2014-05-15 *Moonwalker* is a unique story, the memoir of a man whose love of Scotland's mountains would override his body-clock and all conventional notions of health and safety. When Alan Rowan finished his shifts as a sub-editor at a national newspaper at midnight, he knew he was too jacked up on deadline adrenaline to attempt sleep. At the same time, he was starting to worry if he would ever complete his ambition to reach the summit of every Munro in Scotland those peaks of over 3000ft. One crazy night, he decided upon a single solution to both problems. He would

begin his ascents in the middle of the night, see the sun rise above the clouds and then come down the mountain just as everyone else was going up. We see Alan's transformation from desk jockey to midnight mountaineer, meet dodgy car salesmen, rabid sheepdogs, charging deer, superstitious Germans and crooked confectioners - all the while seeing the best of Scotland in a unique light. Moonwalker is funny and touching; at once a deeply personal memoir and a riotous travelogue.

The Moon Walker M L Hamilton, 2021-03-29 Breanna Perry had a relatively simple life before the night she almost died. She went to work. Okay, she worked at San Quentin as a psychiatrist. She had a nice apartment. Okay, it was a studio in San Francisco that cost a fortune. She had romance. Okay, she had an ex-husband, and a love interest who gave her conflicting messages. And she had her family. But all that changed when Cormac O'Shea walked into her ICU room and asked her one question: Do you want to live? Since then, Breanna's life has been turned upside. At least Cassius Teran was there for her. Cassius, with his brooding personality and strange abilities; Cassius who stood beside her when Clyde Barrow tried to blow up the BART station. But since her relationship with Derek Thorpe has progressed, Cassius has removed himself from her life. Now Breanna has to face a future knowing that all those she loves are going to die before her. She also has to learn how to control her growing power. Until Lachlan MacGregor enters the picture and paints a future where she could have the power to do ultimate good for humanity. It's a seductive thought, but as Lord Acton said, Power tends to corrupt; but absolute power corrupts absolutely. Can Breanna resist the temptation to change the world?

Medicine Women, Curanderas, and Women Doctors Bobette Perrone, Victoria Krueger, H. Henrietta Stockel, 2012-11-15 The stories of ten women healers form the core

of this provocative journey into cultural healing methods utilized by women. In a truly grass-roots project, the authors take the reader along to listen to the voices of Native American medicine women, Southwest Hispanic curanderas, and women physicians as they describe their healing paths. This book will fascinate anyone interested in the relationship between illness and healing-medical practitioners and historians, patients, anthropologists, feminists, psychologists, psychiatrists, theologians, sociologists, folklorists, and others who seek understanding about our relationship to the forces of both illness and healing.

Michael Jackson in Comics! Ceka,2021-02-16 Well beyond his passing in 2009, Michael Jackson remains one of the most adulated and mysterious stars in the world. Incredible singer, brilliant musician, amazing performer, he was just as talented as he was eccentric, adored as well as reviled with sordid accusations, sadly caught between a stolen childhood and a suffocating star system. Discover in this biography mixing comics and documentary chapters, how the youngest of the Jackson 5 was propelled to the front of the stage and then onto one of the most extraordinary solo careers in music. The next volume in the sellout series featuring the Beatles and the Rolling Stones.

Moonwalker Virendra Shahaney,2016-03-08 On July 20, 1969, two significant events occurred in this world. The first one took place on a distant rock called Moon as Neil Armstrong an American astronaut set his country's flag on it. The second event happened inside the head of a little boy in Bihar, India. He pictured an Indian tricolor on the surface of the moon. Little did he know that his life was about to change forever. Nine-year-old Raghu in Gardhanibagh, Bihar is a curious child. He likes school but he prefers playing around railway tracks. One day he asks his father, If Americans can go to the Moon, why can't we? His father simply tells him stop daydreaming and focus on studies. His brothers and mates in school think he is crazy. This is the start of an extraordinary journey through the corridors of IIT, the DRDL and ISRO where he chases his passion, meets and marries his love Aarti, finds a best friend in Vinayak, invents his dream machine and gets caught in a storm of jealousy, deceit and betrayal that threatens the very spirit of his dream. This 45-year long roller coaster of life will transform little Raghu into Dr. Raghav Manohar, a man, a legend. But will he succeed in his mission to put Indians on the moon or will the forces of fate land him somewhere else? Enjoy this gripping tale of passion, love and friendship. Moonwalker will strike a chord with you.

The Astronaut Who Painted the Moon: The True Story of Alan Bean Dean Robbins,2019-05-28 Journey to the moon on the Apollo 12 mission with Alan Bean, the fourth astronaut to walk on the lunar surface and the only artist to paint its beauty firsthand! As a boy, Alan wanted to fly planes. As a young navy pilot, Alan wished he could paint the view from the cockpit. So he took an art class to learn patterns and forms. But no class could prepare him for the beauty of the lunar surface some 240,000 miles from Earth. In 1969, Alan became the fourth man and first artist on the moon. He took dozens of pictures, but none compared to what he saw through his artistic eyes. When he returned to Earth, he began to paint what he saw. Alan's paintings allowed humanity to experience what it truly felt like to walk on the moon. Journalist and storyteller Dean Robbins's tale of this extraordinary astronaut is masterful, and artist Sean Rubin's illustrations are whimsical and unexpected. With back matter that includes photos of the NASA mission, images of Alan's paintings, and a timeline of lunar space travel, this is one adventure readers won't want to miss!
