Graham Robson

Morris Minor Ray Newell,2008-02 General Adult. The post war Morris Minor, designed by Alec Issigonis was one of the most popular British Cars. 2008 will mark 60 years since the first production models rolled off the production lines at Cowley in Oxfordshire. This work looks at the development of its range of models produced during a production run which spanned twenty two years in the UK.

Morris Minor Ray Newell,2018-06-18 Ray Newell is a recognised authority on the Morris Minor, having written extensively on the subject over a number of years, and is a true enthusiast with a wealth of experience in owning, driving and restoring this popular car. He is also the National Secretary of the UK-based Morris Minor Owners' Club, a position he has held since 1983. For this book Ray has drawn on his expansive personal collection – as well as those of fellow enthusiasts – to bring the Morris Minor story up to date, looking at why the Morris Minor is one of the most popular classic cars, and an enduring favourite with owners throughout the world. Ray's other books include the Morris Minor Essential Buyer's Guide in the popular Veloce series.

Morris Minor: The Biography Martin Wainwright,2011-11-01 The split screen, the indicators poking up like perspex orange fingers, the notoriously rust-prone floors, the pootling exhaust note... just some of the much-loved characteristics of the Morris Minor or Morris 1000. Designed by Sir Alec Issigonis back in 1948, in a sense it was Britain's answer to the Beetle – a bulbous little creation that was also Britain's first mass-appeal car. Between then and 1972 when production belatedly ceased some 1.6 million were built. There were variants like the Morris Traveller (timber-framed estate car) and the Morris Million (painted pink), while the convertible was another popular choice. For thousands of 'newly-marrieds', or penurious students, it was their first car. It was also the kind of car in which the district nurse did her rounds. In 2008, it is 60 years old, and Martin Wainwright (who proposed to his wife over the gear stick of a Morris Minor) gives us a quirky and fascinating history of this quintessentially British car. You'll find everything from the post-70s vogue for restoring and rebuilding Morris Minors (several garages still exist to do just that, to the alarming habit of their bonnets to open at speed and entirely obscure your vision, their unreliable trunnions, and not to mention the esoteric photo exhibition some years ago devoted to abandoned Morris Minors on the West Coast of Ireland.

Beware the Morris Minor John Townsend,2004 Can an ordinary car be cursed? Can it take over your life? Beware the Morris Minor as it has a chilling past. What is it capable of doing? Is it too late for the curse to be broken?

Original Morris Minor Ray Newell,2008-10-01 Original Morris Minor is the essential companion to these delightful cars. Its aim is to reveal, in words and color photographs, how the many versions of the Minor – from early 'low-headlamp' 918cc saloon to late 1098cc traveler – altered in detail through the course of production. An amazing number of specification changes, large and small, occurred over the years. The completely authentic specification which the most discerning enthusiasts now demand can be elusive because so many Minors have been altered over the years, often by impecunious owners trying simply to keep aging cars on the road for minimum cost. But help is at hand in Original Morris Minor for all owners, restorers and enthusiasts who want a bible on originality. Drawing from factory production records, parts lists and catalogs, as well as the accumulated knowledge of respected restorers and dedicated enthusiasts, this book provides the most exhaustive production survey of the Morris Minor ever published. Accompanying the authoritative text are over 250 specially commissioned color photographs showing every permutation of Morris Minor specification in remarkable detail.

Morris Minor Paul Skilleter,1989

Morris Minor Traveller Ray Newell,2013-03-01 For more than half a century the Morris Minor Traveller has been a familiar feature of rural and small-town Britain. Unpretentious, uncomplaining, half-timbered in an age of sleek pressed steel, Travellers were to be seen everywhere, laden with schoolchildren, dogs, jumble for the jumble sale, buzzing bravely along at no great speed. Ray Newell is the unchallenged authority on Minor matters, and here he begins by providing in-depth descriptions of the 803cc, 948cc and 1098cc Traveller models, with details of production and specification changes. Next he looks at special purpose versions as used by, among others, the armed forces, the coastguard and even the Barbados police. Then comes a section on one-off Travellers including an intriguing three-door conversion first built in the early 1950s. Countless Traveller owners have had to face the need for replacement of the timber framework of the body, a major undertaking, and an outstanding feature of this book is the chapter by Steve Forman devoted to this task, which is set out in step-by-step format with accompanying photographs. The final section of the book deals with upgrades available to bring the Minor's performance, braking and suspension up to more modern standards. These include engine replacements, five-speed gearboxes and disc brakes as well as less radical modifications. With some 300 colour and black-and-white illustrations accompanying the

text, this is truly the owner's complete companion to the Minor Traveller.

Whatever their story might be, most people love talking about the Morris Minor which today still enjoys much nostalgic popularity in New Zealand as in its country of origin. The author, Reiner Schoenbrunn, spent four years researching, painstakingly piecing together the story by interviewing, correspondence and collecting data. The result is a comprehensive documentation of a major part of New Zealand's motoring history, richly illustrated with 278 photographs and original advertisements, 32 of them in colour and mostly previously unpublished.
