Jane Austen and the State of the Nation Sheryl Craig,Eckersley,2015-08-18 Jane Austen and the State of the Nation explores Jane Austen's references to politics and to political economics and concludes that Austen was a liberal Tory who remained consistent in her political agenda throughout her career as a novelist. Read with this historical background, Austen's books emerge as state-of-the-nation or political novels.

Marco Polo's Book John Critchley,2017-07-05 Marco Polo and his book may seem to have been well served by scholars, yet the majority have been concerned to write about his travels in Asia, what he did or did not see, and how useful he is as a source on the East. John Critchley's subject, on the other hand, is the text of Polo's book itself and the political and ideological context - the crusades, the Mongol missions, the French presence in Italy - in which it was put together by its author(s), and read by its audience. The homogeneity of the 'original' Franco-Italian text and the

accepted relationship between this text and the Latin recensions is tested by computer analysis. An examination of vocabulary and other textual features draws out the different attitudes and contributions of Polo himself and his various editors and translators. Critchley's book will be of interest not only to those concerned with the history of later medieval Europe but also to specialists in medieval Asia, who will find it useful to know about the background and composition of so famous and frequently cited a work. On pourrait penser que Marco Polo et son livre ont été amplement débattus par les spécialistes en la matière, cependant la majorité a surtout écrit à propos de ses voyages en Asie, ce qu'il avait ou n'avait pas vu et sur son utilité en tant que source de références sur l'Orient. Le sujet traité par John Critchley par contre, est le texte même du livre de Polo, ainsi que le contexte politique et idéologique - les croisades, les missions mongoles, la présence française en Italie - dans lequel il a été composé par son ou ses auteurs et dans lequel ses lecteurs ont pu le lire. L'homogénéité du texte franco-italien d'origine et le rapport accepté entre celui-ci et les révisions latines ont été analysés par ordinateur. Un examen du vocabulaire et d'autres caractéristiques littéraires fait apparaître les différences d'attitudes et de contributions entre Polo

Scenes of Seduction Jann Matlock, 1994 Jann Matlock's study of prostitution, hysteria, and the novel in nineteenth-century France considers, for the first time, the three topics together with their links to constructions of female marginality and desire. Made increasingly accessible to a large public by inexpensive printing methods, new forms of circulation like the roman-feuilleton, and rising literacy rates among women and workers, the novel became the medium for exchanges over women's bodies and desires. Matlock reveals the coincident traffic of the novel in the subjects of

women on the fringe of society - prostitutes, hysterics, and madwomen- and the invitations extended to its new readers to explore new worlds of sexuality and intrigue. In addition, Matlock examines debates on the tolerance of prostitution, sexual continence, the relationship between female sexuality and madness, and the dangers of literature by incorporating into her study material from a myriad of archives, including medical case studies, police reports, newspaper editorials, and memoirs. Against this rich background, she discusses the novels of Balzac, Dumas fils, Sand, Soulié, and Sue, many of which were directed at a female audience.

Chemical Products Desk Reference Michael Ash, 1990 There is hardly a technical library in the world in which the volumes of the Chemical Formulary (Volumes 1-34) do not occupy a prominent place. It does not duplicate any of the formulas included in previous volumes, but lists a wide array of modern and salable products from all branches of the chemical industries. An excellent reference for formulation problems. Contents - I. Introduction - II. Adhesives - III. Beverages and Foods - IV. Cosmetics - V. Coatings - VI. Detergents - VII. Drugs - VIII. Metal Treatments - IX. Polishes - X. Elastomers, Polymers and Resins - XI. Miscellaneous - Appendix - Index - Preface - Chemistry, as taught in our schools and colleges, concerns chiefly synthesis, analysis, and engineering-and properly so. It is part of the right foundation for the education of the chemist. Many a chemist entering an Industry soon finds that most of the products manufactured by his concern are

not synthetic or definite complex compounds, but are mixtures, blends, or highly complex compounds of which he knows little or nothing. The literature in this field, if any, may be meager, scattered, or obsolete. Even chemists with years of experience In one or more Industries spend considerable time and effort in acquainting themselves with any new field which they may enter. Consulting chemists similarly have to solve problems brought to them from industries foreign to them. There was a definite need for an up-to-date compilation of formulae for chemical compounding and treatment. Since the fields to be covered are many and varied, an editorial board of chemists and engineers engaged in many industries was formed. Many publications, laboratories, manufacturing firms, and Individuals have been consulted to obtain the latest and best information. It is felt that the formulas given in this volume will save chemists and allied workers much time and effort.

Men on the Rocks Michel Mouton,Stephan G. Schmid,2013 Petra in modern southern Jordan is universally known as one of the most frequented touristic sites in the Near East, inscribed on the UNESCO world heritage list. Modern visitors are attracted by the romantic aspect of the rock-cut tomb façades, heavily contrasting in their baroque stile with the desert like surrounding of the rocky and arid landscape. These monuments were the result of the long time presence of the Arab tribe of the Nabataeans who made Petra their capital when they became, at least partially, sedentarised during the Hellenistic period, i.e between the late 4th to late 1st centuries BCE. How exactly this process of sedentarisation happened, how the site of Petra changed from a temporary dwelling place of a small Bedouin tribe to one of the blinking capitals of the ancient Near East that attracted - as it is the case today - visitors from all over the world, was the subject of a three years research program, jointly sponsored by the French Agence Nationale de la Recherche (ANR) and the German

Research Foundation (DFG). At the end of the program, an international conference, held in Berlin in December 2011, brought together several dozen of scholars from all over the world in order to pinpoint the state of research on the Formation of the Nabataean capital. The contributions of the present volume focus on questions related to the natural environment of the site, on the geology and geography as well as on architecture, small finds and social dynamics, probably the clue for a better understanding of the functioning of the Nabataean kingdom and its capital Petra.

A Dictionary of Anglo-American Proverbs & Proverbial Phrases, Found in Literary Sources of the Nineteenth and Twentieth Centuries George B. Bryan,Wolfgang Mieder,2005 A Dictionary of Anglo-American Proverbs & Proverbial Phrases Found in Literary Sources of the Nineteenth and Twentieth Centuries is a unique collection of proverbial language found in literary contexts. It includes proverbial materials from a multitude of plays, (auto)biographies of well-known actors like Britain's Laurence Olivier, songs by William S. Gilbert or Lorenz Hart, and American crime stories by Leslie Charteris. Other authors represented in the dictionary are Horatio Alger, Margery Allingham, Samuel Beckett, Lewis Carroll, Raymond Chandler, Benjamin Disraeli, Edward Eggleston, Hamlin Garland, Graham Greene, Thomas C. Haliburton, Bret Harte, Aldous Huxley, Sinclair Lewis, Jack London, George Orwell, Eden Phillpotts, John B. Priestley, Carl Sandburg, Harriet Beecher Stowe, Jesse Stuart, Oscar Wilde, and more. Many lesser-known dramatists, songwriters, and novelists are included as well, making the contextualized texts to a considerable degree representative of the

proverbial language of the past two centuries. While the collection contains a proverbial treasure trove for paremiographers and paremiologists alike, it also presents general readers interested in folkloric, linguistic, cultural, and historical phenomena with an accessible and enjoyable selection of proverbs and proverbial phrases.
