*The Neville Chamberlain Diary Letters* Robert Self,2017-07-05 As a primary source of historical evidence and insight, it is difficult to overstate the value and importance of Neville Chamberlain's diary letters to his sisters. They represent the most complete and illuminating 'insider' record of British politics between the wars yet to be published. From 1915 Chamberlain wrote detailed weekly epistles to his sisters until his death in 1940; a confidential account of events covering the quarter of a century during which he stood at the very centre of Conservative and national politics. Beyond the fascination of the historical record of people and events, these letters are extremely valuable for the remarkable light they throw upon the personality and character of the private man lurking behind the austere forbidding public persona.

**True Crime Japan** Paul Murphy,2016-08-02 A middle-aged carpenter beats his 91-year old mother to death and goes to work the following day, leaving the body for his wife to find. An 82-year old woman is jailed for 10 months for stealing fried chicken. Like nearly all defendants in Japan, they both plead guilty. What happens between plea and sentencing is the subject of True Crime Japan. In this fascinating crime book journalist and longtime Japan resident Paul Murphy provides a glimpse of Japanese society through a year's worth of criminal court cases in Matsumoto, a city 140 miles to the west of Tokyo. The defendants in these cases range from ruthless mobsters to average citizens, often committing similar crimes in rather different ways, and for different reasons. Based on court hearings and interviews with the defendants, their families, neighbors and lawyers—Murphy explores not only the motives of offenders but the culture of crime and punishment in Japan. The resulting true crime book provides a lens through which to view this honor-shame based, conformist culture, and shows how, in its role within that culture, the court system reveals Japan to be, surprisingly to some, a land of true individuals.

**Negotiating Capability and Diaspora** Ashmita Khasnabish,2013-12-04 Negotiating Capability and Diaspora examines Amartya Sen's theory of capability in dialogue with the American philosopher John Rawls. Sen's theory arose to show an oriental dimension of the critique of utilitarianism that valorizes will power and honor diversity. Indian philosopher Aurobindo also enters the discourse to complement the theory of capability with supra-rational theory of emotional purification. In addition, feminist philosopher Martha Nussbaum plays a major role in the book as do the literary writers of diaspora.
