Spitfire Mark I/II Aces 1939-41 Alfred Price, 2012-11-20 Spitfire Mk Is and IIs served only briefly in the frontline with the RAF, but their pilots were responsible for achieving impressive scores against the Luftwaffe during 1940/41. This volume details the RAF's first aces of World War 2 who helped stem the German tide during Britain's struggle for survival in the bitter years between 1939 and 1941. Early-mark Spitfires were notorious for their light armament, overheating engines and short range, but during the dogfights over Dunkirk and south-east England, then the first tentative sweeps across France, many pilots achieved scores of note.

British Mark I Tank 1916 David Fletcher, 2012-05-20 In 1915 a machine christened Little Willie changed the way that wars were fought. Little Willie was a fully tracked armoured vehicle that could break a trench system. Its development was completed in December 1915, but by then it had already been superseded by an improved design, Mother. This was the first rhomboid tank, and the prototype for the Mark 1 which would influence a whole generation of tank building. This book details the development of the Mark I, and its surprise arrival in France in the middle of 1916 during the closing weeks of the battles of the Somme.

Development of Scram-latch Components for Mark I Naval Reactor, 1955 This report describes the development of improvements on an electrohydraulic mechanical scram-latch system for the Mark I Naval Reactor. The latch proper was revised to include a rolling disengagement which permitted the use of bearing surfaces of ample size and radii to carry both static and shock loads. The low energy required to release this latch permitted a reduction in size and complication of the hydraulically operated latch actuator. This advantage was also present in the design of an electrically operated scram valve. The scram valve is of the rotary-plug type to achieve hydraulic balance and low inertia.

Mark Neville Mark Neville, 2019-09-17 Since 2015, British photographer Mark Neville (born 1966) has been documenting life in Ukraine, with subjects ranging from holidaymakers on the beaches of Odessa and the Roma communities on the Hungarian border to those internally displaced by the war in Eastern Ukraine. Employing his activist strategy of a targeted book dissemination, Neville is committed to making a direct impact upon the war in Ukraine. He will distribute 2,000 copies of this volume free to policy makers, opinion makers, members of parliament both in Ukraine and Russia, members of the international community and those involved directly in the Minsk Agreements. He means to reignite awareness about the war, galvanize the peace talks and attempt to halt the daily bombing and casualties in Eastern Ukraine which have been occurring for four years now. Neville's images are accompanied by writings from both Russian and Ukrainian novelists, as well as texts from policy makers and the international community, to suggest how to end the conflict.
