What's Wrong with Microsoft Windows, Word and MSN Derek Kelly,2001-10 What's Wrong with MICROSOFT Windows, Word and MSN is a hard-nosed, no holds barred, critique of a few Microsoft software products by a long-time user. It describes the author's adventures in trying to use these software products for productive work. If you have used any of these products, you are sure to identify with his frustrations and anger. Isn't it time you let Bill Gates and Microsoft know that these products really suck? Wouldn't you someday like to see really user-centered, human-centered software that is a joy to use?
