The B-29 Superfortress Chronology, 1934Ø1960
Robert A. Mann,2010-01-19 The Boeing B-29 Superfortress lived an operational life of only 26 years, but what a life it was. The introduction to this book provides basic information on the physical plane: dimensions, specs, leading particulars and operational usages. Then an exhaustive day-by-day chronology of the B-29 is presented—from the earliest designs in 1934 through thousands of missions and aircraft events in World War II and Korea to the 1960 retirement of the last operational B-29. The book also includes an extensive glossary and three appendices, which provide a discussion of the general anatomy of a mission, a sample of operational voice or radio codes used in 1945, and a guide to (very unofficial) aircraft names.
