Purification of Laboratory Chemicals W.L.F. Armarego,2003-03-07 Now in its fifth edition, the book has been updated to include more detailed descriptions of new or more commonly used techniques since the last edition as well as remove those that are no longer used, procedures which have been developed recently, ionization constants (pKa values) and also more detail about the trivial names of compounds. In addition to having two general chapters on purification procedures, this book provides details of the physical properties and purification procedures, taken from literature, of a very extensive number of organic, inorganic and biochemical compounds which are commercially available. This is the only complete source that covers the purification of laboratory chemicals that are commercially available in this manner and format. * Complete update of this valuable, well-known reference* Provides purification procedures of commercially available chemicals and biochemicals* Includes an extremely useful compilation of ionisation constants

Structure and Dynamics of Confined Polymers John J. Kasianowicz,M. Kellermayer,D DEAMER,2002-07-31 Polymers are essential to biology because they can have enough stable degrees of freedom to store the molecular code of heredity and to express the sequences needed to manufacture new molecules. Through these they perform or control virtually every function in life. Although some biopolymers are created and spend their entire career in the relatively large free space inside cells or organelles, many biopolymers must migrate through a narrow passageway to get to their targeted destination. This suggests the questions: How does confining a polymer affect its behavior and function? What does that tell us about the interactions between the monomers that comprise the polymer and the molecules that confine it? Can we design and build devices that mimic the functions of these nanoscale systems? The NATO Advanced Research Workshop brought together for four days in Bikal, Hungary over forty experts in experimental and theoretical biophysics, molecular biology, biophysical chemistry, and biochemistry interested in these questions. Their papers collected in this book provide insight on biological processes involving confinement and form a basis for new biotechnological applications using polymers. In his paper Edmund DiMarzio asks: What is so special about polymers? Why are polymers so prevalent in living things? The chemist says the reason is that a protein made of N amino acids can have any of 20 different kinds at each position along the chain, resulting in 20^N different polymers, and that the complexity of life lies in this variety.

Menzius Robert H. Gassmann,2016-01-15 Menzies war ein prominenter politischer Denker des antiken China und ein hochrangiger Berater des mächtigen Fürsten von Qi. Im Werk Mengzi "Junker Meng" sind Dialoge zu politischen Fragen überliefert, die er mit wichtigen Fürsten, mit seinen Gefolgsleuten und mit Gegnern führte. Angesichts des Niedergangs der Zhou-Könige sind Fragen der Herrschaftsform (Gründung einer neuen Dynastie oder hegemoniale Stützung?) sowie der adäquaten Verwaltung (z.B. bei Steuersystemen) zentral. Dabei behandelte er anthropologische Aspekte der geistigen Konstitution der (Verantwortung tragenden) Menschen und verteidigte so die traditionelle verwandtschaftliche und gesellschaftliche Organisation (z.B. in Dyaden mit Rollen) und ihre Werte. Das Werk bietet eine neue Rekonstruktion der Biographie und der Zeit des Menzies, eine darauf fussende Übersetzung in neuer Anordnung mit detaillierten Kommentaren sowie umfangreiche Anhänge zu Chronologie, Geschichte, Personen und zentralen Begriffen. Es richtet sich an ein sinologisches Fachpublikum und an ideengeschichtlich Interessierte.

Proceedings of the 6th International Conference and Exhibition on Sustainable Energy and Advanced Materials Ubaidillah Sabino,Fitrian Imaduddin,Aditya Rio Prabowo,2020-06-01 This book gathers the proceedings of the 6th International Conference and Exhibition on Sustainable Energy and Advanced Materials (ICE-SEAM 2019), held on 16–17 October 2019 in Surakarta, Indonesia. It focuses on two relatively broad areas – advanced materials and sustainable energy – and a diverse range of subtopics: Advanced Materials and Related Technologies: Liquid Crystals, Semiconductors, Superconductors, Optics, Lasers, Sensors, Mesoporous Materials, Nanomaterials, Smart Ferrous Materials, Amorphous Materials, Crystalline Materials, Biomaterials, Metamaterials, Composites, Polymers, Design, Analysis, Development, Manufacturing, Processing and Testing for Advanced Materials. Sustainable Energy and Related Technologies: Energy Management, Storage, Conservation, Industrial Energy Efficiency, Energy-Efficient Buildings, Energy-Efficient Traffic Systems, Energy Distribution, Energy Modeling, Hybrid and Integrated Energy Systems, Fossil Energy, Nuclear Energy, Bioenergy, Biogas, Biomass Geothermal Power, Non-Fossil Energies, Wind Energy, Hydropower, Solar Photovoltaic, Fuel Cells, Electrification, and Electrical Power Systems and Controls.

Cybersecurity in Poland Katarzyna Chałubińska-Jentkiewicz,2022 This open access book explores the legal aspects of cybersecurity in Poland. The authors are not limited to the framework created by the NCSA (National Cybersecurity System Act - this act was the first attempt to create a legal regulation of cybersecurity and, in addition, has implemented the provisions of the NIS Directive) but may discuss a number of other issues. The book presents international and EU regulations in the field of cybersecurity and issues pertinent to combating cybercrime and cyberterrorism. Moreover, regulations concerning cybercrime in a few select European countries are presented in addition to the problem of collision of state actions in ensuring cybersecurity and human rights. The advantages of the book include a comprehensive and synthetic approach to the issues related to the cybersecurity system of the Republic of Poland, a research perspective that takes as the basic level of analysis issues related to the security of the state and citizens, and the analysis of additional issues related to cybersecurity, such as cybercrime, cyberterrorism, and the problem of collision between states ensuring security cybernetics and human rights. The book targets a wide range of readers, especially scientists and researchers, members of legislative bodies, practitioners (especially judges, prosecutors, lawyers, law enforcement officials), experts in the field of IT security, and officials of public authorities. Most authors are scholars and researchers at the War Studies University in Warsaw. Some of them work at the Academic Centre for Cybersecurity Policy - a thinktank created by the Ministry of National Defence of the Republic of Poland. .

The Anglicization of European Lexis Cristiano Furiassi,Virginia Pulcini,Félix Rodríguez González,2012-08-22 This volume explores the lexical influence of English on European languages, a topical theme with linguistic and cultural implications. It provides an extensive introductory background to a cross-national view of English-induced lexical borrowing, posing crucial analytical questions such as what counts as an Anglicism. It also offers a typology of borrowings with examples from the languages represented: Armenian, Danish, French, German, Italian, Norwegian, Polish, Serbian, Spanish, and Swedish. The articles in this volume address general and language-specific issues related to the analysis and collection of Anglicisms, extending the scope to the largely unexplored area of phraseology and bringing new insights into corpus-based and corpus-driven methodologies. This volume fits into a well-established and constantly developing research field and will appeal to scholars interested in the spread of English as an international language, contact and contrastive linguistics, lexicology and lexicography, and computer corpus lexicography.

Homiletik und Exegese Christine Wenona Hoffmann,2019-09-30 Die evangelische Predigt rekurriert im Zuge ihrer bibeltextlichen Orientierung auf Inhalte, die wiederum selbst innerhalb verschiedener Kontexte und der Tradition zu lesen sind. Sich diesen Inhalten wissenschaftlich-theologisch und exegetisch fundiert allsonntäglich auf der Kanzel zu nähern, stellt eine zentrale Herausforderung des Predigtamtes dar. Dies gilt insbesondere für traditionsreiche Predigttexte, wie die Perikopen um Gal 2,16 und Röm 3,28. Die Autorin zeigt in einer breit angelegten Predigtanalyse Fallstricke und Potenziale des Zusammenspiels von Text, Tradition und Predigt auf und eröffnet Wege, wie diesen Herausforderungen begegnet werden kann. Ausgehend von einem ausführlichen exegetischen Kommentar, bildet der Gewinn exegetischer Sondierung, Aufklärung und Vertiefung im Kontext homiletischer Reflexion den Fluchtpunkt der Untersuchung. Die Arbeit bietet ferner eine Sensibilisierung und Ergänzung für die gegenwärtige Predigt über die Rechtfertigung und ist damit an der Schnittstelle zweier zentraler protestantischer Propria zu verorten: der Lehre von der Rechtfertigung und der biblisch fundierten Predigt. [Homiletics and Exegesis. Concepts of Justification in Contemporary Protestant Sermons] The Protestant sermon refers to biblical contents which can only be understood within their context and tradition. Ministry faces a major challenge in interpreting these contents weekly in a theologically and exegetically responsible way. This challenge applies particularly to biblical texts with a prominent position in Protestant tradition, such as the pericopes around Gal 2:16 and Rom 3:28. The author conducts a thorough analysis of 235 sermons, elaborating the pitfalls and benefits resulting from the interplay of text, tradition and sermon, and offers potential solutions to these challenges. Starting with an extensive exegetical commentary, this work explores and elucidates the biblical texts on justification from different exegetical and homiletical perspectives. Thus, it can be located between two

crucial characteristics of Protestant religiosity: the doctrine of justification and the biblically-oriented sermon.
