The Art of Movies Nicolae Sfetcu,2014-05-06 Movie is considered to be an important art form; films entertain, educate, enlighten and inspire audiences. Film is a term that encompasses motion pictures as individual projects, as well as – in metonymy – the field in general. The origin of the name comes from the fact that photographic film (also called filmstock) has historically been the primary medium for recording and displaying motion pictures. Many other terms exist – motion pictures (or just pictures or picture), the silver screen, photoplays, the cinema, picture shows, flicks – and commonly movies.

In Other Lands Sarah Rees Brennan,2017-07-17 Georgia Peach Award Nominee • Florida Teens Read Award Nominee • ABC Best Books for Young Readers • Bank Street College Best Children's Books of the Year • A Junior Library Guild Selection • Hugo & Locus award finalist In Other Lands is an exhilarating novel from bestselling author Sarah Rees Brennan about surviving four years in the most unusual of schools - friendship, falling in love, diplomacy, and finding your own place in the world – even if it means giving up your phone. Excerpt: The Borderlands aren't like anywhere else. Don't try to smuggle a phone or any other piece of technology over the wall that marks the Border – unless you enjoy a fireworks display in your backpack. (Ballpoint pens are okay.) There are elves, harpies, and – best of all as far as Elliot is concerned – mermaids. What's your name? Serene. Serena? Elliot asked. Serene, said Serene. My full name is Serene-Heart-in-the-Chaos-of-Battle. Elliot's mouth fell open. That is badass. Elliot? Who's Elliot? Elliot is thirteen years old. He's smart and just a tiny bit obnoxious. Sometimes more than a tiny bit. When his class goes on a field trip and he can see a wall that no one else can see, he is given the chance to go to school in the Borderlands. It turns out that on the other side of the wall, classes involve a lot more weaponry and fitness training and fewer mermaids than he expected. On the other hand, there's Serene-Heart-in-the-Chaos-of-Battle, an elven warrior who is more beautiful than anyone Elliot has ever seen, and then there's her human friend Luke: sunny, blond, and annoyingly likeable. There

are lots of interesting books. There's even the chance Elliot might be able to change the world. Chapter illustrations by Casey Nowak.

Graduate Theorizations: Imaginative Applied Sociologies—Manifest and Latent Mohammad H. Tamdgidi, 2011-01-01 This Winter 2011 (IX, 1) issue of *Human Architecture: Journal of the Sociology of Self-Knowledge*, entitled "Graduate Theorizations: Imaginative Applied Sociologies—Manifest and Latent," includes nine, theoretically engaging graduate student papers: six from a course in Applied Sociological Theory (Soc. 605) taken during the Fall 2010 semester at UMass Boston, a paper on the philosophy of the self and architecture from the London School of Economics and Political Science, and two master's theses in psychology from Bangor University, UK. The papers explore sociological imaginations of personal and public issues such as: fear of crime and insecurity; marriage and divorce; growing up a third culture kid; myths of success and the life plan; growing up with Attention Deficit Disorder; present (in contrast to absent) fatherhood; architectural history and practice as shaped by self agency as well as social context; "pathological" versus "normal" experiences of dissociation and hypnosis; and mind-body interactions in psychogenic pain. These papers from diverse 'disciplinary' origins or locations insightfully contribute, in both manifest and latent ways, to the application and enrichment of the Millsian sociological imagination. Comparative and integrative readings of these papers also reveal, in turn, the extent to which liberating sociological theorizing and practice amid critical applications of the sociological imagination require awakening to and moving beyond the dissociative disorder and hypnosis of rigid disciplinarity. Contributors include: Alison Michelle Ireland, Julianne M. Siegfriedt, K. R., Linda M. Lazcano, Ellen Maher, Edmund J. Melia, Durukan Kuzu, Shahram Rafieian, Sima Atarodi, Steven Hosier, and Mohammad H. Tamdgidi (also as journal editor-in-chief). *Human Architecture: Journal of the Sociology of Self-Knowledge* is a publication of OKCIR: The Omar Khayyam Center for Integrative Research in Utopia, Mysticism, and Science (Utopystics). For more information about OKCIR and other issues in its journal's Edited Collection as well as Monograph and Translation series visit OKCIR's homepage.

Protectors and Predators Bernard Faure, 2015-12-31 Written by one of the leading scholars of Japanese religion, *Protectors and Predators* is the second installment of a multivolume project that promises to be a milestone in our understanding of the mythico-ritual system of esoteric Buddhism—specifically the nature and roles of deities in the religious world of medieval Japan and beyond. Bernard Faure introduces readers to medieval Japanese religiosity and shows the centrality of the gods in religious discourse and ritual. Throughout he engages theoretical insights drawn from structuralism, post-structuralism, and Actor-Network Theory to retrieve the "implicit pantheon" (as opposed to the "explicit orthodox pantheon") of esoteric Japanese Buddhism (Mikkyō). His work is particularly significant given its focus on the deities' multiple and shifting representations, overlappings, and modes of actions rather than on individual characters and functions. In *Protectors and Predators* Faure argues that the "wild" gods of Japan were at the center of the medieval religious landscape and came together in complex webs of association not divisible into the categories of "Buddhist," "indigenous," or "Shinto." Furthermore, among the most important medieval gods, certain ones had roots in Hinduism, others in Daoism and Yin-Yang thought. He displays vast knowledge of his subject and presents his research—much of it in largely unstudied material—with theoretical sophistication. His arguments and analyses assume the centrality of the iconographic record as a complement to the textual record, and so he has brought together a rich and rare collection of more than 170 color and black-and-white images. This emphasis on iconography and the ways in which it complements, supplements, or deconstructs textual orthodoxy is critical to a fuller comprehension of a set of medieval Japanese beliefs and practices and offers a corrective to the traditional division of the field into religious studies, which typically ignores the images, and art history, which oftentimes overlooks their ritual and religious meaning. *Protectors and Predators* and its companion volumes should persuade readers that the gods constituted a central part of medieval Japanese religion and that the latter cannot be reduced to a simplistic confrontation, parallelism, or complementarity between some monolithic teachings known as "Buddhism" and "Shinto." Once these reductionist labels and categories are discarded, a new and fascinating religious landscape begins to unfold.
