El amor de Nathaly Teresa Alfaro,2020-01-07 Teresa Alfaro nació en la ciudad de Guadalajara, España. Desde muy pequeña fue muy querida por su familia y amigos. Teresa tuvo dos hijos Conchita y Emilio de su unión marital con Ramón Méndez. Teresa escribió este libro en sus años de vida en la ciudad de Caracas y falleció en la ciudad de Miami, Florida, USA. Language at Work British Association for Applied Linguistics. Meeting,1998 The 31st BAAL Annual Meeting, held in September 1997 at the University of Birmingham, had as its theme Language at Work. The papers in this collection, although they relate to a wide variety of different contexts, all deal with people using language as part of their working life, and they are all concerned with how language functions to construct participant relationships and institutions. In short, these papers demonstrate how people at work make language for them.

Mapping Southern Routes of Migrant Women Sondra Cuban,2022-03-30 Whereas most migration research still focuses on South to North migration, this book shines a light on mobilities within the Global South. Using migration to and within Chile as a case study, the book looks at the experiences of women, who make up a large proportion of migrants within Latin America. Mapping the experiences, aspirations and struggles of women moving to and in Chile, the book exposes the unexpected issues encountered by migrant women in their new destination country, particularly the discrimination that leaves them feeling invisible, unsettled, and, immobile. Within the region there is a long history of feminized migration and domestic labour circuits that spurs migrants' residential movements but slows their social progress. Yet despite these challenges, the migrant women expressed their agency through the support networks they created among their compatriots and their transnational families. Overall, the book demonstrates the growing migrant populations that exist within the Global South and the impact of domestic and care labour markets in driving gendered migration in particular. This book will be of interest to researchers and advanced students in the fields of mobilities and migration, cultural geography, international development, and gender studies, especially those with an interest in Latin America.

Global Applications of Culturally Competent Health Care: Guidelines for Practice Marilyn "Marty" Douglas,Dula Pacquiao,Larry Purnell,2018-07-02 This book is unique in its global approach to applying the Guidelines for Culturally Competent Nursing Practice that were recently endorsed by the International Council of Nurses (ICN) and distributed to all of its 130 national nursing associations. The purpose of this book is to illustrate how these guidelines can be put into clinical practice and to show how practitioners from different countries with diverse populations can implement them. The first chapter provides the conceptual basis for Culturally Competent Health Care and describes how the guidelines were developed. Each of the next 10 sections presents a chapter describing a specific guideline followed by three or four chapters with detailed case studies to illustrate how the guideline was implemented in a particular cultural setting. All case studies follow a similar format and are written by international authors with clinical expertise and work experience in the culture being presented. This book will be useful for advanced practice nurses, healthcare students, clinicians, administrators, educators, researchers, and those who provide community health or population-based care.

Underbelly Rachel Hall-Clifford,2024-05-14 An unsettling exploration of the hidden power dynamics of global health, seen through the lens of childhood diarrhea and its treatment within the Guatemalan context. Deaths from childhood diarrhea seem preposterous in high-income countries. Yet, for children under five years old in the rest of the world, diarrhea is the third highest cause of mortality. Despite a glut of prevention and treatment programming spanning more than forty years, this least glamorous of global health ills remains a critical problem. In *Underbelly*, Rachel Hall-Clifford takes a hard look at the pathways of global health funding and development policies and the outcomes they deliver for recipient individuals and communities. Drawing on fifteen years of ethnographic research in highland Guatemala, Hall-Clifford focuses on the provision of primary health care services as a critical exemplar of how global health and development programs fall short. Guatemala has a fragmented health system, the author explains, that guarantees health as a human right but also suffers from systemic racism, inadequate health services and access to those services, community distrust from a legacy of harm and violence, and a demeaning paternalism. Bringing together the discourses of global health and medical anthropology, *Underbelly* explores the ways in which global health—its actors, structures, and systems—perpetuates the challenges it purports to fix: this is the underbelly. Hall-Clifford argues that global health programs, conceived in offices distant from the places in which they are delivered, often have unintended consequences and contribute to pluralistic and exclusionary health systems that mirror neoliberal economies. She argues that if we are to fix this entrenched crisis of health inequity, we must use the immense resources of global health to center local communities as drivers of change. With a foreword written by Waleska López Canu, an Indigenous Maya medical director, and an afterword by Arthur Kleinman, renowned expert in global health, this book underscores the importance of looking deeper into what seems on its surface incontrovertibly “good” to understand the more complex realities on the ground and in people’s lives.

Project Nathaly D. D. Simpson,2023-10-19 Confucius said that while at home, a young person should serve their parents. In all major religions, it stresses the importance for children to show respect to those responsible for bringing them into the world. The Quran writes, Be good to your parents, while the Old Testament preaches to Honour thy father and thy mother. With such clear messaging, one would think parenting should be easy. Unfortunately, it's anything but. Add the word step to the front of either Mom or Dad's title, and the challenge escalates exponentially. At least, that was the case for this stepfather. I hadn't planned on adding that position to my resume when I turned forty-five, but as the Yiddish adage goes, Man Plans, and God Laughs. The woman I fell in love with was a single mom with a ten-year-old daughter named Nathaly. I had never met anyone who was so genuinely kind and beautiful before. Of course, I'm referring to Nathaly's mom - my future wife, Diana - and not the little tornado who was as warm as a bucket of ice the first night we met. However, it made no difference. I was committed to making things work no matter what it took. It's been over a decade, and I think maybe, just maybe, Nathaly is beginning to realize that I love her as if she was my own. As for my fellow stepparents, here's what I learned over those years when dealing with a child who wasn't shy to remind me that I wasn't her father. Be authentic, set the example by following good morality, control your emotions and not the other way around, and above all, humble yourself when you screw up - because trust me, you will screw up! Enjoy the read!

Strengths-Based Nursing Care Laurie N. Gottlieb, PhD, RN,2012-08-22 This is the first practical guide for nurses on how to incorporate the knowledge, skills, and tools of Strength-Based Nursing Care (SBC) into everyday practice. The text, based on a model developed by the McGill University Nursing Program, signifies a paradigm shift from a deficit-based model to one that focuses on individual, family, and community strengths as a cornerstone of effective nursing care. The book develops the theoretical foundations underlying SBC, promotes the acquisition of fundamental skills needed for SBC practice, and offers specific strategies, techniques, and tools for identifying strengths and harnessing them to facilitate healing and health. The testimony of 46 nurses demonstrates how SBC can be effectively used in multiple settings across the lifespan.

The Quiet Enemy Cecil Dawkins,1995 In seven stories set in the rural South and West, Cecil Dawkins displays her remarkable talent for getting beneath the surface of ordinary lives and revealing their foibles and idiosyncrasies. An old deaf woman is kidnapped by a stranger she takes to be the devil; an atom bomb is tested in the Arizona desert; a man shoots a housebreaker dead; a son comes home for a funeral; a child disappears; a boy has his faith destroyed; a parched, money-grubbing man meets a woman no less hard. From these occasions Dawkins distills strong, rich stories. Dawkins writes about people not sharply aware of their own motives or the sources of their emotions--people blinkered by life in remote places or by lack of good fortune. The remarkable power of her stories comes from the way she can express so much through characters who themselves can express little. She does it by her brilliant evocation of background and the truthfulness of her observation, and by her gift of compassionate understanding, which demolishes the distances between people.

Gendered Identities and Immigrant Language Learning Assist. Prof. Julia Menard-Warwick,2009-10-29 Based on participant observation in a California English as a Second Language family literacy program, this ethnographic study examines how the complexly gendered life histories of immigrant adults shaped their participation in both the English language classroom and the education of their children, within the contemporary sociohistorical context of increasing Latin American immigration to the United States. Through outlining the connections between (gendered) identity work and language learning, this study builds theoretical and empirical justification for teachers to negotiate classroom practice with each community of learners, responding to students' individual goals, histories, and lives outside the classroom.

A Multilateral Convention for Tax Sergio André Rocha,Allison Christians,2021-11-29 The Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting (MLI) is the most forceful multilateral initiative to coordinate tax regimes on a worldwide basis since the dawn of modern income taxation over a century ago. This book evaluates two radically opposed viewpoints on the convention—a momentous and revolutionary paradigm shift versus a mechanism that merely continues an ongoing flow of limited policy coordination—with detailed investigations that bring to life the hopes and the realities of the current era of multilateral tax cooperation. Bringing together authors from national jurisdictions across the globe to scrutinize the MLI and its likely future ramifications, the book provides in-depth commentary and analysis in the following sequence: first, a comprehensive discussion of the design and goals of the MLI as a treaty and an institutional framework; second, an overview of the structure of the convention and its take-up across the globe to date; and third, the substantive implementation of the MLI with a wide range of country reports. Practice areas covered include tax law, international law, and international relations. The legal workings and implications of the MLI might still seem mysterious to those whose daily work is impacted by it, and there is as yet little jurisprudence regarding its legal nature or ultimate effect on the bilateral treaties coming within its scope. For these reasons, this pathbreaking book will be warmly welcomed by in-house counsel and law firms advising cross-border investors and firms; nongovernmental organizations involved in policy analysis and issue advocacy; researchers working on technical areas of international tax law; and lawyers interested in international policymaking, including the creation and diffusion of consensus-based fiscal and related regulatory norms across jurisdictions of differing development levels.
