Korea's Platform Empire Seongcheol Kim,Dal Yong Jin,2024-06-07 Korea's Platform Empire explores the evolution of digital platforms in South Korea's media sphere, and their global political, economic, cultural, and technological influence. With a focus on Korea in the context of the global platform revolution, the book takes a methodical look at the broader social implications and the impact on cultural production. The authors explore various facets of the media and cultural industries—looking beyond social media to news broadcasting and the music industry—and look at the policy and regulations behind this shifting technological advancement. This book will appeal to students and scholars working on media industries, digital media, platform studies, information and technology studies, Korean and East Asian media studies, and the creative and cultural industries.

Transnational Convergence of East Asian Pop Culture Seok-Kyeong Hong,Dal Yong Jin,2021-03-08 This book observes and analyzes transnational interactions of East Asian pop culture and current cultural practices, comparing them to the production and consumption of Western popular culture and providing a theoretical discussion regarding the specific paradigm of East Asian pop culture. Drawing on innovative theoretical perspectives and grounded empirical research, an international team of authors consider the history of transnational flows within pop culture and then systematically address pop culture,digital technologies, and the media industry. Chapters cover the Hallyu—or Korean Wave—phenomenon, as well as Japanese and Chinese cultural industries. Throughout the book, the authors address the convergence of the once-separated practical, industrial, and business aspects of popular culture under the influence of digital culture. They further coherently synthesize a vast collection of research to examine the specific realities and practices of consumers that exist beyond regional boundaries, shared cultural identities, and historical constructs. This book will be of interest to academic researchers, undergraduates, and graduate students of Asian media, media studies, communication studies, cultural studies, transcultural communication, or sociology.

South Korea's Webtooniverse and the Digital Comic Revolution Brian Yecies,Ae-Gyung Shim,2021-04-09 This book investigates the meteoric rise of mobile webtoons – also known as webcomics – and the dynamic relationships between serialised content, artists, agencies, platforms and applications, as well as the global readership associated with them. It offers an engaging discussion of webtoons themselves, and what makes this new media form so compelling and attractive to millions upon millions of readers. Why have webtoons taken off, and how do users interact with them? Each of the case studies we explore raises interesting questions for both general readers and scholars of new media about how webtoons have become a modern form of popular culture. The book also addresses larger questions about East Asia's contributions to global popular culture and Asian society in general, as well as South Korea's rapid social and cultural transformation since the 1990s. This is a significant – and understudied – aspect of the new screen ecologies and their role in a new wave of media globalisation as we approach the end of the second decade of the 21st century.

Global South Discourse in East Asian Media Studies Dal Yong Jin,2022-11-04 This book examines the nexus of East Asian media, culture, and digital technologies in the early 21st century from a Global South perspective. Providing an empirically rich analysis of the emergence of Asian culture, histories, texts, and state policies as they relate to both Asian media and global media, the author discusses relevant theoretical frameworks as East Asian popular culture and media have shifted the contours of globalization. After overviewing Western media/cultural theories and histories, the book explores the ways in which East Asia-focused analytical frameworks are able to shift people's understanding of globalization and media, drawing upon examples from different East Asian countries to illustrate how current cultural flows have influenced and have been influenced by a handful

of dimensions. Offering an important contribution to understanding the historical trajectory and recent developments of East Asia media, this book will interest students and scholars of media, communication, popular culture, cultural studies, Asian studies, politics and sociology.

SEO Management Véronique Duong, 2020-01-02 Search Engine Optimization (SEO) is arguably the most significant tool that marketers have to push online content. As the hub of the computational engineering fields, SEO encompasses technical, editorial and link-building strategies, and is an integral part of our daily lives. As important as it is ubiquitous, SEO is needed for the development of a brand's website and online reputation. When a website is live, one of its priorities is to drive organic traffic towards it, in order to attract visibility. In order to achieve such an aim, many proactive measures must be put in place, advice followed and tips implemented. There should also be an understanding of the holistic connection between a website's HTML sources, content management system and its relationship with external websites too (SEO off-site). There are many different search engines in the world and depending on the international boundary, one web browser usually dominates the landscape. Google features prominently in SEO Management, but this book also goes into detail regarding Baidu SEO (China), Yandex SEO (Russia) and Naver SEO (South Korea). There is also guidance given on how to manage a SEO project.

Media Pluralism and Online News Tim Dwyer, Derek Wilding, 2023-08-23 The book arises from an international research project that explores the future of media pluralism policies for online news. It investigates the latest European policies and techniques for regulatory intervention, and examines the consequences of innovative news practices asking, 'How will automation of news affect public opinion in the age of social media platforms, and what are the consequences?' In *Media Pluralism and Online News* the authors make the argument that there is an urgent need for revitalised thinking for a media policy agenda to deal with the trends to platform power and concentrated media power, which is an ongoing global risk to public interest journalism. In the transition to a media landscape increasingly dominated by broadband internet distribution and the dominance of US-centric new media behemoths Google, Facebook, Apple, Amazon and Netflix the book investigates measures that can be taken to reduce this ongoing march of concentration and the attenuation of media voices. Securing the public interest in a vibrant and sustainable news media sector will require that merger decisions assess whether there is a 'reduction in diversity' -- calling for a new public interest test and a more expansive policy focus than in the past. This would include consideration of the sustainability of local businesses; the encouragement of original and local news content; quality of content, in terms of the promotion of news standards; and new modes of delivery and consumption, including the 'automated curation' of news content by digital platforms.

TRUE BREAD Jane Ahn, Steven Sooil Ahn, 2014-10-09 Can English be truly the world language? English is the only language used in international air traffic control and is virtually the only language of a whole range of other activities from scientific research to pop music. (Stevenson) English may not be the best choice, but it is the obvious choice, for an international language. Whether we like it or not, the English language is becoming the global language. Most widely used language is Chinese, but with uncountable letters, because of complexity, due to WWW, Chinese cannot be global language forever. In this world, English Speakers are about 1.75 billion persons, about 385 persons are native, still about 1.265 persons are not native and the number of non-native English speakers will be increasing every week and spending huge money on the English learning project. Visual Pattern English Learning reduces cost of learning, increase the effectiveness and efficacy of learning, simple and straight forward understanding to the student. What about there came to market Visual Pattern English, showing invisible blue print of English Sentence while learning English? And those blue prints roughly have Seven patterns. If anyone fully understood these seven visual patterns of English sentence, he would not be short of commanding standard English in Listening, Speaking, Reading and Writing. 1. SSEMP Visual Pattern English Learning Revolution is using Block Sentence Diagram main target for Students for English as Second Language learners. 2. Block Sentence Diagram is a Visible English Sentence structure with noun and adjective as important word and with Verb as the most important word, and preposition and conjunction as their linking word. 3. 'SSEMP' means 'Seven Step English Memory Program or Training' by using Visual Pattern English to learn English Grammar, Listening, Speaking, Reading, and Writing. 4. Visual Pattern and SSEMP is the unique, effective and efficient English Learning Program because Visual Pattern gives student clear and easy visual functions of word(grammar), order of speaking or writing, distinctive and clear location of word and phrase 5. We have complete business plans for Visual Pattern English World Wide Business. We are authoring 'Visual Pattern English for Kids' and Aesop Story Visual Pattern English. 6. You can try or Visual Pattern English for Students ESL or native tongue students for easiness of memory. SSEMP Camp can be held there some time later. 7. We are planning to set up the company for the business Investment Description: Visual Pattern English(VPE) with Diagram Pattern with TTS technology can be delivered to the mobile phones and can induce subscription from internet. Furthermore, VPE can be developed as English Word and Sentence Games for ELS students in addition to publishing E-book or Printing Book. In this reason Block Sentence Diagram English also called Visual English for ELS students has been developed for the students with basic grammatical understanding in order to improve Listening, Speaking,

Reading and Writing. Block Sentence Diagramming, which are diagrammed by the chunk of word group or phrasal groups as well as words is called Visual Pattern. In Korea more than 85% of High School students have smart phones, still there are almost none for mobile learning systems.

End Of Competition, The: The Impact Of The Network Economy C N A Molenaar,2020-05-14 The frictions that we experience when doing business, and in fact also in society, result from the impact of technology. There is a transition period from 'doing digital' to 'being digital'. This affects every aspect of our lives, both private and professional. Merely observing the changes, reading about conflicts of the old model in relation to the new model, is confusing. The current developments and frictions require more in-depth examination. Insights into these developments will be necessary in order to achieve success. Many more partnerships will develop; organisations will come together and combine forces and borders will disappear. This will lead to the changes from order entry to new digital business ecosystems, or rather from 'doing digital to 'being digital'.In the book, *The End of Competition: The Impact of the Network Economy*, the author explores the indicators of change, the motives for change, and the changes that are yet to come. Concrete plans provide clarity regarding the steps that can be taken, and they indicate who is already going down that road. This book will cover the similarities and differences in the approach and developments in both the Western and Asian worlds. We are at the beginning of a new age: the age of 'being digital', and closing our eyes to this is to deny ourselves a future.

Sustainable Modernity Nina Witoszek,Atle Midttun,2018-04-17 The Open Access version of this book, available at <https://www.taylorfrancis.com/books/e/9781351765633>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license. In the 21st century, Norway, Denmark and Sweden remain the icons of fair societies, with high economic productivity and quality of life. But they are also an enigma in a cultural-evolutionary sense: though by no means following the same socio-economic formula, they are all cases of a non-hubristic, socially sustainable modernity that puzzles outside observers. Using Nordic welfare states as its laboratory, *Sustainable Modernity* combines evolutionary and socio-cultural perspectives to illuminate the mainsprings of what the authors call the well-being society. The main contention is that the Nordic uniqueness is not merely the outcome of one particular set of historical institutional or political arrangements, or sheer historical luck; rather, the high welfare creation inherent in the Nordic model has been predicated on a long and durable tradition of social cooperation, which has interacted with global competitive forces. Hence the socially sustainable Nordic modernity should be approached as an integrated and tightly orchestrated ecosystem based on a complex interplay of cooperative and competitive strategies within and across several domains: normative-cultural, socio-political and redistributive. The key question is: Can the Nordic countries uphold the balance of competition and cooperation and reproduce their resilience in the age of globalization, cultural collisions, the digital economy, the fragmentation of the work/life division, and often intrusive EU regulation? With contributors providing insights from the humanities, the social sciences and evolutionary science, this book will be of great interest to students and scholars of political science, sociology, history, institutional economics, Nordic studies and human evolution studies.

Flowers of Fire Hawon Jung,2023-03-07 Invigorating debut . . . [a] full-throated rallying cry. —Publishers Weekly One of Ms. Magazine's most-anticipated feminist books of 2023 An eye-opening firsthand account of the ongoing and trailblazing feminist movement in South Korea—one that the world should be watching. Since the beginning of the #MeToo movement, tens of thousands of people in South Korea have taken to the street, and many more brave individuals took a stand, to end a decades-long abortion ban and bring down powerful men accused of sexual misconduct—including a popular presidential contender. South Korean feminists know that the revolution has been a long time coming, between battles against its own patriarchal society as well as challenging stereotypes of docile Asian women in the Western imagination. Now, author Hawon Jung will show the rest of the world that these women are no delicate flowers—they are trailblazing flames. *Flowers of Fire* takes the reader into the trenches of this fight for equality, following along as South Korean activists march on the streets, navigate public and private spaces where spycam porn crimes are rampant, and share tips and tricks with each other as they learn how to protect themselves from harassment and how to push authorities to act. Jung, the former Seoul correspondent for the AFP, draws on her on-the-ground reporting and interviews with many women who became activists and leaders, from the elite prosecutor who ignited the country's #MeToo movement to the young women who led the war against non-consensual photography. Their stories, though long overlooked in the West, mirror realities that women across the world are all too familiar with: threats of defamation lawsuits to silence victims of assault, tech-based sexual abuse, and criminal justice systems where victims' voices are often met with suspicion and abusers' downfalls are met with sympathy. These are the issues at the heart of their #MeToo movement, and South Korean women have fought against them vigorously—and with extraordinary success. In *Flowers of Fire*, Jung illuminates the strength and tenacity of these women, too often sidelined in global conversations about feminism and gender equality.

The Routledge Handbook of Korean Interpreting Riccardo Moratto,Hyang-Ok Lim,2023-10-23 Professor Riccardo Moratto and Professor Hyang-Ok Lim bring together the most authoritative voices on Korean interpreting. The first graduate school of interpretation and translation was established in 1979 in South Korea. Since then, not only has the interpretation and translation market grown exponentially, but so too has research in translation studies. Though the major portion of research focuses on translation, interpretation has not only managed to hold its own, but interpretation studies in Korea have been a pioneer in this field in Asia. This handbook highlights the main interpretation research trends in South Korea today, including case studies of remote interpreting during the Covid-19 pandemic, Korean interpreting for conferences, events, and diplomacy, and research into educating interpreters effectively. An essential resource for researchers in Korean interpreting, this handbook will also be very valuable to those working with other East Asian languages.
