Bangladeshi Literature in English Mohammad A. Quayum, Md. Mahmudul Hasan, 2024-02-22 This pioneering book brings together several critical essays on Bangladeshi writers in the English language, both at home and abroad, and interviews with a prominent poet and a novelist. The past years have seen various attempts to conceptualize and debate the tradition of Bangladeshi literature in English. English has been in Bengal, which included the geographical territory that constitutes present-day Bangladesh, since the arrival of Ralph Fitch in 1583, and although Bengalis started experimenting creatively in the language in the late eighteenth and early nineteenth centuries, the tradition suffered significant setbacks in Bangladesh and remained in semi-muzzled state for various political and cultural reasons discussed in the book, before and after independence. However, the tradition has seen a surge since the 1990s, and several writers have emerged on home soil and in places where Bangladeshis have settled, including Australia, Canada, Sweden, the UK, and the USA. The book provides an overview of this tradition and investigates the various thematic and stylistic issues in the works of the selected writers, suggesting the vibrancy and versatility of this evolving national and postcolonial literary stream. The book will be of interest to researchers, academics, and scholars in the field of Bangladeshi writing in English, Southeast Asian literature, Asian literature, diaspora, and literary studies. The chapters in this book were

originally published in the Journal of Postcolonial Writing.

State-Sponsored Inequality Shuang

Chen, 2017-04-11 This book explores the social economic processes of inequality in nineteenth- and early-twentieth-century rural China. Drawing on uniquely rich source materials, Shuang Chen provides a comprehensive view of the creation of a social hierarchy wherein the state classified immigrants to the Chinese county of Shuangcheng into distinct categories, each associated with different land entitlements. The resulting patterns of wealth stratification and social hierarchy were then simultaneously challenged and reinforced by local people. The tensions built into the unequal land entitlements shaped the identities of immigrant groups, and this social hierarchy persisted even after the institution of unequal state entitlements was removed. State-Sponsored Inequality offers an in-depth understanding of the key factors that contribute to social stratification in agrarian societies. Moreover, it sheds light on the many parallels between the stratification system in nineteenth-century Shuangcheng and structural inequality in contemporary China.

The Lahu Minority in Southwest China Jianxiong Ma,2013-05-07 The Lahu, with a population of around 470,000, inhabit the mountainous country in Yunnan Province bordering on Burma, Laos and northern Thailand. Buddhists, with a long history of resistance to the Chinese Han majority, the Lahu are currently facing a serious collapse of their traditional social system, with the highest suicide rate in the world, large scale human trafficking of their women, alcoholism and poverty. This book, based on extensive original research including long-term anthropological research among the Lahu, provides an overview of the traditional way of life of the Lahu, their social system, culture and beliefs, and discusses the ways in which these are changing. It shows how the Lahu are especially vulnerable because of their lack of political representatives and a state educated elite which can engage with, and be part of, the government administrative system. The Lahu are one of many relatively small ethnic minorities in China – overall the book provides an example of how the Chinese government approaches these relatively small ethnic minorities.

The Necronomicon Unknown,2017-08-10 A mysterious document that many people have taken an interest

in within the last few decades. Whether this book is real or fictional remains unclear since the first verifiable proofs of the book came from the fictional writing of H.P. Lovecraft. The official position of the publisher is that the book is a work of fiction but many others may have different perspectives on the truth of this document. If it is real, it is a dangerous piece of literature that should be treated with due respect and fear.

The Sociobiology of Infant and Adult Male Baboons David Martin Stein,1984 This volume analyzes the behavioral interactions between infant and adult male baboons. The result is the first quantitative description of infant-adult male relations for any higher primate, including humans. The idea that emerges is that infant-adult male relations are far more complex than the mere paternal caretaking or exploitation that has previously been assumed, and these relations are specific, long-term, reciprocal, and beneficial to both infants and the adult males. The book also deals with many current topics of interest, including parental investment, kidnapping, altruism, food sharing, agonistic buffering, adoption, and infanticide.

Hitler's American Friends Bradley W. Hart,2018-10-02 A book examining the strange terrain of Nazi sympathizers, nonintervention campaigners and other voices in America who advocated on behalf of Nazi Germany in the years before World War II. Americans who remember World War II reminisce about how it brought the country together. The less popular truth behind this warm

nostalgia: until the attack on Pearl Harbor, America was deeply, dangerously divided. Bradley W. Hart's *Hitler's American Friends* exposes the homegrown antagonists who sought to protect and promote Hitler, leave Europeans (and especially European Jews) to fend for themselves, and elevate the Nazi regime. Some of these friends were Americans of German heritage who joined the Bund, whose leadership dreamed of installing a stateside Führer. Some were as bizarre and hair-raising as the Silver Shirt Legion, run by an eccentric who claimed that Hitler fulfilled a religious prophesy. Some were Midwestern Catholics like Father Charles Coughlin, an early right-wing radio star who broadcast anti-Semitic tirades. They were even members of Congress who used their franking privilege—sending mail at cost to American taxpayers—to distribute German propaganda. And celebrity pilot Charles Lindbergh ended up speaking for them all at the America First Committee. We try to tell ourselves it couldn't happen here, but Americans are not immune to the lure of fascism. *Hitler's American Friends* is a powerful look at how the forces of evil manipulate ordinary people, how we stepped back from the ledge, and the disturbing ease with which we could return to it.

UWB Communication Systems Maria-Gabriella Di Benedetto, 2006 Ultrawideband (UWB) communication systems offer an unprecedented opportunity to impact the future communication world. The enormous available bandwidth, the wide scope of the data rate / range trade-off, as well as the potential for very low-cost operation leading to pervasive usage, all present a unique opportunity for UWB systems to impact the way people and intelligent machines communicate and interact with their environment. The aim of this book is to provide an overview of the state of the art of UWB systems from theory to applications. Due to the rapid progress of multidisciplinary UWB research, such an overview can only be achieved by combining the areas of expertise of several scientists in the field. More than 30 leading UWB researchers and practitioners have contributed to this book covering the major topics relevant to UWB. These topics include UWB signal processing, UWB channel measurement and modeling, higher-layer protocol issues, spatial aspects of UWB signaling, UWB regulation and standardization, implementation issues, and UWB applications as well as positioning. The book is targeted at advanced academic researchers, wireless designers, and graduate students wishing to greatly enhance their knowledge of all aspects of UWB systems

Peace Meals Anna Badkhen, 2011-10-25 Provides not only an unsparing and intimate history of some of the last decade's most vicious conflicts but also the most human elements that transcend the dehumanizing realities of war: the people, the compassion they scraped from catastrophe, and the food they ate. Making palpable the day-to-day life during conflicts and catastrophes, Badkhen describes not just the violence but also the beauty of events that take place even during wartime. Throughout Badkhen's stories, punctuated by recipes from the meals she shared with the people she encountered, emerges the most important lesson she has observed in conflict zones from Afghanistan to Chechnya: that war can kill our friends and decimate our towns, but it cannot destroy our inherent decency, generosity, and kindness--that which makes us human. --From publisher description.
