The Enterprise Ncc 1701 and the Model Maker N. Datin McDonald, 2015-11-17 The Star Trek Enterprise Model NCC 1701 began its journey in 1964 in my father's model shop, most of us had our first sighting of it in 1966 when it flew across our TV screen. No other cinematic vessel is nearly as famous and is still the most recognized and successful starship in history. It was donated by Paramount Studios to the National Air and Space Museum in Washington DC, where it will once again be on display for all its fans to view, in the summer of 2016. From Gene Roddenberry's imagination to Matt Jefferies' ability to draw what was in Gene's head, to the Howard Anderson Co. for special effects, to my father's ability to read, decipher and construct from those blueprint plans to what we see today, my father had a wonderfully specialized talent and this is his story to tell.

Star Trek: Cast No Shadow James Swallow, 2011-07-26 Seven years have passed since a catastrophic explosion on the Klingon moon Praxis touched off a chain of events that would result in the assassination of the reformist High Chancellor Gorkon, and the eventual creation of the historic Khitomer Accords. Now, as part of the ongoing efforts to undo the disastrous fallout from the destruction of Praxis and with the help of aid supplies from the United Federation of Planets, reconstruction is in progress, and after years of slow going hindered by political pressures and old prejudices, headway is at last being made. But the peace process begun by the Khitomer Accords is still fragile just as the deadly plans of what is believed to be a hard-line Klingon isolationist group violently come to fruition. Yet the group thought responsible for the deadly attack has been dormant for decades, and its known modus operandi doesn't match up to the manner of the strike. And further investigation leads to an unexpected revelation connected to the Gorkon conspiracy of 2293, and in particular one disgraced and very familiar Starfleet lieutenant....

Titan #1: Taking Wing Michael A. Martin, Andy Mangels, 2005-04-01 William Riker, former first officer of the USS Enterprise in Star Trek: The Next Generation, takes command of the new USS Titan in this white-knuckled adventure perfect for longtime and new Star Trek fans. After almost a decade of strife against foes such as the Borg, the Cardassians, the Klingons, and the Dominion, the United Federation of Planets is at the dawn of a new era. Starfleet is renewing its mission of peaceful exploration, diplomacy, and the expansion of knowledge. Among the starships spearheading that endeavor is the USS Titan,

commanded by Captain William T. Riker and manned by the most biologically varied and culturally diverse crew in Starfleet history. But their mission does not begin according to plan. In the wake of Star Trek: Nemesis, Praetor Shinzon, slayer of the Romulan Senate, is dead. The power vacuum created by his demise has put the Romulan Star Empire, longtime adversary of the Federation, at the brink of civil war. Competing factions now vie for control of their fragmenting civilization, and if the empire should fall, that entire area of the galaxy may destabilize. To restore order to the region, Titan's long-anticipated mission of exploration is delayed as Starfleet assigns Riker to set up power-sharing talks among the Romulan factions. But even as the first tentative steps are taken toward building a new Romulus, the remnants of the Tal Shiar, the dreaded Romulan intelligence service, are regrouping behind the scenes for a power play of their own. With no other help available, Riker and the Titan crew become the last hope to prevent the quadrant from falling into chaos.
