US Army Rangers & LRRP Units 1942-87 Gordon L. Rottman,2012-09-20 Ranger the very word conjures up visions of small, highly trained units executing lightning-fast raids on an unexpected enemy. It is also synonymous with high esprit de corps and excellence at arms. The US Army Rangers provide units of well-disciplined soldiers who possess the knowledge and courage to operate on their own, deep behind enemy lines. Gordon L. Rottman explores the history of these unique troops, starting with the original 'Rogers' Rangers' company of 1756, whose daring operations and deep penetrations of enemy-held country laid

down the pattern for all subsequent Ranger units to follow.

Rangers in Combat J. D. Lock, 2007-01 For more than 200 years, U.S. Army Rangers have fought suicidal combat missions against overwhelming odds-earning their unrivaled reputation as the world's premier close- combat warriors. In *Rangers in Combat*, Lieutenant Colonel J. D. Lock vividly brings to life the horrific battles and the heroic exploits of a special breed of men for whom valor, honor, and country mean more than life itself. Take a stand with Robert Rogers and his outnumbered Rangers during the French and Indian War. Ride with Mosby on the Soughton Raid in the Civil War. In World War II, spearhead Patton's invasion of Sicily beside the legendary William O. Darby, suicidally climb the cliffs of Pointe-du-Hoc with James Earl Rudder, or storm bloody Omaha with Max Schneider. Stand outnumbered deep in North Korea while defending Hill 205 against overwhelming hordes of Communist Chinese. And high atop a mountain in Afghanistan, fight your way out of a savage al Qaeda terrorist ambush. From the snowy forests of Upstate New York and the swamps of South Carolina, to the humid streets of Mogadishu and the snowy mountain peaks of Afghanistan, read accounts of and lessons learned from some of the most courageous, daring, and vicious ground combat in the annals of U.S. military history. Enter the combat zone with elite warriors who have helped to change the course of history.

Marines Under Armor Kenneth Estes, 2013-04-11 In this story of men, machines and missions, Kenneth Estes tells how the U.S. Marine Corps came to acquire the armored fighting vehicle and what it tried to do with it. The longtime Marine tank officer and noted military historian offers an insider's view of the Corps's acquisition and use of armored fighting vehicles over the course of several generations, a view that illustrates the characteristics of the Corps as a military institution and of the men who have guided its development. His book examines the planning, acquisition, and employment of tanks, amphibian tractors, and armored cars and explores the ideas that led to the fielding of these weapons systems along with the doctrines and tactics intended for them, and their actual use in combat. Drawing on archival resources previously untouched by researchers and interviews of both past and serving crewmen, Estes presents a unique and unheralded story that is filled with new information and analysis of the armored vehicles, their leaders, and the men who drove these steel chariots into battle. Such authoritative detail and documentation of the decisions to acquire, develop, and organize armored units in the U.S. Marine Corps assures the book's acknowledgement as a definitive reference.

Ranger Medic Handbook U S Department of Defense, 2019-11-21 Historically in warfare, the majority of all combat deaths have occurred prior to a casualty ever receiving advanced trauma management. The execution of the Ranger mission profile in the Global War on Terrorism and our legacy tasks undoubtedly will increase the number of lethal wounds. Ranger leaders can significantly reduce the number of Rangers who die of wounds sustained in combat by simply targeting optimal medical capability in close proximity to the point of wounding. Survivability of the traumatized Ranger who sustains a wound in combat is in the hands of the first responding Ranger who puts a pressure dressing or tourniquet and controls the bleeding of his fallen comrade. Directing casualty response management and evacuation is a Ranger leader task; ensuring technical medical competence is a Ranger Medic task. A solid foundation has been built for Ranger leaders and medics to be successful in managing casualties in a combat

environment. An integrated team response from non-medical personnel and medical providers must be in place to care for the wounded Ranger. The Ranger First Responder, Squad EMT, Ranger Medic Advanced Tactical Practitioner, and Ranger leaders, in essence, all Rangers must unite to provide medical care collectively, as a team, without sacrificing the flow and violence of the battle at hand. An integrated team approach to casualty response and care will directly translate to the reduction of the died of wounds rate of combat casualties and minimize the turbulence associated with these events in times of crisis. The true success of the Ranger Medical Team will be defined by its ability to complete the mission and greatly reduce preventable combat death. Rangers value honor and reputation more than their lives, and as such will attempt to lay down their own lives in defense of their comrades. The Ranger Medic will do no less. I will never leave a fallen comrade...

Ranger Unit Operations FM 7-85 Department of Defense, 2016-07-31 The 1987 Printing. This publication contains doctrinal guidelines for the employment and training of ranger units. The intended audience is intermediate and higher level commanders, staffs of those headquarters, and newly assigned officers and NCOs of the ranger regiment. It is to be used with all other published US doctrine concerning NBC operations and the climatic or geographic influences on combat. The fundamentals apply to the employment of ranger units on worldwide operations and across

the spectrum of conflict from low to high intensity warfare. This includes all aspects of the integrated battlefield: nuclear, biological, and chemical. It is not intended to apply to the employment of long-range reconnaissance patrol (LRRP) companies, even though such units carry the designation ranger. These LRRP companies, as well as the long-range surveillance company (LRSC) (corps level) and the long-range surveillance detachment (LRSD) (division level), are organized, trained, and equipped for long-range reconnaissance in enemy territory. The scope of this publication addresses the mission, organization, equipment, capabilities, limitations, planning, training, operations, and logistical support of ranger units. It describes how the ranger regiment and its subordinate battalions train, receive taskings, plan missions, task-organize, deploy, and integrate supporting elements to perform the mission. Once in combat, the ranger regiment maneuvers to accomplish the mission in the manner of other light infantry units. Ranger units make full use of published light infantry doctrinal guidance. This manual will repeat procedures or techniques contained in other publications only if necessary for understanding or continuity. This publication does not contain everything the ranger needs to know to successfully execute a unit mission. Rather, it supplements unit training and the ranger unit commander's guidance; it does not supersede it.
