Fallout: New Vegas - Strategy Guide GamerGuides.com,2015-11-07 The year is 2281 - two hundred years after the old world was eradicated by nuclear fire - and now the New California Republic has become powerful along the western coast of what used to be the United State of America. They've expanded east into Nevada, but across the Colorado river to the east a united army of tribals - Caesar's Legion - have been organized under the guise of ancient Rome. You are Courier six, an employee of the Mojave Express who has been entrusted with delivering a mysterious Platinum Chip. The delivery goes horribly awry, however, and after you are robbed and nearly killed for the package you were carrying, you must set out in pursuit of your attackers. Diary of an Airborne Ranger Frank Johnson,2001-02-27 Perhaps the most accurate story of LRRPs at war ever to appear in print! When Frank Johnson arrived in Vietnam in 1969, he was nineteen, a young soldier untested in combat like thousands of others--but with two important differences: Johnson volunteered for the elite L Company Rangers of the 101st Airborne Division, a long range reconnaissance patrol (LRRP) unit, and he kept a secret diary, a practice forbidden by the military to protect the security of LRRP operations. Now, more than three decades later, those hastily written pages offer a rare look at the daily operations of one of the most courageous units that waged war in Vietnam. Johnson served in I Corps, in northern Vietnam, where combat was furious and the events he recounts emerge, stark and compelling: walking point in the A Shau Valley, braving enemy fire to rescue a downed comrade, surviving days and nights of relentless tension that suddenly exploded in the blinding fury of an NVA attack. Undimmed and unmuddled by the passing of years, Johnson's account is unique in the annals of Vietnam literature. Moreover, it is a timeless testimony to the sacrifice and heroism of the LRRPs who dared to risk it all.

The Hacker Crackdown Bruce Sterling,2020-08-11 The bestselling cyberpunk author “has produced by far the most stylish report from the computer outlaw culture since Steven Levy’s Hackers” (Publishers Weekly). Bruce Sterling delves into the world of high-tech crime and punishment in one of the first books to explore the cyberspace breaches that threaten national security. From the crash of AT&T’s long-distance switching system to corporate cyberattacks, he investigates government and law enforcement efforts to break the back of America’s electronic underground in the 1990s. In this modern classic, “Sterling

makes the hackers—who live in the ether between terminals under noms de net such as VaxCat—as vivid as Wyatt Earp and Doc Holliday. His book goes a long way towards explaining the emerging digital world and its ethos” (Publishers Weekly). This edition features a new preface by the author that analyzes the sobering increase in computer crime over the twenty-five years since *The Hacker Crackdown* was first published. “Offbeat and brilliant.” —Booklist “Thoroughly researched, this account of the government’s crackdown on the nebulous but growing computer-underground provides a thoughtful report on the laws and rights being defined on the virtual frontier of cyberspace. . . . An enjoyable, informative, and (as the first mainstream treatment of the subject) potentially important book . . . Sterling is a fine and knowledgeable guide to this strange new world.” —Kirkus Reviews “A well-balanced look at this new group of civil libertarians. Written with humor and intelligence, this book is highly recommended.” —Library Journal
