**John Aubrey Douglass**

Neo-Bohemia Richard Lloyd,2010-06-10 Neo-Bohemia brings the study of bohemian culture down to the street level, while maintaining a commitment to understanding broader historical and economic urban contexts. Simultaneously readable and academic, this book anticipates key urban trends at the dawn of the twenty-first century, shedding light on both the nature of contemporary bohemia and the cities that house them. The relevance of understanding the trends it depicts has only increased, especially in light of the current urban crisis puncturing a long period of gentrification and new economy development, putting us on the precipice, perhaps, of the next new bohemia.

Neo Rauch: PROPAGANDA ,2019-09-03 One of the most influential figurative painters of his generation, Neo Rauch presents bold, new work in PROPAGANDA. Rauch is widely celebrated for his captivating compositions that bring together figurative painting and surrealism into an entirely new kind of visual encounter. They often hint at broader narratives and histories—seemingly reconnecting with artistic traditions of realism—but they remain dreamlike and impossible to reduce to a single story. Though his art is highly refined and executed with great technical skill, Rauch himself stresses the intuitive, deeply personal nature of how he works. As the artist notes, “My process is far less a reflection than it is drawing from the sediments of my past, which occurs in an almost trance-like state.” Eight large-scale canvases and seven smaller, more intimately scaled works continue the artist’s exploration of figuration and the ambiguous nature of meaning in visual art. In some of the larger works, the saturation of the canvas with characters, objects, and, forms, all rendered at different scales and in conflicting arrangements, creates a collage-like quality—a figurative scrapbook of Rauch’s personal iconography. The publication features a short story by acclaimed novelist and playwright Daniel Kehlmann, which was inspired by the paintings in this book. The fantastical text moves between present-day New York and an unknown time of enchanted forests, knights, and witches, exploring the many layers found in Rauch’s canvases. Published on the occasion of the artist’s solo exhibition at David Zwirner, Hong Kong in 2019, Neo Rauch: PROPAGANDA is available in both English-only and bilingual English/traditional Chinese editions.

The Neo-Generalist Kenneth Mikkelsen,Richard Martin,2019-04-11 We live in a world of hyper specialism, losing context and our connection to the surrounding region breaks down. The expertise we valued so highly has served to narrow and shorten our vision. It has blinded us to potential and opportunity. This book argues that there is the need and place for both specialist and the generalist. Currently, it feels the balance is tipped too far towards specialism, which results in too much blinkered decision-making. The authors call for people to develop into generalists. These are people who possess both a breadth and depth of skills, knowledge and experience. These are most definitely not 'jack of all trades, masters of none'. Rather, they are people who have the potential, the attitude and the aptitude to specialise in more than one discipline, and are adept at navigating the digital, networked world we inhabit today.

**Neo-nationalism and Universities** John Aubrey Douglass,2021-09-07 This book offers the first significant examination of the rise of neo-nationalism and its impact on the missions, activities, behaviors, and productivity of leading national universities. This book also presents the first major comparative exploration of the role of national politics and norms in shaping the role of universities in nation-states, and vice versa, and discusses when universities are societal leaders or followers-in promoting a civil society, facilitating talent mobility, in researching challenging social problems, or in reinforcing and supporting an existing social and political order--

NEO Power Ross Honeywill,Verity Byth,2006 The authors spent five years surveying hundreds of thousands of people and examined more than 2000 social characteristics. They identified a new economic order, or NEO, who are charting a new course and reinventing the world.

Neo-Victorianism Ann Heilmann,Mark Llewellyn,2010-07-28 This field-defining book offers an interpretation of the recent figurations of neo-Victorianism published over the last ten years. Using a range of critical and cultural viewpoints, it highlights the problematic nature of this 'new' genre and its relationship to re-interpretative critical perspectives on the nineteenth century.

**Domesticating Neo-Liberalism** Alison Stenning, Adrian Smith, Alena Rochovská, Dariusz Świątek, 2011-06-20 Based on in-depth research in Poland and Slovakia, *Domesticating Neo-Liberalism* addresses how we understand the processes of neo-liberalization in post-socialist cities. Builds upon a vast amount of new research data Examines how households try to sustain their livelihoods at particularly dramatic and difficult times of urban transformation Provides a major contribution to how we theorize the geographies of neo-liberalism Offers a conclusion which informs discussions of social policy within European Union enlargement

*Liberty Beyond Neo-Liberalism* S. Slaughter, 2005-08-02 Under the conditions of economic globalization, the prevailing liberal philosophy of governance is becoming increasingly problematic. *Liberty Beyond Neo-Liberalism* critiques three varieties of liberal engagement with the processes of globalization and their ability to temper the harmful effects of the process. Steven Slaughter proposes an alternate approach, global civic republicanism, which seeks to retrieve the civic and public character of the state in order to protect it from economic vulnerability and to constitute a resilient form of liberty.

**Ergativity and Other Alignment Types in Neo-Aramaic** Paul M. Noorlander, 2021-08-24 The alignment splits in the Neo-Aramaic languages display a considerable degree of diversity, especially in terms of agreement. While earlier studies have generally oversimplified the actual state of affairs, Paul M. Noorlander offers a meticulous and clear account of nearly all microvariation documented so far, addressing all relevant morphosyntactic phenomena. By means of fully glossed and translated examples, the author shows that this vast variation in morphological alignment, including ergativity, is unexpected from a functional typological perspective. He argues the alignment splits are rather the outcome of several construction-specific processes such as internal system harmonization and grammaticalization, as well as language contact.

Neo-Malthusianism Richard Ussher, 1897

Studies in the Grammar and Lexicon of Neo-Aramaic Geoffrey Khan, Paul M. Noorlander, 2021-01-15 The Neo-Aramaic dialects are modern vernacular forms of Aramaic, which has a documented history in the Middle East of over 3,000 years. Due to upheavals in the Middle East over the last one hundred years, thousands of speakers of Neo-Aramaic dialects have been forced to migrate from their homes or have perished in massacres. As a result, the dialects are now highly endangered. The dialects exhibit a remarkable diversity of structures. Moreover, the considerable depth of attestation of Aramaic from earlier periods provides evidence for pathways of change. For these reasons the research of Neo-Aramaic is of importance for more general fields of linguistics, in particular language typology and historical linguistics. The papers in this volume represent the full range of research that is currently being carried out on Neo-Aramaic dialects. They advance the field in numerous ways. In order to allow linguists who are not specialists in Neo-Aramaic to benefit from the papers, the examples are fully glossed.

*The Genesis of Neo-Kantianism, 1796-1880* Frederick C. Beiser, 2014 Neo-Kantianism was an important movement in German philosophy of the late 19th century. Frederick Beiser traces its development back to the late 18th century, and explains its rise as a response to three major developments in German culture: the collapse of speculative idealism; the materialism controversy; and the identity crisis of philosophy.--[Source inconneue].

Re-creating the Past: the Neo-Victorian Meaning in Sarah Waters' Neo-Victorian Novels Ariadna

SERRANO BAILÉN,2014-05-09 Desde un punto de vista cuantitativo, los estudios culturales ocupan sin duda un espacio menor. Sin embargo, los tres artículos aquí presentados dan cuenta de la variedad de perspectivas posibles dentro de este apartado. No solo abarcan estos estudios diferentes géneros literarios, sino que recorren diferentes épocas históricas, desde el renacimiento hasta nuestros días. Así, destaca la recepción de la obra de Shakespeare adaptada a los principios estéticos del siglo XVIII español, la aparición de un problema tan actual como la violencia doméstica en el teatro y el cine de mediados del siglo XX o la vinculación de posicionamientos contraculturales de la generación Beat en la música de Bod Dylan. Todos estos estudios exploran, pues, la relación entre las prácticas culturales, la vida diaria y los contextos históricos en los que se producen. Como suele ser habitual, gran parte de las contribuciones presentadas en este volumen se centran en el estudio del aprendizaje del inglés como segunda lengua, una de las principales preocupaciones del sistema educativo español en estos momentos, tanto en la etapa preuniversitaria como universitaria. Es lógico, por tanto, que estos jóvenes investigadores muestren interés por un asunto que atañe a un elevado número de estudiantes en la sociedad actual. Los estudios van desde el análisis de libros de texto utilizados en la enseñanza del inglés, para comprobar si estos textos adoptan correctamente las cuatro destrezas básicas (listening, speaking, speaking, writing) al aprendizaje de la lengua desde el punto de vista de una aproximación comunicativa, hasta la relación de la prosodia y la utilización de audífonos por parte de personas sordas o la percepción que tienen los estudiantes de la pronunciación del inglés. Como se ve, problemas muy cercanos a la realidad pedagógica. Las contribuciones literarias se centran exclusivamente en autores del siglo XX (incluida una adaptación al Londres actual de una obra de Shakespeare), pero recorren todos los géneros literarios, así como el cine. En general, estos estudios se fijan en obras concretas y las analizan desde perspectivas culturales, sociológicas o psicológicas. Podemos encontrar autores consagrados, como Theodore Roethke y Ted Hughes o escritoras más localistas, como la canadiense Jeannette Armstrong, y sobresalen miradas postmodernistas, tanto en el ámbito de la novela como del cine. En definitiva, se trata de una selección de artículos altamente prometedora, que supone un claro desafío al futuro de los Estudios Ingleses. Por todo ello, hay que felicitar a todos los participantes y, sobre todo, a los editores de este volumen, que han demostrado una enorme capacidad de trabajo y entusiasmo.

*Neo-Avant-Garde* ,2016-08-01 The neo-avant-garde of the 1950s, 60s and 70s, is due for a thoroughgoing reassessment. This collection of essays represents the first full-scale attempt to deal with the concept from an interdisciplinary standpoint. A number of essays in this book concentrate on fine art, particularly painting and sculpture, thereby adding significantly to the growing art historical literature in the field, but a number of the contributions also focus on poetry, performance, theatre, film, architecture and music. Given that there are also major essays here dealing with geographical blindspots in current neo-avant-garde studies, with thematic issues such as art's entanglement with gender, mass culture and politics, with key neo-avant-garde publications, and with the purely theoretical problems attaching to the theorisation of the topic, this collection offers a multi-dimensional approach to the subject which is noticeably lacking elsewhere. Taken together these essays represent a consolidated attempt at re-thinking the 'cultural logic' of the immediate post-World War II period.

**Incarnation and Neo-Darwinism** David O. Brown,2019-11-15 A ground-breaking theological appreciation of neo-Darwinism, arguing that evolution is not the way that God creates, but is a consequence of creatures' imitating and participating in God.

Neo-Spiritual Aesthetics Lina Aschenbrenner,2022-12-15 Tracing embodied transformation in the context of Gaga, the Israeli dance improvisation practice, this book demystifies what Lina Aschenbrenner coins as "neo-spiritual aesthetics." This book takes the reader on an analytical journey through a Gaga class, outlining the effective aesthetics of Gaga as an example for the broader field of neo-spiritualities. It distinguishes a threefold effect of Gaga practice-from a momentary extraordinary experience, to a lasting therapeutic effect, and finally Gaga's worldview potential. It situates the effect in an assemblage of interrelating aesthetics of environment, movement, and bodies. The book shows why seemingly leisure time activities such as Gaga form fruitful research objects to an

academic study of religion and opens up research on neo-spiritual practices. In understanding the sensory effect of practice and its cultural and social implications, the book follows an Aesthetics of Religion approach. It departs from the idea that cognition is embodied and that the body is thus central to understanding cultural and social phenomena. Drawing upon a wide array of data gathered in the context of Gaga at the Suzanne Dellal Center in Tel Aviv, the book weaves together different methods of discourse, ritual, movement, body knowledge, and narrative analysis, while acknowledging insights from neuroscience and cognitive science.

**The Korean Neo-Confucianism of Yi Yulgok** Young-chan Ro, 1988-07-01 This book explores the philosophical and religious dimensions of Korean Neo-Confucianism as expounded by one of the foremost Korean Neo-Confucian thinkers, Yi Yulgok (1536-1584). Yulgok's creative interpretations reformulate some fundamental issues of Confucian philosophy. This book explores the significance of the fundamental assumption which underlies the entire system of Yulgok's Confucian thought. That philosophical assumption is characterized by the author as 'non-dualistic' and 'anthropocosmic'. It is a unique aspect of Korean Neo-Confucianism which leads to a new way of understanding the Confucian world view and spirituality. This 'non-dualistic' vision sheds a new and critical light on the dialectical framework of thinking at work in Western formulations of understanding the ultimate reality, nature, the universe, and human being. The 'anthropocosmic' vision in this respect will challenge fundamental assumptions of Western theological formulation and suggest a new understanding of human nature and the universe. A 'non-dualistic' and 'anthropocosmic' interpretation of Yulgok's thought is a fruitful way of approaching the Korean way of thinking and of coming to grips with one Neo-Confucian mode of attaining human self-understanding.
