The Next Dimension Is Love Dorothy

Roeder, 1996-12-12 A TIME FOR HEALING AND TRANSFORMATION Beings from another dimension, parallel to ours and yet far beyond it, give their view about what is happening on Earth now. They speak about what it means to be an unlimited spiritual consciousness immersed in a limited physical body. They describe how our fear of anyone different limits us and why that must change if we are to survive as a race. It is our fear of change that limits our ability to reach our full potential. The primary message is humanity's special ability to love in so many ways and how much we can teach the rest of the universe about creating with love. That is our special contribution to this cosmos. Are these beings, who resemble the praying mantis, really a part of us or our higher consciousness? Topics include: Are we masters of our own destiny? Do we control our own lives? Is there purpose in what we do on Earth? What is going on and what does it mean?

Revelation Greg Laurie, 2020-04-15 What on Earth will Happen? When God predicts the future, He isn't taking a risk or going out on a limb. He knows that future already. With Him, it's already an established fact. He doesn't just forecast the future, He has been there. In fact, He's there right now, just as surely as He is with us in the present moment. The Book of Revelation allows us to glimpse realities that are outside of time, in the eternal realm. It reminds us that our God lives in that eternal reality, and isn't bound by the pages in a calendar, the hours in a day, or

the hands on a clock. He has no yesterday or tomorrow, because it's all just a continuum to Him. God can look at the future with as much clarity and accuracy as you and I might look at the recent past. God has perfect recollection and perfect foresight. When He says that a certain event will happen, it's as though it has already taken place. From our point of view, time seems to stretch on and on, but God isn't affected at all by the duration of time. As Peter noted, A day is like a thousand years to the Lord, and a thousand years is like a day (2 Peter 3:8, NLT). Greg Laurie In this exciting, comprehensive overview of the New Testament's final book, Greg Laurie shares insights drawn from a lifelong study of Bible prophecy and how it intersects with today's headlines

Electronic Projects from the Next Dimension

Newton C. Braga, 2001 For years paranormal scientists have explored the detection and documentation of spirits, auras, ESP, hypnosis, and many more phenomena through electronics. Electronic Projects from the Next Dimension provides useful information on building practical circuits and projects, and applying the knowledge to unique experiments in the paranormal field. The author writes about dozens of inexpensive projects to help electronics hobbyists search for and document their own answers about instrumental transcommunication (ITC), the electronic voice phenomenon (EVP), and paranormal experiments involving ESP, auras, and Kirlian photography. Although paranormal studies are considered esoteric, Electronic Projects from the Next Dimension teaches the technical skills needed to make devices that can be used in many different kinds of experiments. Each section indicates how the circuit can be used in paranormal experiments with suggestions about procedures and how to analyze the results. Provides unique projects for

believers and skeptics Perfect for any level of electronics experience Learn from these basics projects and design your own applications

The Next Dimension John Dillard, 2010-01-13 LEVON WILLIAMS is still recovering from the events of the previous Spring when his girlfriend, Daniela, was kidnapped by agents of an underworld cartel. Despite what they have been through they decide to take a vacation to work on their future together. While in Cairo the couple purchase a statute of an Egyptian cat at a local market. Later that evening, Levon accidentally knocks it over and breaks it revealing a parchment that has been hidden inside for hundreds of years. The parchment has unusual markings on it and is made out of a strange material. A local Egyptologist notices them with the parchment one evening at a local cafe and offers her assistance. With her help they are able to translate the writings which reveal coordinates that identifies a location nearby in a ruin of pyramids. At the site they discover ancient artifacts including an unusual metallic box that may be of alien origin. The couple's world soon becomes more complicated as they seek to find answers about the items they have discovered. While experimenting with the box they inadvertently draw the attention of an international cartel that has been searching for the box for decades. Forced to flee for their own

safety, they head to a small village in Normandy where Daniela grew up. There the pot starts to boil as they begin to accept the truth about the ancient artifacts and why others are so intent on acquiring them. But in the process it also becomes less clear who they can trust as one person becomes pitted against another. The story takes the reader on an adventurous ride through a plot that is peppered with deceit, triangulation and manipulation by colleagues and foes alike. In the end Daniela must make a decision that she knows will change her life forever. A Note From The Author: All proceeds from the sale of my book will be donated to the Animal Compassion Network in memory of my beloved Cinnamon in support of no kill animal shelters.

Electronic Voices: Contact with Another

Dimension? Anabela Cardoso, 2010 This is the story of a normal woman who experienced the impossible objective contacts with another dimension through loud and clear voices received by electronic means during Instrumental Transcommunication (ITC) experiments. Dr Cardoso, a senior diplomat, describes the astounding experiences that transformed her life since she started ITC research in 1997. She presents extracts of conversations with her deceased loved ones and other personalities who insisted that they live in another world. The level of agreement between communications received by the author and

concepts, even words, recorded by other experimenters from Jrgenson and Raudive to contemporary operators, constitutes compelling evidence of the reality of the next world that awaits us all. As communicators from Timestream told Dr Cardoso: The dead pass through here, you pass through here!. Electronic Voices breaks new ground in the literature

Finding Love in Another Dimension Casper Graham, [Siren Menage Amour: Erotic Romance, Futuristic, Alternative, Menage, MMM, HEA] Darryl Long is a weak dimension explorer. Exploring dimensions is risky so it isn't easy for him to find assignments to earn money. When he discovers that Leofric Spencer and Titus Cooke, two of the most famous and strongest dimension explorers need someone who can create a pocket dimension to carry their things, he signs up for the assignment because he has that ability. It's nothing more than a glorified porter, but he needs the money. Leofric and Titus are boyfriends. They're both attracted to Darryl. Leofric prefers to be more direct, but Titus doesn't agree because he's afraid they may end up scaring Darryl away. After spending time together in another dimension, the three men grow closer. Unfortunately, they encounter a ferocious group of demonic dragons. They must defeat the dragons while working on their relationship, but that's easier said than done. Will the three men survive and return home as lovers?

M—Could You Be on Another Dimension? Alfonso Borello, COULD YOUR DOUBLE live somewhere on another universe? Could you live a slightly different life at this very moment? Could another world truly exist? Experts believe there are a myriad of things out there; more than our eyes can see. Have you ever heard the term parallel universe? At least four types could dwell, and one is just around us. More are believed to float around the cosmos like bubbles with no sense of direction. They occupy the same time on different dimensions, and are totally invisible to our eyes.
