Girls Aloud: They're Stylish and They've Got Attitude - This is the Story of Britain's Best Girl Band Jen Crothers, 2007-09-30 Musicians who find fame on reality TV are supposed to provide a bit of entertainment and then fade away - not have three UK Top 10 albums and more than a dozen UK Top 10 singles. Maybe someone forgot to tell Girls Aloud the rules. November 2002 saw the birth of the most successful reality TV-formed pop band in UK chart history - but little did the triumphant daughters of Popstars: The Rivals know what was in store. Cheryl Tweedy, Nicola Roberts, Nadine Coyle, Kimberley Walsh and Sarah Harding, in their new guise as Girls Aloud, stormed to the coveted Christmas number one slot with 'Sound Of The Underground', consigning their rivals, One True Voice, to eternal oblivion. Stomping a stiletto-heeled shoe in the face of the pop landscape, Girls Aloud instantly changed what manufactured pop acts were about - with the talents of Brian Higgins' Xenomania behind their full frontal assault on the charts, Girls Aloud were unstoppable...and four-and-a-half-years, still were. The feisty fivesome proved right from the beginning that their unique and unabashed brand of punky girl-power pop would set the charts alight, and the Top 540 would never be the same again. But it hasn't always been straightforward for the girls. It was a hard slog to win over some sneering music critics, and when Cheryl was charged with assault after attacking a toilet attendant in a nightclub, some feared it would spell the end of the group's success. In true Girls Aloud style, however, the lovely ladies bounced back stronger than ever, hailed as the saviours of pop with a salvo of killer tunes and a bucketload of attitude. With the release of their greatest hits album in the autumn of 2006, rumours suggested the band were going to split up, but if anything they're better than ever. Now you can read the full story.

Reach for the Stars: 1996-2006: Fame, Fallout and Pop's Final Party Michael Cragg,2023-03-30 A Times Book of the Year A Telegraph Book of the Year A Guardian Book of the Year A Rock 'n' Roll Book Club Book of the Year A Guardian 50 Best Holiday Reads An Independent Book of the Year A Mojo Music Book of the Year A Resident Book of the Year A Classic Pop Book of the Year 'This really is a wonderful book for pop kids everywhere' - RICHARD OSMAN Using the arrival of the Spice Girls as a jumping-off point, this fascinating new narrative will explore, celebrate and contextualise the thus-far-uncharted period of British pop that flourished between 1996 and 2006. A double-denim-loving time before the glare of social media and the accession of streaming. The bastions of '00s pop - armed with buoyant, immaculately crafted, carefree anthems - provided entertainment, escapism and fun for millions. It was a heady, chorus-heavy decade - populated by the likes of Steps, S Club 7, Blue, 5ive, Mis-Teeq, Hear'Say, Busted, Girls Aloud, McFly, Craig David and Atomic Kitten, among countless others - yet the music was often dismissed as inauthentic, juvenile, not 'worthy' enough: ultimately, a 'guilty pleasure'. Now, music writer Michael Cragg aims to redress that balance. Using the oral-history format, Cragg goes beneath the surface of the bubblegum exterior, speaking to hundred's of the key players about the reality of their experiences. Compiled from interviews with popstars, songwriters, producers, choreographers, magazine editors, record-company executives, TV moguls and more, this is a complete behind-the-scenes history of the last great movement in British pop - a technicolour turning-point ripe for re-evaluation, documented here in astonishing, honest and eye-opening detail.

Mom Jeans and Other Mistakes Alexa Martin,2021-09-07 "The kind of book that's destined to be passed from friend to friend.—PopSugar Two best friends say I do to living together, for better or worse, in this bold women's fiction novel from Alexa Martin. Jude Andrews is famous. Well, at least on Instagram. Her brand is clean eating, good vibes, Pilates, and casually looking like a sun-kissed goddess. In real life, however, she's a total disaster. She has a strained relationship with her fame-hungry mom and her latest bad decision emptied out her entire savings account. Lauren Turner had a plan: graduate medical school and become the top surgeon in the country. But when she became unexpectedly pregnant, those plans changed. And when her fiancé left her, they changed again. Now navigating the new world of coparenting, mom groups, and dating, she decides to launch a mommy podcast with all the advice she wishes someone had given her. Jude and Lauren don't have much in common, but maybe that's why they've been best friends since the third grade. Through ups and downs, they've been by each other's sides. But now? They're broke, single, and do the only thing that makes sense—move in together, just like they talked about when they were teenagers. Except when they were younger, the plan didn't include a five-year-old daughter and more baggage than their new townhouse can hold.

Fashioning Professionals Leah Armstrong,Felice McDowell,2018-02-08 From artist to curator, couturier to fashion blogger, 'creative' professional identities can be viewed as social practices, enacted, performed and negotiated through the media, the public, and industry. Fashioning Professionals addresses what it means to be a creative professional, historically and in the digital age, as new ways of working and doing business have given rise to new professional identities. Bringing together critical reflections from international researchers, the book spans fashion, design,

art, architecture, and advertising. It examines both traditional and emergent roles in creative industries, from advertising executives and surrealist artists to mannequin designers, pop stylists, bloggers, makers and design curators. The book reveals how professional identities are continually in a state of fashioning, through style, taste, gender and cultural representation, highlighting moments of friction and flux in the creative labour of the global economy. Interweaving critical perspectives from fashion and design history with sociology and cultural theory, *Fashioning Professionals* addresses a burgeoning area of research as we enter new terrain in fashion and the creative industries.

A Battle for Neutral Europe Edward Corse, 2012-12-18 *A Battle for Neutral Europe* describes and analyses the forgotten story of the British government's cultural propaganda organization, the British Council, in its campaign to win the hearts and minds of people in neutral Europe during the Second World War. The book draws on a range of previously unused material from archives from across Europe and private memoirs to provide a unique insight into the work of the leading British artists, scientists, musicians and other cultural figures who travelled to Spain, Portugal, Sweden and Turkey at great personal risk to promote British life and thought in a time of war. Edward Corse shows how the British Council played a subtle but crucial role in Britain's war effort and draws together the lessons of the British Council experience to produce a new model of cultural propaganda.

The Serendipity of Hope Simon Lee, Ian S. Markham, 2023-07-07 Institutions are very precious. If any idea is going to persist into the future, then it needs an institution to keep it going. Each of us comes to understand, often only gradually over the decades, how some influences from our earlier life have affected us. Some will have been inspiring. Some will have given us direct models of how to behave or how not to behave. Indeed, it

is often the case that the deeper an influence turns out to have been, in the long run, the less likely it is that we noticed it at the time it was happening. For this reason, it has become necessary to find the time to reflect on and express gratitude for the institutions that helped form who we are and the work that we do. This collection of essays explores the impact of one institution on twenty-five participants, twenty-five years after we worked together. The Institution was Liverpool Hope University College and is now Liverpool Hope University. By telling and reflecting on our stories, we aim to encourage others to think about their own experiences and, ultimately, our earnest hope is that a greater awareness of this aspect of university life will help to transform our collective understanding of the nature of universities in particular, and of communities, institutions, or societies in general. But there was something special about belonging to a community called Hope.

Decisions require a careful weighing of risks and benefits and contextualizing in-depth ethical analysis with robust empirical data. However, up to now, research on social assistive technologies is mostly dispersed over different academic fields and disciplines. A comprehensive overview on discussions regarding values at stake and ethical assessment of recent developments especially in healthcare is largely missing. This publication initiates an interdisciplinary discourse on ethical, legal and social implications of socially assistive technologies in healthcare. Contributions include perspectives from nursing science, social sciences, philosophy, medical ethics, economics and law to present an - to our knowledge - first and comprehensive overview on different aspects of the use and implementation of socially assistive technologies from an ethical perspective. It combines practically relevant insights and examples from current research and development with ethical analysis to uncover exemplary moral tipping points between promotion of participation or well-being and risks and damages to these values. Healthcare professionals involved in implementation of smart technologies as well as scholars from the field of humanities, nursing and medicine, interested in the discussions on ethics and technology in healthcare, will benefit from this new contribution. The publication is part of the international DigitAs conference Aging between Participation and Simulation - Ethical Dimensions of Socially Assistive Technologies held at the Institute of Medical Ethics and History of Medicine (Ruhr University Bochum) from 4 February to 8 February 2019. Within this framework, twelve young scholars were invited to discuss their contributions with renowned experts in the field. The Institute of Medical Ethics and History of Medicine is one of the leading institutes in empirically informed ethical analysis in healthcare and medicine and is a member of the European Association of Centres of Medical Ethics (EACME).
