Curse Undone Brandie June, 2022-10-04 Two crowns. Two kingdoms. One chance to rule. Nor and King Casper are captured by the fay army and forced to face the indomitable Faerie Queen, Marasina. At her command, Casper is thrown into a mysterious prison while an even sinister fate is in store for Nor—a deadly fay poison that reveals Nor’s true nature. She’s not only half-fay. She is

Queen Marasina's heir. Revealed to be like the very creatures she despises, Nor must not only find a way to free Casper but also navigate a court that is as deadly as it is beautiful. Her allies are few, and though Pel claims to want friendship, Nor finds she cannot forgive his betrayal. As tensions mount and war looms between the kingdoms, Nor must choose a side, before it's too late. In this epic conclusion to the Gold Spun duology, Nor discovers that a glamour and a curse may be two sides of the same coin.

Nova Samuel R. Delany, 2014-01-07 A quest for a priceless element—and revenge—fuels this far-future interstellar adventure that “reads like Moby-Dick at a strobe-light show” (Time). In 3172, the universe is divided between three political units: the stars and worlds of Draco, with Earth as its power

center; the Pleiades Federation, on whose capital world, New Ark, lives the incredibly wealthy Von Ray family, descended from well-heeled merchants whose ancestors made their fortune as pirates; and the Outer Colonies, where, in their underwater mines, tiny quantities of the fabulously valuable Illyrion have been discovered. Lorq Von Ray was a playboy and young space-yacht-racing captain who, at a party at Earth's Paris, clashed with Draco's Prince Red. This sets Lorq on a demonic quest, through which he hopes to find vengeance. When a star goes nova and implodes, in the seething stellar wreckage for a few days—even hours—lie tons of Illyrion, the element that makes interstellar travel possible. To help him secure the priceless fuel, Lorq recruits a gypsy musician, a would-be novelist, and some other ragtag misfits. But an even more dangerous fuel than Illyrion is revenge . . . This ebook features an illustrated biography of Samuel R. Delany including rare images from his early career.

The Magic Fish Trung Le Nguyen, 2020-10-13 NAMED ONE OF THE BEST BOOKS OF THE YEAR by New York Public Library • Kirkus Reviews • Booklist • Publishers Weekly In this gorgeous debut graphic novel, fairy tales are the only way one boy can communicate with his Vietnamese immigrant parents. But how will he find the words to tell them that he's gay? A powerful read about family, identity and the enduring magic of stories. "One of the most astounding graphic novels of the year —Entertainment Weekly Tien and his mother may come from different cultures—she's an immigrant from Vietnam still struggling with

English; he's been raised in America—but through the fairy tales he checks out from the local library, those differences are erased. But as much as Tien's mother's English continues to improve as he reads her tales of love, loss, and travel across distant shores, there's one conversation that still eludes him—how to come out to her and his father. Is there even a way to explain what he's going through in Vietnamese? And without a way to reveal his hidden self, how will his parents ever accept him? This beautifully illustrated graphic novel speaks to the complexity of family and how stories can bring us together even when we don't know the words. "A lyrical masterpiece." –BuzzFeed

Princess of Thorns Stacey Jay, 2014 After ten years of exile among fairies who teach her to use her magically-enhanced strength and courage, Sleeping Beauty's daughter Aurora enlists the help of Niklaas, eleventh son of King Eldorio, in the fight to reclaim her throne.

The Dire Days of Willowweep Manor Shaenon K. Garrity, 2021-07-20 Nimona meets Paper Girls with a literary twist in this wickedly funny graphic novel about a teenager who is swept up in a strange new universe and must save it from an all-consuming evil in order to return home. One dark and stormy night, Haley sees a stranger drowning in the river. Since her greatest passion is Gothic romance novels, she knows her moment has come. But when

Haley leaps into the water to rescue the stranger, she awakens in Willowweep. It certainly looks like the setting of one of her favorite books: A stately manor. A sinister housekeeper. Three brooding brothers. There's even a ghost. Except Willowweep is not what it seems. Its romantic exterior hides the workings of a pocket universe—the only protection our world has against a great force of penultimate evil, and its defenses are crumbling. Could cruel fate make Haley the heroine that Willowweep needs?

Nothing Can Possibly Go Wrong Prudence Shen, 2013-05-07 You wouldn't expect Nate and Charlie to be friends. Charlie's the laid-back captain of the basketball team, and Nate is the neurotic, scheming president of the robotics club. But they are friends, however unlikely—until Nate declares war on the cheerleaders. At stake is funding that will either cover a robotics competition or new cheerleading uniforms—but not both. It's only going to get worse: after both parties are stripped of their funding on grounds of abominable misbehavior, Nate enrolls the club's robot in a battlebot competition in a desperate bid for prize money. Bad sportsmanship? Sure. Chainsaws? Why not. Running away from home on Thanksgiving to illicitly enter a televised robot death match? Of course! In Faith Erin Hicks' and Prudence Shen's world of high school class warfare and robot death matches, Nothing can possibly go wrong.

The Oxford Handbook of Comic Book Studies Frederick Luis Aldama, 2020-04-01 Comic book studies has developed as a solid academic discipline, becoming an

increasingly vibrant field in the United States and globally. A growing number of dissertations, monographs, and edited books publish every year on the subject, while world comics represent the fastest-growing sector of publishing. The Oxford Handbook of Comic Book Studies looks at the field systematically, examining the history and evolution of the genre from a global perspective. This includes a discussion of how comic books are built out of shared aesthetic systems such as literature, painting, drawing, photography, and film. The Handbook brings together readable, jargon-free essays written by established and emerging scholars from diverse geographic, institutional, gender, and national backgrounds. In particular, it explores how the term global comics has been defined, as well the major movements and trends that will drive the field in the years to come. Each essay will help readers understand comic books as a storytelling form grown within specific communities, and will also show how these forms exist within what can be considered a world system of comics.
