Naomi Osaka Ben Rothenberg,2024-01-09 A deeply reported, revealing biography of tennis phenomenon and activist Naomi Osaka, telling the untold story behind her Grand Slam-winning career, her headline-making advocacy for racial justice and mental health, and the challenges of a life in the international spotlight. Naomi Osaka is everywhere, but how did she get there? Most tennis fans were introduced to Naomi Osaka as they watched her win the 2018 US Open final in an unforgettably controversial and dramatic victory over her idol, Serena Williams. Since then, Osaka has galvanized the tennis world--and gained attention across the culture--not only by winning three more Grand Slams, but by finding her voice. Her extraordinary talent and unique blend of power and vulnerability have propelled her to the top of her sport and onto the front page of newspapers and magazines worldwide. She became the highest-paid female athlete in history and one of the most discussed, at the cultural crossroads on myriad social issues. But until now, the story of the Haitian Japanese American Osaka family's journey across the world to follow their tennis dreams—and how their youngest daughter found her power off the court—has remained little known. It is a story unlike any other, and Ben Rothenberg's biography not only shows where Osaka came from but also where she's going as she returns to competitive tennis after a year on maternity leave. Through a riveting exploration of the ways Osaka has changed the game on and off the court, Rothenberg details the incredible impact Osaka has had in the arenas of sports, media, business, social justice, and mental health.

Japanese Inward Investment in UK Car Manufacturing Young-Chan Kim,2018-02-06 This title was first published in 2002. This compelling text provides fresh insight into an area that is often touched upon, but rarely examined in any great detail - the relationship between Multinational Enterprises (MNEs) and their host governments. Taking Japanese Foreign Direct Investment (FDI) strategy, arguably the model of FDI, Young-Chan Kim takes a revealing look at why the United Kingdom (UK) has dominated among the EU member states for FDI destination, while ironically losing its nationalized car manufacturers. Scholars of business history, international business and business economics will find this work invaluable.

The Automotive Industry and European Integration A. J. Jacobs,2019-08-07 This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

Clarkson on Cars Jeremy Clarkson,2007-06-20 Jeremy Clarkson gets under the bonnet in Clarkson on Cars - a collection of his motoring journalism. Jeremy Clarkson has been driving cars, writing about them and occasionally voicing his opinions on the BBC's Top Gear for twenty years. No one in the business is taller. In this collection of classic Clarkson, stretching back to the mid-1980s, he's pulled together the car columns and stories with which he made his name. As coal mines closed and house prices exploded to a soundtrack of men in make-up playing synthesizers, Jeremy was already waxing lyrical on topics as useful and diverse as: * The perils of bicycle ownership * Why Australians - not Brits - need bull bars * Why soon only geriatrics will be driving BMWs * The difficulty of deciding on the best car for your wedding * Why Jesus's dad would have owned a Nissan Bluebird * And why it is that bus lanes cause traffic jams Irreverent, damn funny and offensive to almost everyone, this is writing with its foot to the floor, the brake lines cut and the speed limit smashed to smithereens. Sit back and enjoy the ride. Praise for Jeremy Clarkson: 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you in stitches' Time Out 'Very funny . . . I cracked up laughing on the tube' Evening Standard

Japan and the European Periphery James Darby,2016-07-27 The book describes Japanese economic links with peripheral regions in Europe. Focusing particularly on manufacturing investment, the impact of Japanese firms is assessed against a background of increasing European economic integration. The uneven distribution of Japan's economic presence in Europe is emphasised, as is the importance of core economic regions for future investment activity. The growing importance of core regions is then linked to emerging patterns in the growth of science-based industries, as well as efforts by national and regional agencies to attract inward investment.

125 RUS Anna Efimenko,2021-01-29 A man with a mythical name and sealed lips goes into the unknown. Mystery of Primorye penetrates into him through A - Airport and a voice from a voice recorder, B - Bagulnik flowers and Bays with the ancient Chinese names; C - the city of Vladivostok surrounded by the ocean, where one can sometimes get lost on edge of reality and fiction, as if in an inaccurate reflection of sea water... Will we find out what really happened? Can we dare to get to the last letter of the alphabet?

Kenya Gazette ,2005-07-08 The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week.

Car-tastrophes Honest John,George Fowler,2016-10-15 Automakers are as prone to turn out clunkers as politicians are to lie. Their cars may be ugly, misconceived, badly built, diabolical to drive, ridiculously thirsty, or just plain unreliable. So which were the worst of the past 20 years?

Autocar & Motor ,1994-06

A Profile of the Automobile and Motor Vehicle Industry James M. Rubenstein,2014-01-31 The motor vehicle industry is one of the world's largest. More than 1 billion vehicles are in use around the world, and 80 million are produced and sold annually. Motor vehicles—including passenger cars, trucks, and commercial vehicles such as buses and taxis—are the principal means by which people and goods are transported within and among most communities in the world. This book details the history of the motor vehicle and of the leading carmakers. Inside, you'll learn just how cars are made and sold; the leading suppliers of parts that go into a car; the increasing role of government in regulating vehicles; and future challenges for the industry. The motor vehicle industry includes corporations that design, develop, and manufacture cars and trucks. These carmakers, such as Ford and Toyota, are among the world's most-familiar corporate brands. The motor vehicle industry also encompasses lesser-known businesses, including several thousand parts makers, tens of thousands of retailers, and specialized lending agencies. The importance of the motor vehicle industry transcends even its central role in the global economy. The industry was responsible for many of the fundamental innovations of 20th century production, such as corporate organization, manufacturing processes, and labor relations, as well as sales innovations including product branding and consumer financing. In the 21st century, the motor vehicle industry has been a leader in adopting new production strategies and expanding into new markets.

Proceedings of the 7th International Conference on Kansei Engineering and Emotion Research 2018 Anitawati Mohd

Lokman,Toshimasa Yamanaka,Pierre Lévy,Kuohsiang Chen,Shinichi Koyama,2018-03-13 The proceedings gather a selection of refereed papers presented at the 7th International Conference on Kansei Engineering and Emotion Research 2018 (KEER 2018), which was held in Kuching, Malaysia from 19 to 22 March 2018. The contributions address the latest advances in and innovative applications of Kansei Engineering and Emotion Research. The subjects include: Kansei, Emotion and Games Kansei, Emotion and Computing Kansei, Emotion and Wellbeing / Quality of Life Kansei, Emotion and Design Kansei, Emotion and Health / Ergonomics Kansei, Emotion and Multidisciplinary Fields Kansei, Emotion and Culture Kansei, Emotion and Social computing Kansei, Emotion and Evaluation Kansei, Emotion and User Experience The book offers a valuable resource for all graduate students, experienced researchers and industrial practitioners interested in the fields of user experience/usability, engineering design, human factors, quality management, product development and design.

Light and Heavy Vehicle Technology M J Nunney,2007-01-18 Light and Heavy Vehicle Technology, Fourth Edition, provides a complete text and reference to the design, construction and operation of the many and varied components of modern motor vehicles, including the knowledge needed to service and repair them. This book provides incomparable coverage of both cars and heavier vehicles, featuring over 1000 illustrations. This new edition has been brought fully up to date with modern practices and designs, whilst maintaining the information needed to deal with older vehicles. Two entirely new sections of the book provide a topical introduction to alternative power sources and fuels, and battery-electric, hybrid and fuel-cell vehicles. More information on the latest developments in fuel injection, diesel engines and transmissions has also been added. An expanded list of technical abbreviations now contains over 200 entries – a useful resource for professional technicians in their day-to-day work. This book is an essential textbook for all students of automotive engineering, particularly on IMI / C&G 4000 series and BTEC courses and provides all the underpinning knowledge required for NVQs to level 3. By bridging the gap between basic and more advanced treatments of the subject, it also acts as a useful source of information for experienced technicians and technically minded motorists, and will help them to improve their knowledge and skills.

The Art of Driving Ong Zhong Hsien,2015-05-12 This is an e-Book giving you some guidelines on driving, saving fuel and buying a car.

International Marketing Stanley Paliwoda,Michael Thomas,2013-11-05 The third edition of an established text, this book provides comprehensive treatment of international marketing issues and includes expanded coverage of Eastern Europe and the Pacific Rim. New for this edition are the expanded use of mini cases within the text to illustrate the latest developments in marketing, together with expanded coverage of: South East Asia and the Pacific Rim, Central and Eastern Europe, Globalization, Culture, Financial aspects of marketing. Included throughout are self-assessment and discussion questions, key terms, references and bibliography.

Automotive Engineering International ,1999

Global Competitive Strategy Daniel F. Spulber,2007-07-02 Globalization has fundamentally changed the game of business. Strategic frameworks developed for the analysis of purely domestic business necessarily fall short in the international business context. Managers and business students require alternative approaches to understand and cope with these far-reaching changes. We must learn to think globally in order to succeed. Global Competitive Strategy shows how we can do this by providing a unique set of strategic tools for international business. Such tools include the 'star analysis' that allows strategy makers to integrate geographic information with market information about the global business environment. Also introduced is the 'global value connection' that shows managers how to account for the gains from trade and the costs of trade. Aimed at MBA students taking courses in international strategy, consultants and practising managers with responsibility for strategic development, this 2007 book offers a comprehensive strategic framework for gaining competitive advantage in the global marketplace.

European Workshop on Structural Health Monitoring Piervincenzo Rizzo,Alberto Milazzo,2022-06-15 This volume gathers the latest advances, innovations, and applications in the field of structural health monitoring (SHM) and more broadly in the fields of smart materials and intelligent systems, as presented by leading international researchers and engineers at the 10th European Workshop on Structural Health Monitoring (EWSHM), held in Palermo, Italy on July 4-7, 2022. The volume covers highly diverse topics, including signal processing, smart sensors, autonomous systems, remote sensing and support, UAV platforms for SHM, Internet of Things, Industry 4.0, and SHM for civil structures and infrastructures. The contributions, which are published after a rigorous international peer-review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaboration among different specialists.
