NINU Mady Menon, 2020-08-25 A Saga of the Wanchos of Arunachal Pradesh; A proud tribe of head hunters. An attack at Ninu in 1875 left many of a British Survey team dead. The British totally isolated the Wanchos until India gained independence. Today these tribals are a proud, modern and vibrant society. This is their story; a historical story never told before. A tale of beautiful Arunachal Pradesh, its evolution as a state; and of its many tribes. Shawang is the fictitious protagonist. He and his wife, Chanyo, tell you of Wancho life and how they progressed. The people went from primitivity to prosperity; from animism to Christianity. Stories of Bamboo Flowering, Badminton, Assam Rifles, the Naga rebels and of the Stillwell Road to China add interest. These are all woven into this unique story. For better understanding, the story covers Assam's incredible history in brief. This story is a historical treasure to understand the North East. It is invaluable for teachers, school students and historians. It will interest Army men and administrators, both in Arunachal and all over India. Do wait for the twist at the end to travel back in history.

Variation in Indigenous Minority Languages James N. Stanford, Dennis Richard Preston, 2009 Indigenous minority languages have played crucial roles in many areas of linguistics - phonetics, phonology, morphology, syntax, typology, and the ethnography of communication. Such languages have, however, received comparatively little attention from quantitative or variationist sociolinguistics. Without the diverse perspectives that underrepresented language communities can provide, our understanding of language variation and change will be incomplete. To help fill this gap and develop broader viewpoints, this anthology presents 21 original, fieldwork-based studies of a wide range of indigenous languages in the framework of quantitative sociolinguistics. The studies illustrate how such understudied communities can provide new insights into language variation and change with respect to socioeconomic status, gender, age, clan, lack of a standard, exogamy, contact with dominant majority languages, internal linguistic factors, and many other topics.

And They Left... Lubin Doe, 2022-04-14 This book will appeal to the curiosity of people interested in the movements of the Ewe population from ancient Egypt to its present location straddling three Western African countries, namely Benin (formerly Dahomey), Togo, and Ghana (formerly Gold Coast). The book also highlights the saga of an Anlo couple fleeing from the mysterious death of their children in Tegbi, a coastal Ghanaian village, the origin of the husband. It chronicles social, religious, and political life in the late 1800s and early 1900s in Mission Tove, a Togolese hamlet where husband and wife ultimately settled and begat their two surviving children. A window is also opened into the life of the descendants of one of these children representing the ninth generation of Togbi Atsu Madokpui Wenya, the leader of the Ewes who founded the Anlo community in the Gold Coast.

Economic and Social Implications of Information and Communication Technologies Bayar, Yilmaz, Karabetyan, Lina, 2022-12-19 Enormous developments have been made in the field of information and communication technologies

(ICT) during the past four decades as ICT has spread rapidly in the world and become a significant part of daily life for economic units. ICT development and penetration are continuing to affect all aspects of societies and have led to significant changes in almost all disciplines such as education, environment, economics, management, energy, health, and medical care.

Covering key topics such as sustainability, public health, and economic growth, this reference work is ideal for managers, industry professionals, researchers, scholars, practitioners, academicians, instructors, and students.

Artificial Intelligence Applications to Smart City and Smart Enterprise

Donato Impedovo, Giuseppe Pirlo, 2020-11-23 Smart cities operate under more resource-efficient management and economy than ordinary cities. As such, advanced business models have emerged around smart cities, which led to the creation of smart enterprises and organizations that depend on advanced technologies. This book includes 21 selected and peer-reviewed articles contributed in the wide spectrum of artificial intelligence applications to smart cities. Chapters refer to the following areas of interest: vehicular traffic prediction, social big data analysis, smart city management, driving and routing, localization, safety, health, and life quality.

Grace Hopper and the Invention of the Information Age Kurt W.

Beyer, 2012-02-10 The career of computer visionary Grace Murray Hopper, whose innovative work in programming laid the foundations for the user-friendliness of today's personal computers that sparked the information age. A Hollywood biopic about the life of computer pioneer Grace Murray Hopper (1906-1992) would go like this: a young professor abandons the ivy-covered walls of academia to serve her country in the Navy after Pearl Harbor and finds herself on the front lines of the computer revolution. She works hard to succeed in the all-male computer industry, is almost brought down by personal problems but survives them, and ends her career as a celebrated elder stateswoman of computing, a heroine to thousands, hailed as the inventor of computer programming. Throughout Hopper's later years, the popular media told this simplified version of her life story. In *Grace Hopper and the Invention of the Information Age*, Kurt Beyer reveals a more authentic Hopper, a vibrant and complex woman whose career paralleled the meteoric trajectory of the postwar computer industry. Both rebellious and collaborative, Hopper was influential in male-dominated military and business organizations at a time when women were encouraged to devote themselves to housework and childbearing. Hopper's greatest technical achievement was to create the tools that would allow humans to communicate with computers in terms other than ones and zeroes. This advance influenced all future programming and software design and laid the foundation for the development of user-friendly personal computers.

Children's Issues United States. General Accounting Office, 1990 Presents a comprehensive report of GAO's activities since 1980 on children's issues. The categories of work include child day care, child welfare and social services, education, health, housing, income security, nutrition, youth employment and training, and other family issues.

Safety and Health Handbook for Cytotoxic Drugs Samuel J. Murff, 2012 Many Healthcare workers must deal on a daily basis with the transportation,

preparation, storage, clean up, and disposal of cytotoxic drugs, which are used in chemotherapy because of their harmful effect on cancer cells. These drugs also have harmful effects on good cells, and they therefore pose a significant health risk to those who work with them. Yet there is little safety and health information available about them, and what information is available is scattered across a vast array of literature. The Safety and Health Handbook for Cytotoxic Drugs collects this information so that healthcare workers can better understand the drugs they work with and the safety and health procedures that should be followed. In it, author Samuel J. Murff presents comprehensive technical and procedural information on 106 of the most common cytotoxic drugs. The book provides guidance on quickly dealing with spills, reducing unnecessary exposure, and complying with pertinent regulations and standards in order to better equip healthcare workers to maintain a safe work environment.
