Pounder's Marine Diesel Engines and Gas Turbines Doug Woodyard, 2009-08-18

Since its first appearance in 1950, Pounder's Marine Diesel Engines has served seagoing engineers, students of the Certificates of Competency examinations and the marine engineering industry throughout the world. Each new edition has noted the changes in engine design and the influence of new technology and economic needs on the marine diesel engine. Now in its ninth edition, Pounder's retains the directness of approach and attention to essential detail that characterized its predecessors. There are new chapters on monitoring control and HiMSEN engines as well as information on developments in electronic-controlled fuel injection. It is fully updated to cover new legislation including that on emissions and provides details on enhancing overall efficiency and cutting CO2 emissions. After experience as a seagoing engineer with the British India Steam Navigation Company, Doug Woodyard held editorial positions with the Institution of Mechanical Engineers and the Institute of Marine Engineers. He subsequently edited The Motor Ship journal for eight years before becoming a freelance editor specializing in shipping, shipbuilding and marine engineering. He is currently technical editor of Marine Propulsion and Auxiliary Machinery, a contributing editor to Speed at Sea, Shipping World and Shipbuilder and a technical press consultant to Rolls-Royce Commercial Marine. *

Helps engineers to understand the latest changes to marine diesel engines *

Careful organisation of the new edition enables readers to access the information they require *

Brand new chapters focus on monitoring control systems and HiMSEN engines. *

Over 270 high quality, clearly labelled illustrations and figures to aid understanding and help

engineers quickly identify what they need to know.

Modernising Lenin's Russia Anthony Heywood, 1999-08-19 In this book Anthony Heywood reassesses Bolshevik attitudes towards economic modernization and foreign economic relations during the early Soviet period. Based on hitherto unused Russian and Western archives, he examines an extraordinary decision made in March 1920 to import vast quantities of railway equipment. The book argues that under War Communism and the NEP railway modernization was vital to a strategy of rapid economic modernization, and provides the first detailed case study of the government's import policy. Following the histories of the principal contracts, it analyses Soviet foreign trade as a means to tackle domestic economic challenges. This book provides readers with a new perspective on Soviet economic development, and reveals the scale of Bolshevik business dealings with the capitalist West immediately after the Revolution.

Analyzing Monsters - Family Cures Dr. Dan Budenz, 2010-07-08 This book is not all about Drew Peterson. I wanted to write a book that would be an answer the question "What five books in your family library do you wish to pass on to your children and grandchildren?" Hopefully someday I will write one. In this book I will exhibit tough love and play Devil's advocate with many monsters and monstrous events. I will present my findings and analysis of all that may threaten you and your family. As a cure for families we recommend that all of us move beyond the monstrous ego and money-oriented

selfishness of “Modern Medicine,” “Modern Banking,” “Modern Justice,” “Modern King Government,” and “Modern Me.” I advocate we thread old-fashioned family values into the solutions and cures of new Smart Systems™. Our “modern” institutions need serious rehab in order to assist, not just one but, all members of today’s family with respect care and love. Today’s technology confirms our corporate motto: WE ARE ALL ONE BIG FAMILY – ENJOY IT! We have called for an annual international week of Sobriety and Serenity each January 5th through the 12th as a small pathway to change and a way to remember and heal families in pain. I apologize in advance to families covered too briefly in this book. It is impossible to express the sorrow one feels when a loved one dies or disappears. I empathize your loss. Make sure you develop your own family support treatment team that includes proper medical, recreational, dietary, work, fiscal, spiritual, psychological and physical life areas. Involve the proper professionals as you apply the family change therapies recommended in this book or online rehab. While we use and teach tough love techniques, we believe the focus of this therapy needs to be on the illness or disease of our loved ones - never against any person. We pray the recipients of tough love in this book find peace and serenity in their life. We know we can all enjoy some good belly laughs in the future as we continue to support each other and our families. We hope the weaving of cases; common sense psychology of the California Recovery Model and ‘Secrets of Rehab’ are educational, as well as, entertaining for you. Please note that this book presents only a few rehab secrets and introductory recovery techniques. Visit our ever-expanding website www.OnlineRehabClinic.com and online rehab for this “tip of the iceberg” effort towards helping you and your family.
